Naked Nagas:

The Naked Nagas Christoph von Fürer-Haimendorf,1932 **Seekers of the Naked Truth** Paul LeValley,2018-01-01
Why would I spend a good portion of my time over the last 35 years gathering information on the Gymnosophists The story begins even earlier As an undergraduate student in the Flint College of the University of Michigan I pursued an English major with a strong history minor always looking for something between the two and rarely finding it Then in my practice teaching I happened into one of the early experimental high school courses in Interdisciplinary Humanities With the exciting interrelationships between art literature music philosophy and history I said YES this was what I had been looking for So I pioneered in teaching high school Humanities for the next few years Interdisciplinary Humanities was a bottom up movement Gradually colleges began offering Masters programs to give teachers the rich background they needed I decided I was not tied to Michigan where it was cold I would find the best Masters program in Humanities anywhere in the world and go there Well it turned out that the best Masters program in the world was at Wayne State University in Detroit of all places Unlike other programs that were really just double majors Wayne offered truly interdisciplinary classes Moreover they offered an Eastern track and a Western track Knowing that I would never find that Eastern track anywhere else I studied interdisciplinary courses in the cultures of India China Japan and Egypt The middle eastern professor was on sabbatical when I was there I especially liked India perhaps because I had already travelled around the world and India impressed me the most **The Naga Ethnic Movement for a Separate Homeland** Namrata Goswami,2020-01-17 Namrata Goswami s research on the Naga armed ethnic movement offers a compelling narrative on how conflict has affected the daily lives of the Nagas This volume is an account of the Naga ethnic movement going on in India since 1918 covering both historical and contemporary aspects of the conflict Based on over a decade of ethnographic work among the Naga rebels and movement zones personal interviews and secondary data the author offers insights into how the Naga population perceives their meeting point with the institutions of the Indian state especially the army and the paramilitary The book documents what it is like to live in a conflict zone and the restraints and thought processes that it cultivates especially among the youth The book reveals gripping stories of tremendous courage and conviction from people who have thought about the political unrest been born into it taken part in it or have been affected by it The Naga Ethnic Movement for a Separate Homeland reflects the Nagas love for their land tracing the poignant mix of nature land identity emotions culture as well as the inter ethnic differences that exacerbate the conflict **The Angami Nagas** John Henry Hutton,1921 Naga Identity Braj Bihari Kumar,Braja Bihārī Kumāra,2005 **Change and Development in Phom Naga Society** A. Rahman,2015-01-01 Change and Development in Phom Naga Society is a comprehensive book which describes the various socio political aspects of the Phom Naga Tribe of Nagaland The book throws light on the topographical and demographic character of Longleng district the home of the Phoms along with their traditional beliefs customs and institutions and also their stages of migration to the

present domicile The study highlights the emergence of the Phom identity and their relations with the neighbours Elaborate discussions are made especially on the social change economic transformation from traditional to a modern economy administrative and political development of the people with references to their role in the political process of the state since independence Assessing the pace of development that has been witnessed in the Phom inhabited areas over the bygone decades the author tries to trace the internal and external challenges which the society has been facing The book will definitely be useful to researchers planners policy makers and social workers *Tribal Populations and Cultures of the Indian Subcontinent* C. von Fürer-Haimendorf,2022-03-07 In the Shadows of Naga Insurgency Jelle J.P.

Wouters,2018-05-08 In the Shadows of Naga Insurgency is a fine grained critique of the Naga struggle for political redemption the state s response to it and the social corollaries and carry overs of protracted political conflict on everyday life Offering an ethnographic underview Jelle Wouters illustrates an insurgency complex that reveals how embodied experiences of resistance and state aggression violence and volatility and struggle and suffering link together to shape social norms animate local agitations and complicate inter personal and inter tribal relations in expected and unexpected ways The book locates the historical experiences and agency of the Naga people and relates these to ordinary villagers perceptions actions and moral reasoning vis vis both the Naga Movement and the state and its lucrative resources It thus presses us to rethink our views on tribalism conflict and ceasefire development corruption and democratic politics *Assam District Gazetteers: Naga Hills and Manipur* Basil Copleston Allen,1905 **Marriage and Customs of Tribes of India** J. P. Singh Rana,1998

The aim of the book is to unwind the problems tensions adjustments and expectations of educated working class of women and present genuine suggestive measures to make the family more comfortable and meaningful **The Value of Comparison**

Peter van der Veer,2016-05-19 In The Value of Comparison Peter van der Veer makes a compelling case for using comparative approaches in the study of society and for the need to resist the simplified civilization narratives popular in public discourse and some social theory He takes the quantitative social sciences and the broad social theories they rely on to task for their inability to question Western cultural presuppositions demonstrating that anthropology s comparative approach provides a better means to understand societies This capacity stems from anthropology s engagement with diversity its fragmentary approach to studying social life and its ability to translate difference between cultures Through essays on topics as varied as iconoclasm urban poverty Muslim immigration and social exclusion van der Veer highlights the ways that studying the particular and the unique allows for gaining a deeper knowledge of the whole without resorting to simple generalizations that elide and marginalize difference *Languages of the Himalayas* George van Driem,2022-09-12 The survey work Languages of the Himalayas provides a bird s eye view of Himalayan languages and language communities It also constitutes a primary source for much new hitherto unpublished data on several languages The demographic mosaic of the Himalayas today is viewed in a historical and comparative linguistic perspective The reader will find an outline of the

historical and prehistorical developments that have determined the modern ethnolinguistic composition of the Himalayan region involving various independent linguistics stocks or language families Maps illustrate the distribution of language communities and trace the routes of ancient migrations There is an illuminating discussion of grammatical features found in Himalayan languages The print edition is available as a set of two volumes 9789004103900 *Journal of the Asiatic Society of Bengal* Asiatic Society (Kolkata, India),1903 **Journal of the Asiatic Society of Bengal** ,1901 **Journal of the Asiatic Society of Bengal** Asiatic Society (Kolkata, India),1899 *Tribes Of The Brahmaputra Valley (the): A Contribution Of Their Physical Types And Affinities* L.A. Waddell,1999 *Living with Oil and Coal* Dolly Kikon,2019-04-15 The nineteenth century discovery of oil in the eastern Himalayan foothills together with the establishment of tea plantations and other extractive industries continues to have a profound impact on life in the region In the Indian states of Assam and Nagaland everyday militarization violence and the scramble for natural resources regulate the lives of Naga Ahom and Adivasi people as well as migrants from elsewhere in the region as they struggle to find peace and work Anthropologist Dolly Kikon uses in depth ethnographic accounts to address the complexity of Northeast India a region between Southeast Asia and China where boundaries and borders are made disputed and maintained Bringing a fresh and exciting direction to borderland studies she explores the social bonds established through practices of resource extraction and the tensions these relations generate focusing on peoples love for the landscape and for the state as well as for family friends and neighbors *Living with Oil and Coal* illuminates questions of citizenship social justice and environmental politics that are shared by communities worldwide
