Stanley Hauerwas

Naming The Silences God Medicine And The Problem Of Suffering:

Naming the Silences Stanley Hauerwas, 1990 Drawing heavily on stories of ill and dying children to illustrate and clarify his discussion of theological issues Stanley Hauerwas explores why we seek explanations for suffering and evil so desperately in today's world Modern medicine he declares has too often become a noisy way to hide the gaping silences created by the painful experience of childhood illness and death Alternatively he shows us a God who can give a voice to that pain in a manner that at least gives us a way to go on From publisher's description **Naming the Silences** Stanley Hauerwas, 2004-10-07 Hauerwas explores why we so fervently seek explanations for suffering and evil and he shows how modern medicine has become a god to which we look in vain for deliverance from the evils of disease and mortality

Health, Healing and the Church's Mission Willard M. Swartley, 2012-07-19 Does the Christian community have the resources to develop a coherent response to today's health care challenges In a comprehensive survey covering the full scope of the Bible and three millennia of Christian belief and practice Willard Swartley fleshes out the central place of health care in the church's mission *Ethical Issues in Biotechnology* Richard Sherlock, John D. [Traces of the Trinity](#) Andrew Robinson, 2014-08-28 The essential argument of this new work by Andrew Robinson is that we live move and have our being within a sea of signs but that we are largely unaware of this for most of the time When the structure of these signs is analysed it turns out to rest on three recurring elemental grounds which the author calls Quality Otherness and Mediation The kaleidoscopic ramifying patterns of Quality Otherness and Meditation which underpin representations and interpretations at every level and dimension of the processes of signification offer a model of the dynamic mutual indwelling of the Father Son and Spirit within the eternal life of the Trinity This semiotic model of the Trinity would be of rather limited interest in itself unless it can also illuminate other areas of Christian theology Robinson suggests that the model leads to a helpful way of understanding how the entirely human person Jesus of Nazareth may be understood to have been the full and perfect embodiment representation of the quality of God's being This in turn helps us to understand how the processes of representation and interpretation enable us to be drawn into the very life of God This has practical implications for the church and for the individual lives of Christian believers It also offers via a re-articulation of the neglected concept of vestiges of the Trinity in creation a form of spirituality of the everyday **Methods in Medical Ethics**

Jeremy Sugarman, Daniel P. Sulmasy, 2010-10-15 Medical ethics draws upon methods from a wide array of disciplines including anthropology economics epidemiology health services research history law medicine nursing philosophy psychology sociology and theology In this influential book outstanding scholars in medical ethics bring these many methods together in one place to be systematically described critiqued and challenged Newly revised and updated chapters in this second edition include philosophy religion and theology virtue and professionalism casuistry and clinical ethics law history qualitative research ethnography quantitative surveys experimental methods and economics and decision science This second edition

also includes new chapters on literature and sociology as well as a second chapter on philosophy which expands the range of philosophical methods discussed to include gender ethics communitarianism and discourse ethics In each of these chapters contributors provide descriptions of the methods critiques and notes on resources and training Methods in Medical Ethics is a valuable resource for scholars teachers editors and students in any of the disciplines that have contributed to the field As a textbook and reference for graduate students and scholars in medical ethics it offers a rich understanding of the complexities involved in the rigorous investigation of moral questions in medical practice and research

Our Only Hope Margaret B Adam, 2014-08-28 The most popular source of theological hope for modern Christians is that of Jurgen Moltmann Preachers teachers and lay people reflect Moltmann's influence with their hope in a this worldly eschatology and suffering God However an exclusive reliance on that hope deprives the church of crucial resources in the face of global economic environmental and military crises Our Only Hope explores Moltmannian hope and considers its costs before looking elsewhere for additional contributions from Thomas Aquinas theological virtue of hope to nihilism and beyond in order to encourage the church to sustain and practise hope in Jesus Christ our only hope

Christianity and the Culture of Relativism in the Anthropologies of Joseph Ratzinger and Stanley Hauerwas Charles Ssenyondo STL STD, 2012-12-17 Joseph Ratzinger rates relativism as the greatest challenge of the Church today What he describes is not a new phenomenon but his theology highlights its origins and magnitude Stanley Hauerwas fights the same battle on the Protestant side This book attempts to discover and streamline their deliberations showing their meeting points and where they differ and remedies they offer to combat the crisis It seeks to argue out the best response to relativism that can most appropriately benefit both Western and African Christendom Despite being a Western phenomenon relativism is no longer an exclusively Western problem It is rather imposing itself as the new world culture depicting all other cultures and perspectives as inferior Ratzinger christened this the Dictatorship of Relativism while Hauerwas calls it Policing of Christian Values While Ratzinger's greatest worry is relativism's denial of Truth mostly from outside the ekklesia for Hauerwas relativism is not a force from without of the Church but part and parcel of the people's modern ways of life in which Christian values are persecuted in the name of peaceful existence Both perspectives point at a crisis of cultures where the past is rejected and the future disconnected from the present which trend inevitably leads to disintegration a leap into the dark While the pre Modern world sought God the Modern world sought knowledge The contemporary world seeks relativism But all is not lost The truth can still be found through the word of God and Christian culture

Patience, Compassion, Hope, and the Christian Art of Dying Well Christopher P. Vogt, 2004 By mining the rich tradition of virtue ethics Christopher Vogt uses the virtues of patience compassion and hope as a framework for specifying the shape of a good death and for naming the practices Christians should develop to live well and die well Bringing together historical biblical and contemporary sources in Christian ethics Vogt provides a long overdue theological analysis of the ars moriendi or art of dying literature of four centuries ago Through a

careful analysis of Luke's passion narrative Vogt uses Jesus as the primary model for being patient in the face of death and for dying well *Theodicy and Eschatology* Bruce Barber, David Neville, 2005 This collection of essays examines two pressing issues in theology One is theodicy that is a belief that in a just God in the face of evil and suffering in our world The other is the issue of Eschatology a belief in the fulfilment of Jesus' saving mission experienced as God's healing of humanity afflicted by suffering and evil
