Corporate Imaginations Mari Dumett, 2017-08-22 The first extended study of the renowned artists' collective Fluxus Corporate Imaginations examines the group as it emerged on three continents from 1962 to 1978 in its complexities, contradictions, and historical specificity. The collective's founder George Maciunas organized Fluxus like a multinational corporation simulating corporate organization and commodity flows; yet it is equally significant that he imagined critical art practice in this way at that time. For all its avant-garde criticality, Fluxus also ambivalently shared aspects of the rising corporate culture of the day. In this book, Mari Dumett addresses the business of Fluxus and explores the larger discursive issues of organization, mediatization, routinization, automation, commoditization, and systematization that Fluxus artists both manipulated and exposed. A study of six central figures in the group—George Brecht, Alison Knowles, George Maciunas, Nam June Paik, Mieko Shiomi, and Robert Watts—reveals how they developed historically specific strategies of mimicking the capitalist system. These artists appropriated tools, occupied spaces, revealed operations, and ultimately performed the system itself via aesthetics of organization, communication, events, branding, routine, and global mapping. Through corporate imaginations, Fluxus artists proposed strategies for living as conscious creative subjects within a totalizing and increasingly global system, demonstrating how these strategies must be repeated in an ongoing negotiation of new relations of power and control between subject and system.

Media, Modernity and Technology David Morley, 2006-09-27 From best-selling author David Morley, this book presents a set of interlinked essays which discuss and examine some of the key debates in the fields of media and cultural studies. Spanning the last decade, this fascinating and readable book is based on interdisciplinary work on the interface of media and cultural studies, cultural geography, and anthropology. Clearly structured in five thematic sections, the book surveys the potential contribution of art-based discourses to the field and offers critical perspectives on the emergence of the new media of our age. Including discussion on the status and future of media and cultural studies as disciplines, the significance of technology and new media, and raising questions about the place of the magical in the newly emerging forms of techno-modernity in which we live today, this is a media student must-read.

Art and Dance in Dialogue Sarah Whatley, Imogen Racz, Katerina Paramana, Marie-Louise Crawley, 2020-11-07 This interdisciplinary book brings together essays that consider how the body enacts social and cultural rituals in relation to objects, spaces, and the everyday, and how these are questioned, explored, and problematized through and translated into dance, art, and performance. The chapters are written by significant artists and scholars and consider practices from various locations including Central and Western Europe, Mexico, and the United States. The authors build on dialogues between, for example, philosophy and museum studies, and memory studies, and post-humanism, and engage with a wide range of theory from phenomenology to relational aesthetics to New Materialism. Thus, this book represents a unique collection that

Contemporary Chinese Art, Aesthetic Modernity and Zhang Peili Paul Gladston, 2019-10-17 In recent decades the previously assumed dominance within the international art world of westernized conceptions of aesthetic modernity has been challenged by a critically becalming diversification of cultural outlooks widely referred to as contemporaneity. Contributing to that diversification are assertions within mainland China of essential differences between Chinese and western art. In response to the critical impasse posed by contemporaneity, Paul Gladston charts a historical relay of mutually formative interactions between the artworlds of China and the West as part of a new transcultural theory of artistic criticality. Informed by deconstructivism as well as syncretic Confucianism, Gladston extends this theory to a reading of the work of the artist Zhang Peili and his involvement with the Hangzhou-based art group the Pond Association. *Chi she Revealed* is a critical aesthetic productively resistant to any single interpretative viewpoint, including those of Chinese exceptionalism and the supposed immanence of deconstructivist uncertainty. Addressing art in and from the People's Republic of China as a significant aspect of post-West contemporaneity, Gladston provides a new critical understanding of what it means to be contemporary and the profound changes taking place in the art world today.

Avant-garde Performance Günter Berghaus, 2017-09-16 How did the concept of the avant-garde come into existence? How did it impact on the performing arts? How did the avant-garde challenge the artistic establishment and avoid the pull of commercial theatre, gallery and concert hall circuits? How did performance artists respond to new technological developments? Placing key figures and performances in their historical social and aesthetic context, Günter Berghaus offers an accessible introduction to post-war avant-garde performance. Written in a clear, engaging style and supported by text boxes and illustrations throughout, this volume explains the complex ideas behind avant-garde art and evocatively brings to life the work of some of its most influential performance artists. Covering hot topics such as multi-media and body art performances, this text is essential reading for students of theatre studies and performance.

Smile of the Buddha Jacquelyn Baas, 2005 The relations between eastern and western cultures have long been a neglected topic, and this careful and intelligent look at a small but significant part of those relations is most welcome. Thomas McEvilley, author of *The Shape of Ancient Thought*. How wonderful that Jacquelyn Baas has seen the light of the Buddha's smile shining from faraway Asia into the realm of the art of modern times in what we think of as the West. Her work reveals how some of our most influential artists explored and expressed the sophisticated perceptions and joyful energy emanating from the realm of Buddhist Asia. Robert A. F. Thurman, a Buddhist scholar and artist. I welcome this thoughtful and richly detailed study of how many aspects of Buddhism have stimulated, invigorated and enriched Western arts over the past 150 years. Stephen Addiss, author of *The Art of Zen*. A crucial contribution to modern art studies, this high-spirited text surveys Western artists awakened by the wisdom of the East, from Monet and Duchamp to O'Keeffe to Martin. It is a thoughtful book about thoughtful artists, their values and their visions, with a lot to offer general readers and specialists alike. Charles Stuckey.
