## **Nanxun Legacy And Chinas Development In The Postdeng Era:**

**The Nanxun Legacy And China's Development In The Post-deng Era** John Wong, Yongnian Zheng, 2001-06-14 In the spring of 1992 Deng Xiaoping made a historical tour of south China popularly known as the Nanxun southern tour During the tour he boldly called for more radical economic reform and further opening up of China The Nanxun has become a political landmark in the history of the People s Republic of China much like great events such as the Great Leap Forward the Cultural Revolution and the 1989 Tiananmen crackdown Deng Xiaoping has left his own legacy for the country The Nanxun belongs to Deng just as the 1911 revolution belongs to Sun Yat sen and the communist revolution to Mao Zedong In this collection of articles leading China scholars and experts analyze how the Nanxun has sparked off dynamic economic growth in China and drastically changed the political and social landscape of the country *Zhu Rongji And China's Economic Take-off* John Wong, 2016-04-25 Following Deng Xiaoping s economic reform and opening Gaige Kaifang policy China experienced unprecedented high growth for over three decades Crucial in the process was the role of Zhu Rongji who was hand picked by Deng initially as Executive Vice Premier and later full Premier to carry through the needed reform and manage the critical marketization process through the turbulent 1990s when China s economy suffered many ups and downs Dubbed as China s Economic Czar Zhu tackled many thorny problems associated with the country s then half reformed economy ably and effectively thereby laying the ground for subsequent periods of greater dynamic growth Zhu was instrumental in preparing China s economy for its final take off The chapters in this volume were originally written as policy briefings for the Singapore government from 1997 to 2003 when Zhu was Premier They cover a wide variety of topics including how he had applied his own way of macroeconomic control Hongguan Tiaokong how he went about reforming taxation foreign exchange and state owned enterprises and finally his embrace of capitalism Each chapter is preceded by a detailed introduction highlighting the main issues and interpreting them from today s perspective based on updated information and additional new research **China's Regions in an Era of Globalization** Tim Summers, 2018-06-19 The rise of China has been shaped and driven by its engagement with the global economy during a period of intensified globalization yet China is a continent sized economy and society with substantial diversity across its different regions This means that its engagement with the global economy cannot just be understood at the national level but requires analysis of the differences in participation in the global economy across China s regions This book responds to this challenge by looking at the development of China s regions in this era of globalization It traces the evolution of regional policy in China and its implications in a global context Detailed chapters examine the global trajectory of what is now becoming known as the Greater Bay Area in southern China the globalization of the inland mega city of Chongqing and the role of China s regions in the globally focused belt and road initiative launched by the Chinese government in late 2013 The book will be of interest to practitioners and scholars engaging with contemporary China s political economy and international relations *China's*

*Reform in Global Perspective* John Wong,Zhiyue Bo,2010 This book provides a fascinating perspective of the experiences of China's reform in the past three decades by focusing on China's interaction with and learning from the external world in her unprecedented efforts to reform and open up After three introductory chapters on broad scope of reform in the political economic and social realms this book deals with lessons from the Eastern Bloc China's reform in East Asian context and China and the developed world The book concludes with two chapters looking to the future of China's political and economic development In the existing literature of China's reform experience this book is unique in perspective topic selection and in depth analyses With contributions from a group of prominent scholars in the field of China studies such as John Wong Zheng Yongnian Thomas P Bernstein Dorothy J Solinger and Bo Zhiyue it will be of immense value to anyone who is interested in China

**The Culture of Leadership in Contemporary China** Paul Michael Linehan,2017-12-06 The resurgence of Confucianism Daoism and Buddhism in the context of Chinese leadership values has emerged as a foundation for a new generation of leaders The once in a decade transition of China's leadership witnessed the ascendancy of a consensus oriented fifth generation of leaders supporting a central authoritative figure whose priority will likely include the reconciliation of a waning communist ideology juxtaposed with its ostensible embrace of capitalism How will Chinese Communist Party authority ideology and control address the encroachment of Western values that are centered on Roman law Greek philosophy and Christian religion which prioritizes individual freedom and democracy This book examines the role of traditional Chinese values ideology and philosophy as a key determinant in modern China's leadership succession The author asserts that as communist ideology wanes Chinese leaders will turn to their own traditional values found in Confucianism Daoism and Buddhism to establish legitimacy to rule as they seek to promote Chinese prominence and greatness in the world The author's research assesses China's promotion of its own traditional values in rejecting foreign value influence Since the inception of modern China at the beginning of the 20th century China's leadership transition has evolved from an authoritarian cult like dictatorship to a consensus oriented process In researching this metamorphosis this book offers social political cultural and historical perspectives to demonstrate that Chinese human values and character factors have risen in prominence as key elements in the mandate of Chinese governance and leadership The author concludes that Chinese leadership values and its study and diffusion across sectors of Chinese leadership including business organizations and government have become a means to accentuate Chinese values as a viable alternative to Western claims of absolute and universally accepted values

