Bert E. Park, M.D.

Napoleons Glands And Other Ventures In Biohistory:

Napoleon's Glands Arno Karlen, 1985 Employing a new method of examining our past which integrates medical behavioral and environmental sciences the author journeys through biohistory to question the physical forces influencing celebrated people and phenomena of history **Napoleon's Glands & Other Ventures in Biohistory** Karlen Arno, 1984

Biography of a Germ Arno Karlen, 2001-05-15 Arno Karlen author of *Man and Microbes* focuses on a single bacterium in *Biography of a Germ* giving us an intimate view of a life that has been shaped by and is in turn transforming our own *Borrelia burgdorferi* is the germ that causes Lyme disease In existence for some hundred million years it was discovered only recently Exploring its evolution its daily existence and its journey from ticks to mice to deer to humans Karlen lucidly examines the life and world of this recently prominent germ He also describes how it attacks the human body and how by changing the environment people are now much more likely to come into contact with it Charming and thorough and smart this book is a wonderfully written biography of your not so typical biographical subject *An Underground Education* Richard Zacks, 1999-04-20 The best kind of knowledge is uncommon knowledge Okay so maybe you know all the stuff you re supposed to know that there are teenier things than atoms that Remembrance of Things Past has something to do with a perfumed cookie that the Monroe Doctrine means we get to take over small South American countries when we feel like it But really is this kind of knowledge going to make you the hit of the cocktail party or the loser spending forty five minutes examining the host s bookshelves Wouldn t you rather learn things like how the invention of the bicycle affected the evolution of underwear Or that the 1949 Nobel Prize for Medicine was awarded to a doctor who performed lobotomies with a household ice pick Or how Catherine the Great really died Or that heroin was sold over the counter not too long ago For the truly well rounded intellectual nothing fascinates so much as the subversive the contrarian the suppressed and the bizarre Richard Zacks auto didact extraordinaire has unloosed his admittedly strange mind and astonishing research abilities upon the entire spectrum of human knowledge ferreting out endlessly fascinating facts stories photos and images guaranteed to make you laugh gasp in wonder and occasionally shudder at the depths of human depravity The result of his labors is this fantastically illustrated quasi encyclopedia that provides alternative takes on art business crime science medicine sex lots of that and many other facets of human experience Immensely entertaining and arguably enlightening *An Underground Education* is the only book that explains the birth of motion pictures using photos of naked baseball players Richard Zacks is the author of *History Laid Bare Love Sex and Perversity from the Ancient Etruscans to Warren G Harding* which was excerpted in classy magazines like *Harper s* and earned the attention of the even classier *New York Times* which noted that Zacks specializes in the raunchy and perverse The Georgia State Legislature voted on whether to ban the book from public libraries He has studied Arabic Greek Latin French Italian and Hebrew and received the Phillips Classical Greek Award at the University of Michigan He has also told his publisher that he made a living in Cairo cheating royalty from a certain Arab country at games of chance although

