The Fall of Napoleon an Historical Memoir by Lieut.-col. J. Mitchell ,1845      **Napoléon** Emil Ludwig,1926 Using his unique ability to analyze character so admirably Ludwig has presented a biography of Napoleon I that concentrates less on the battles and more on the man his inner history intellect self confidence energy imaginative power clarity of thought and natural dignity The time line of this book is from Napoleon s birth in 1769 and to his death in 1821 Along his life s journey he became a uniquely talented man a great soldier and a great leader It covers his heights of power and success men and country followed him unconditionally great kingdoms fell before him and he became emperor It also includes his extraordinary failings the damaging French invasion of Russia abdication exile defeat at the Battle of Waterloo island confinement and his ultimate death      The Fall of Napoleon John Mitchell,1845      *Napoleon* Steven Englund,2010-05-11 This sophisticated and masterful biography written by a respected French history scholar who has taught courses on Napoleon at the University of Paris brings new and remarkable analysis to the study of modern history s most famous general and statesman Since boyhood Steven Englund has been fascinated by the unique force personality and political significance of Napoleon Bonaparte who in only a decade and a half changed the face of Europe forever In *Napoleon A Political Life* Englund harnesses his early passion and intellectual expertise to create a rich and full interpretation of a brilliant but flawed leader Napoleon believed that war was a means to an end not the end itself With this in mind Steven Englund focuses on the political rather than the military or personal aspects of Napoleon s notorious and celebrated life Doing so permits him to arrive at some original conclusions For example where most biographers see this subject as a Corsican patriot who at first detested France Englund sees a young officer deeply committed to a political event idea and opportunity the French Revolution not to any specific nationality Indeed Englund dissects carefully the political use Napoleon made both as First Consul and as Emperor of the French of patriotism or nation talk As Englund charts Napoleon s dramatic rise and fall from his Corsican boyhood his French education his astonishing military victories and no less astonishing acts of reform as First Consul 1799 1804 to his controversial record as Emperor and finally to his exile and death he is at particular pains to explore the unprecedented power Napoleon maintained over the popular imagination Alone among recent biographers Englund includes a chapter that analyzes the Napoleonic legend over the course of the past two centuries down to the present day French Republic which has its own profound ambivalences toward this man whom it is afraid to recognize yet cannot avoid *Napoleon A Political Life* presents new consideration of Napoleon s adolescent and adult writings as well as a convincing argument against the recent theory that the Emperor was poisoned at St Helena The book also offers an explanation of Napoleon s role as father of the modern in politics What finally emerges from these pages is a vivid and sympathetic portrait that combines youthful enthusiasm and mature scholarly reflection The result is already regarded by experts as the

Napoleonic bicentennial's first major interpretation of this perennial subject      *Napoleon Hill's Greatest Speeches* Napoleon Hill, Don M. of portraying fictional minds both from external and internal perspectives The external perspective relies on detachment and emotional restraint dominating in Vartio s early novels *Se on sitten kev t* and *Mies kuin mies tytt kuin tytt* The internal perspective pertains to the mental processes of self reflection speculation and excessive imagining that gain more importance in her later novels *Kaikki naiset n kev t unia* *Tunteet* and *H nen olivat linnut* In the theoretical chapter of this study fictional minds are discussed in the context of the acclaimed inward turn of modernist fiction by suggesting alternative methods for reading modernist minds as embodied emotional and social entities In respect to fictional minds interaction this study elaborates on the ideas of mind reading intersubjectivity and the social mind established within post classical cognitive narratology Furthermore it employs possible world poetics when addressing the complexity incompleteness and inaccessibility of Vartio s epistemic worlds including the characters private worlds of knowledge beliefs emotions hallucinations and dreams In regards to the emotional emplotment of fictional worlds this study also benefits from affective narratology as well as the plot theory being influenced by possible world semantics narrative dynamics and cognitive narratology As the five analysis chapters of this study show fictional minds in Vartio s fiction are not only introspective solipsist and streaming but also embodied and social entities In the readings of the primary texts the concept of embodiedness is used to examine the situated presence of an experiencing mind within the time and space of the storyworld Fictional minds interactions are also demonstrated as evolving from local experientiality to long term calculations that turn emotional incidents into episodes and episodes into stories In Vartio s novels the emotional story structure of certain conventional story patterns such as the narratives of female development and the romance plot the sentimental novel and epistolary fiction are modified and causally altered in the portrayal of the embodied interactions between the self the other and the world The trajectories of female self discovery in Vartio s novels are analyzed through the emotional responses of characters their experiences of randomness their ways of counterfactualizing their traumatic past their procrastinatory or akratic reactions or indecisiveness The gradual move away from the percepts of the external world to the excessive imaginings and mis readings of other minds triggered by the interaction of worlds and minds challenges the contemporary and more recent accounts of modernism both in Finnish and international contexts

*Virgil and his Translators* Susanna Braund, Zara Martirosova Torlone, 2018-10-04 This is the first volume to offer a critical overview of the long and complicated history of translations of Virgil from the early modern period to the present day transcending traditional studies of single translations or particular national traditions in isolation to offer an insightful comparative perspective The twenty nine essays in the collection cover numerous European languages from English French and German to Greek Irish Italian Norwegian Slovenian and Spanish but also look well beyond Europe to include discussion of Brazilian Chinese Esperanto Russian and Turkish translations of Virgil While the opening two contributions lay down a broad theoretical and comparative framework the majority conduct comparisons within a particular language and combine detailed case studies with in depth contextualization and theoretical background showing how the translations discussed are embedded in their own cultures and historical moments The final two essays are written from the perspective of contemporary translators closing out the volume with a profound assessment not only of the influence exerted by the major Roman poet on later literature but also why translation of a canonical author such as Virgil matters not only as a national and transnational cultural phenomenon but as a personal engagement with a literature of enduring power and relevance
