Re-Viewing Resistance in Namibian History Jeremy Silvester,2015-07-13 Re Viewing Resistance in Namibian History brings together the work of experienced academics and a new wave of young Namibian historians architects of the past They are working on a range of public history and heritage projects from late nineteenth century resistance to the use of songs from the role of gender in SWAPO s camps to memorialisation and from international solidarity to aspects of the history of Kavango and Caprivi In a culturally and politically diverse democracy such as Namibia there are bound to be different perspectives on the past and history will be as plural as the history tellers The chapters in this book reflect this diversity and combine to create a remarkable collection of divergent voices providing alternative perspectives on the past The book writes forgotten people into history provides a reading of the past that reflects the tensions and competing identities that pervaded the struggle and deals with heritage that hurts

Ruling Nature, Controlling People Luregn Lenggenhager,2018-09-17 Recent nature conservation initiatives in Southern Africa such as communal conservancies and peace parks are often embedded in narratives of economic development and ecological research They are also increasingly marked by militarisation and violence In *Ruling Nature Controlling People* Luregn Lenggenhager shows that these features were also characteristic of South African rule over the Caprivi Strip region in North Eastern Namibia especially in the fields of forestry fisheries and ultimately wildlife conservation In the process the increasingly internationalised war in the region from the late 1960s until Namibias independence in 1990 became intricately interlinked with contemporary nature conservation ecology and economic development projects By retracing such interdependencies Lenggenhager provides a novel perspective from which to examine the history of a region which has until now barely entered the focus of historical research He thereby highlights the enduring relevance of the supposedly peripheral Caprivi and its military scientific and environmental histories for efforts to develop a deeper understanding of the ways in which apartheid South Africa exerted state power

Apartheid's Black Soldiers Lennart Bolliger,2021-10-01 New oral histories from Black Namibian and Angolan troops who fought in apartheid South Africa s security forces reveal their involvement and its impact on their lives to be far more complicated than most historical scholarship has acknowledged In anticolonial struggles across the African continent tens of thousands of African soldiers

served in the militaries of colonial and settler states In southern Africa they often made up the bulk of these militaries and in some contexts far outnumbered those who fought in the liberation movements armed wings Despite these soldiers significant impact on the region s military and political history this dimension of southern Africa s anticolonial struggles has been almost entirely ignored in previous scholarship Black troops from Namibia and Angola spearheaded apartheid South Africa s military intervention in their countries respective anticolonial war and postindependence civil war Drawing from oral history interviews and archival sources Lennart Bolliger challenges the common framing of these wars as struggles of national liberation fought by and for Africans against White colonial and settler state armies Focusing on three case studies of predominantly Black units commanded by White officers Bolliger investigates how and why these soldiers participated in South Africa s security forces and considers the legacies of that involvement In tackling these questions he rejects the common tendency to categorize the soldiers as collaborators and traitors and reveals the un national facets of anticolonial struggles Finally the book s unique analysis of apartheid military culture shows how South Africa s military units were far from monolithic and instead developed distinctive institutional practices mythologies and concepts of militarized masculinity

Lyrical Nationalism in Post-Apartheid Namibia Wendi A. Haugh, 2014-06-25 When Namibia gained its independence from South Africa in 1990 the new government began dismantling the divisive apartheid state and building a unified nation state What does this new nation look like from the perspective of ordinary citizens In *Lyrical Nationalism in Post Apartheid Namibia* Wendi Haugh provides an ethnographic portrayal of the nation as imagined by people living in the former ethnic homeland of Ovamboland with a particular focus on the lyrics of songs composed and performed by Catholic youth The author argues that these youth draw on conflicting ideologies hierarchical and egalitarian nationalist and cosmopolitan from multiple sources to construct a multi faceted sense of national identity She reveals how their vision of the nation framed as neutrally national is deeply rooted in specific local histories and cultures