the claim remains unverified His writing has appeared in the New York Times The Atlantic Monthly Time Life Sports Illustrated The Village Voice TV Guide and similarly diverse publications Zacks is married and busy warping the minds of his two children Georgia and Ziegfield He resides in New York City and can be reached via e mail at rzacks echonyc com The Impact of Illness on World Leaders Bert E. Park, M.D.,2016-11-11 In The Impact of Illness on World Leaders Bert E Park explores the relationship between leadership and neurologic illness Basing his study on a rigorous examination of primary and secondary source material from medicine history and political science Park diagnoses illnesses which affected the thinking and actions of Anthony Eden and Adolf Hitler among others He discusses the historical situations in which these political leaders functioned and the effects their illnesses might have had on the decisions they made Park argues that the impact of aging and disease on leadership abilities is an important potentially devastating problem which has been ignored by the people in a position to deal with it Physicians who attend men in power supported by government officials and politicians often disguise their patients infirmities and keep them in office long after they are able to function effectively In those few instances when the problem has been addressed it has often been done by journalists or other persons not qualified to make a medical judgment about a leader s health and they have relayed erroneous information e g the myth of Hitler s syphilis Part of the goal of The Impact of Illness on World Leaders is to correct such popular misconceptions Park concludes his study of leadership and illness with suggestions for monitoring the health of leaders and deposing them if their health compromises their ability to lead **Man and Microbes** Arno Karlen,1996-05-22 A noted medical historian places recent outbreaks of deadly diseases in historical perspective with accounts of other alarming and recurring diseases throughout history and of the ways in which humans have adapted Reprint 17 500 first printing **Guy de Maupassant's Selected Works (First International Student Edition) (Norton Critical Editions)** Guy de Maupassant,2016-08-27 Smith successfully captures Maupassant s depiction of nineteenth century French culture using terminology that allows these wonderful texts to reach a fresh generation of readers A solid translation of some wonderful short stories Library Journal The Norton Critical Edition includes Thirty of Maupassant s best short stories centering on war the supernatural and French life translated by Sandra Smith An introduction and explanatory footnotes by Robert Lethbridge Essays letters and newspaper articles on the subjects that influenced Maupassant s writing including politics war love despair and the supernatural Sixteen critical assessments from Maupassant s time to our own including those by Joseph Conrad David Coward Mary Donaldson Evans Rachel Killick Roger L Williams Ruth A Hottell and Katherine C Kurk A Chronology and a Selected Bibliography **Command Failure in War** Philip Langer,Robert Pois,2004-05-12 Why do military commanders most of them usually quite capable fail at crucial moments of their careers Robert Pois and Philip Langer one a historian the other an educational psychologist study seven cases of military command failures from Frederick the Great at Kunersdorf to Hitler s invasion of Russia While the authors recognize the value of psychological theorizing they do not believe that one method can cover all

the individuals battles or campaigns under examination Instead they judiciously take a number of psycho historical approaches in hope of shedding light on the behaviors of commanders during war The other battles and commanders studied here are Napoleon in Russia George B McClellan s Peninsular Campaign Robert E Lee and Pickett s Charge at Gettysburg John Bell Hood at the Battle of Franklin Douglas Haig and the British command during World War I Bomber Harris and the Strategic Bombing of Germany and Stalingrad The Book of Human Skin Michelle Lovric,2010-04-05 The book of human skin is a large volume with many pages of villainy writ upon it There are people who are a disease you know 13 May 1784 Venice Minguillo Fasan heir to the decaying gothic Palazzo Espagnol is born Yet Minguillo is no ordinary child he is strange devious and all those who come near him are fearful Twelve years later Minguillo is faced with an unexpected threat to his inheritance a newborn sister Marcella His untempered jealousy will condemn his sister to a series of fates as a cripple a madwoman and a nun But in his insatiable quest to destroy her he may have underestimated his sister s ferocious determination and her unlikely allies who will go to extraordinary lengths to save her **Ailing, Aging, Addicted** Bert E. Park,2021-10-21 What role did drug abuse play in John F Kennedy s White House and how was it kept from the public How did general anesthetics and aging affect the presidency of Ronald Reagan Why did Winston Churchill become more egocentric Woodrow Wilson more self righteous and Josef Stalin more paranoid as they aged and how did those qualities alter the course of history Was Napoleon poisoned with arsenic or did underlying disease account for his decline at the peak of his power Does syphilis really explain Henry VIII s midlife transformation Was there more than messianism brewing in the brains of some zealots of the past among them Adolf Hitler Joan of Arc and John Brown Most important of all when does one man s illness cause millions to suffer and when is it merely a footnote to history To answer such questions requires the clinical intuition of a practicing physician and the scholarly perspective of a trained historian Bert Park who qualifies on both counts offers here fascinating second opinions basing his retrospective diagnoses on a wide range of sources from medicine and history Few books so graphically portray the impact on history of physiologically compromised leadership misdiagnosis and inappropriate medical treatment Park not only untangles medical mysteries from the past but also offers timely suggestions for dealing with such problems in the future As a welcome sequel to his first work *The Impact of Illness on World Leaders* this book offers scholars physicians and general readers an entertaining albeit sobering analysis
