**Walkable City** Jeff Speck, 2012-11-13 Jeff Speck has dedicated his career to determining what makes cities thrive And he has boiled it down to one key factor walkability The very idea of a modern metropolis evokes visions of bustling sidewalks vital mass transit and a vibrant pedestrian friendly urban core But in the typical American city the car is still king and downtown is a place that's easy to drive to but often not worth arriving at Making walkability happen is relatively easy and cheap seeing exactly what needs to be done is the trick In this essential new book Speck reveals the invisible workings of the city how simple decisions have cascading effects and how we can all make the right choices for our communities Bursting with sharp observations and real world examples giving key insight into what urban planners actually do and how places can and do change Walkable City lays out a practical necessary and eminently achievable vision of how to make our normal American cities great again

Killed by a Traffic Engineer Wes Marshall, 2024-06-04 Fixing the carnage on our roadways requires a change in mindset and a dramatic transformation of transportation This goes for traffic engineers in particular because they are still the ones in charge of our streets In Killed by a Traffic Engineer civil engineering professor Wes Marshall shines a spotlight on how little science there is behind the way that our streets are engineered which leaves safety

as an afterthought While traffic engineers are not trying to cause deliberate harm to anyone he explains they are guilty of creating a transportation system whose designs remain largely based on plausible but unproven conjecture Killed by a Traffic Engineer is ultimately hopeful about what is possible once we shift our thinking and demand streets engineered for the safety of people both outside and inside of cars It will make you look at your city and streets and traffic engineers in a new light and inspire you to take action

very means by which that renewal can happen Walking Home is both Ken s story and a lesson in turning the world s urban spaces back into places that can give us not only a platform to face the challenges of the future but also a place we can call with pride and satisfaction home