**The Teahouse Under Socialism** Di Wang,2018-06-15 This text explores urban public life through the microcosm of the Chengdu teahouse Like most public spaces the teahouse was and still is an enduring symbol of Chinese popular culture stemming back centuries and prevailing through political transformations modernization and globalization The time period covered begins basically with the establishment of the People's Republic in 1949 50 goes through the end of the Cultural Revolution and into the post Mao reform era

statistical information and data analysis It evidences how political development in the reform era has led to the division of labour between the Chinese Communist Party CCP and the government in governance leading to two distinctive career paths in the two political systems respectively Key issues examined include the different criteria the CCP and the government demand the requirements for promotion the effect of university education on the rate of mobility the different affiliations of the two groups the role of cooptation in leadership selection Many of the elites discussed are still leading figures in China making this book the most up to date and extensive biographical data set in elite studies This allows for a meaningful analysis of elite behaviour in China for the first time in Chinese Studies This book will be useful to both students of Chinese studies and comparative politics and will also interest researchers political commentators statesmen and China watchers **How**

**China Became Capitalist** R. Coase,N. Wang,2016-04-30 *How China Became Capitalist* details the extraordinary and often unanticipated journey that China has taken over the past thirty five years in transforming itself from a closed agrarian socialist economy to an indomitable economic force in the international arena The authors revitalise the debate around the rise of the Chinese economy through the use of primary sources persuasively arguing that the reforms implemented by the Chinese leaders did not represent a concerted attempt to create a capitalist economy and that it was marginal revolutions that introduced the market and entrepreneurship back to China Lessons from the West were guided by the traditional Chinese principle of seeking truth from facts By turning to capitalism China re embraced her own cultural roots *How China Became Capitalist* challenges received wisdom about the future of the Chinese economy warning that while China has enormous potential for further growth the future is clouded by the government s monopoly of ideas and power Coase and Wang argue that the development of a market for ideas which has a long and revered tradition in China would be integral in bringing about the Chinese dream of social harmony *Communists constructing capitalism* Julian Gruin,2019-07-04 Why has China s transition to a market economy not catalysed corresponding political transformation In an era of deepening synergy between authoritarian politics and capitalist economics this book offers a novel perspective on this central dilemma of contemporary Chinese development shedding light on how the Chinese Communist Party achieved rapid economic growth while preserving political stability Drawing on extensive fieldwork and over sixty interviews with policymakers bankers and former party and state officials the book delves into the role of China s state owned banking system since 1989 showing how political control over capital has been central to the country s experience of capitalist development It challenges existing state market paradigms of political economy and reveals the Eurocentric assumptions underpinning liberal perspectives towards Chinese authoritarian resilience **Politics in China Since 1949** Robert Weatherley,2007-01-24 Since the victory of the 1949 revolution the incumbency of the Chinese Communist Party has been characterized by an almost relentless struggle to legitimize its monopoly on political power During the Mao era attempts to derive legitimacy focused primarily on mass participation in political affairs a blend of Marxist and nationalist ideology and the charismatic authority of Mao Zedong

The dramatic failure of the Cultural Revolution forced the post Mao leadership to discard these discredited paradigms of legitimacy and move towards an almost exclusively performance based concept founded on market economic reform. The reforms during the 1980s generated a number of unwelcome but inevitable side effects such as official corruption, high unemployment and significant socio economic inequality. These factors culminated ultimately in the 1989 demonstrations in Tiananmen Square and throughout China. Since Tiananmen, the party has sought to diversify the basis of its legitimacy by adhering more closely to constitutional procedures in decision making and to a certain extent by reinventing itself as a conservative nationalist party. This probing study of post communist revolution Chinese politics sets out to discover if there is a plausible alternative to the electoral mode or if legitimacy is the exclusive domain of the multi party system.

Chineseness And Modernity In A Changing China: Essays In Honour Of Professor Wang Gungwu Yongnian Zheng, Litao Zhao, 2020-02-13. This book is a collection of essays in honour of Professor Wang Gungwu. Professor Wang is not only a great historian on Chinese history in general and the Chinese overseas in particular but has much wider influence through remarkable domain crossing, namely spatial crossing characterised by geographical straddling between inside and outside of China, temporal crossing from the ancient past to the contemporary, inter disciplinary crossing from history to the social sciences and intellectual crossing from the academia to public activism. He has been a long lasting source of inspiration for understanding some of the most pressing and complex issues in our times including the nature of China's rise and its implications for the regional and world order. In a nutshell, this book presents Wang as a highly active educator, scholar who has achieved the highest academic standard as well as far reaching influence over issues that concern all walks of life. By focusing on the theme of Chineseness and China's modernity, this book adds depth to the analysis of China's rise and its implications for the region and the world. It contains a chapter providing the most comprehensive and updated review of Wang's scholarship thus far. Another chapter demonstrates how Wang, based on his deep understanding of Chinese civilisation and history, articulates a distinct view of the world order that differs from either the thesis of Thucydides's trap or the advocacy of mutual accommodation. Interestingly, this book also includes a chapter that highlights Wang's Southeast Asian ness, suggesting that Wang's scholarship cautions against not only western centric views towards China but also Sino centric views towards Southeast Asia. In short, this edited volume is both a reference book for understanding Wang's scholarship and an extension of his scholarship to the analysis of China's growing international influence and its implications for the world order.

*The Transformation of Rural China* Jonathan Unger, 2016-09-16. During the past quarter century, Jonathan Unger has interviewed farmers and rural officials from various parts of China in order to track the extraordinary changes that have swept the countryside from the Maoist era through the Deng era to the present day. A leading specialist on rural China, Professor Unger presents a vivid picture of life in rural areas during the Maoist revolution and then after the post Mao disbandment of the collectives. This is a story of unexpected continuities amidst enormous change. Unger describes how

rural administrations retain Mao era characteristics despite the major shifts that have occurred in the economic and social hierarchies of villages as collectivization and class struggle gave way to the slogan to get rich is glorious A chapter explores the private entrepreneurship that has blossomed in the prosperous parts of the countryside Another focuses on the tensions and exploitation that have arisen as vast numbers of migrant laborers from poor districts have poured into richer ones Another based on five months of travel by jeep into impoverished villages in the interior describes the dilemmas of under development still faced by many tens of millions of farmers and the ways in which government policies have inadvertently hurt their livelihoods

China's Post-Jiang Leadership Succession John Wong, 2002 As the 16th Congress of the Chinese Communist Party October 1st 2002 draws near China watchers in Washington Tokyo Taipei and many other places have their eyes intently fixed on the political scene in Beijing Most are predicting problems involved in the transition process as well as speculating on the final leadership line up Nevertheless such speculation is intellectually rather futile To avoid being too speculative the contributors to this book have focused instead on two key aspects of China's leadership transition first changes in the politics of leadership transition and second real and potential problems and challenges that China's younger fourth generation leaders have to grapple when they take over

*Civilization and the Chinese Body Politic* Yongnian Zheng, 2022-11-22 In this important and hugely ambitious book one of the world's leading political scientists working on China demonstrates how Western views of China are flawed because the long tradition of Western scholarship studying China views China from the Western philosophical and intellectual perspective rather than viewing China on its own terms through the lens of China's own long established and reputable philosophical and intellectual tradition Providing a deep analysis of Western scholarship on China including work from Leibniz to Marx to Weber and then to Wittfogel and a thorough account of the evolution of China's own thinking about governance as expressed in the practices of successive Chinese dynasties the book goes on to examine how the current Chinese body politic fits with and is the natural outcome of China's own long well thought through and well practiced intellectual consideration of what the nature of civilized governance should be By focusing on philosophical and intellectual approaches rather than on theoretical or methodological ones the book shows how the huge and increasing disconnect between non Chinese views of China and Chinese ones has come about

The Chinese Worker After Socialism William Hurst, 2009-03-05 This fascinating study considers the fate of 35 million workers laid off from the state owned sector in China

*China Pluperfect II* Frank Vigneron, 2022-07-01 This book contains analysis of different domains of contemporary art in China seen through the lens of the epistemological changes described in China Pluperfect I Epistemology of Past and Outside in Chinese Art It first looks at the concept of ink art describing how it meant different things to different people in the former colony and how these different meanings came to determine certain institutional choices made at the beginning of the 21st century The following chapters are dedicated to issues related to the urban and rural contexts for art creation in Mainland China and Hong Kong One chapter observes the ups and downs of the

representations of cities in the history of the People's Republic of China and how they have defined a certain idea of culture. Another looks at how Chinese cities have been exceptional centers of art creations over the last thirty to forty years through the example of Shenzhen where a vibrant art scene albeit closely connected to Hong Kong which has become a major art hub in the last two decades has developed. The following is dedicated to the changing fortunes of art making in the countryside observing how institutions in the Mainland and in Hong Kong have supported these practices very differently. Frank Vigneron finally considers how the different speeds of globalization slow in the past and fast today have determined some of the issues of past and outside in the present particularly in the context of socially engaged art in both the Mainland and Hong Kong.
