Napoleon's Mercenaries Guy Dempsey,2016-02-29 This superb and comprehensive book details the foreign units which formed such an important part of Napoleon s forces It examines each non French unit in turn giving an overview of the unit s origins its organizational and combat history its uniforms and standards

and details of the unit's eventual fate. Colourful accounts taken from contemporary reports and memoirs emphasize the qualities of the unit and throw light on what life was like for many of the foreign soldiers recruited into the Grande Armée. In total more than 100 different foreign units that served in the French Army are investigated in detail in this ambitious publication. Some foreign units fought and flourished throughout the Consulate and Empire whilst others lasted for just a few months. Covers Polish, German, Swiss, Italian, Spanish and other units in the French Army and presents a combat history and details uniforms for each regiment. **Napoleon's Mercenaries** is the best single volume study of this aspect of Napoleon's army and a vital reference for every Napoleonic enthusiast. Little can be found on the foreign units that were an integral part of the French army. For a long time a gap has existed but now **Napoleon's Mercenaries** fills this gap. Robert Burnham. Napoleonic Series. **Napoleon's Gods: Grenadiers à Cheval de la Garde 1796-1815.** Paul Lindsay Dawson, 2010-12-31. The Grenadiers à Cheval of the Imperial Guard were the shock troops of the guard who were committed in battle as a final reserve at a crucial moment to turn the tide to victory for the French. Charging at Marengo where they were badly bloodied by the Austrians in their first battle they again charged decisively at Austerlitz and Eylau and bore the brunt of the fighting from 1813 when they were expanded to two regiments. Of the regiments of the Guard the Grenadiers à Cheval has not been widely studied or been the subject of in-depth research. The book brings together much of what is known about the Grenadiers from the regiments' archive held in France and contemporary iconography to chart in detail the regiment's history and uniform in minute detail. Using primary archival material held in France this work presents the first in-depth study on this well-known but little-researched regiment. **Artillery of the Napoleonic Wars: Artillery in Siege, Fortress and Navy, 1792-1815** Kevin F. Kiley, 2020-01-24. Filled with statistical information on the guns, ammunition and carriages used by the armies, places the reader on the ground with the gunners. The Napoleon Series. Napoleon was an artilleryman before he was an emperor. He understood the power and effectiveness of cannon and their ability to pulverize defenses, reduce fortresses and destroy attacks. In return, the guns won Napoleon battles. This impressive study chronicles the story of the guns and men during the twenty-three years of almost continuous warfare from 1792-1815 from the battlefields of continental Europe to the almost primitive terrain of North America and of the seas, lakes and rivers that connected them. Detailed technical information is accompanied by vivid descriptions which allow the reader to imagine what it must have been like to maneuver and man the guns in a variety of situations, whether on the march or on the battlefield. Based on years of research into regulations of the period, eyewitness accounts of artillerymen and material culled from official reports, the scope and depth of material will satisfy the serious researcher while the lively narrative will appeal to the casual reader. Kiley's research is impeccable and deserves the highest praise. Moreover, he writes in so entertaining a manner that he informs and educates without effort. For the enthusiastic student of the attack and defense of fortified places, this is an essential book of reference. Fortress Study Group. **Albuera Eyewitness** Guy Dempsey, 2023-07-30. On 16 May 1811 the small town of Albuera was the setting for one

of the Peninsular War's most bloody and desperate battles. A combined Spanish, British and Portuguese force of more than 30 000 men under the command of Lord Beresford stubbornly blocked the march of the French field marshal Soult who was trying to reach the fortress of Badajoz twelve miles to the north. However, after suffering losses of up to 7 000 men during the fighting, Wellington declared that another such battle will ruin us. One British regiment, the 57th Foot, suffered casualties of more than 50 per cent. Similarly, the French fought with enormous tenacity and sustained almost equally heavy losses. The stories from those who fought in the battle on both sides make for both chilling and inspiring reading. These contemporaneous accounts include letters, diaries, official correspondence, army records, maps, newspaper reports and memoirs totaling over 100 contemporary accounts of the battle. They range from the comprehensive after-action reports of the British, Portuguese, Spanish and French commanders to casualty and prisoner lists and to recollections of individual soldiers from all the combatant armies. The purpose of this book is to tell the story of the battle exclusively by way of these primary sources, with English translations for foreign language sources along with, in each case, a commentary identifying the source and its context. The heart of the work will be a vast number of first-hand accounts providing astonishing details of the intense fighting, including the heroism of the Spanish troops, the massacre of Colborne's brigade by Polish lancers, Beresford's near-fatal indecisiveness and the heroic charge of the Fusilier brigade. This presentation allows readers avid for detailed historical information to draw their own conclusions about how the events of the battle unfolded.

Waterloo General John Morewood, 2016-09-30. The defeat of Napoleon's French army by the combined forces of Wellington and Blücher at Waterloo on 18 June 1815 was a turning point in world history. This was the climax of the Napoleonic Wars and the outcome had a major influence on the shape of Europe for the next century and beyond. The battle was a milestone and it cannot be properly understood without a detailed on-the-ground study of the landscape in which it was fought and that is the purpose of David Buttery's new battlefield guide. In vivid detail, using eyewitness accounts and an intimate knowledge of the terrain, he reconstructs Waterloo and he takes the reader and the visitor across the battleground as it is today. He focuses on the pivotal episodes in the fighting: the day-long struggle for the chateau at Hougoumont, the massive French infantry assaults, repeated cavalry charges, the fall of La Haye Sainte, the violent clashes in the village of Plancenoit, the repulse of the Imperial Guard and rout of the French army. This thoroughgoing, lucid, easy-to-follow guide will be a fascinating introduction for anyone who seeks to understand what happened on that momentous day and it will be an essential companion for anyone who explores the battlefield in Belgium.

Vilnius 1812 Paul Richardson, 2008. The first published account, groundbreaking record of the extraordinary discovery of a Napoleonic mass grave in Lithuania in 2002, the victims being soldiers from the 1812 campaign. Author Paul Richardson was given full access to information by the authorities, allowing him to document with original photographs this time capsule of remains, artifacts of the Grande Armée. It begins with a necessary but concise history of the 1812 Campaign and its aftermath and how the many bodies came to be buried in mass graves in and around Vilnius. There is

ample evidence that there are more mass graves that are unlikely to be found as they are now probably under new buildings in the city This is followed by an in depth explanation of the archaeological excavation of the gravesite the cataloguing of the bones and number of people buried and their gender as there were not only males artefacts including buttons and pieces of uniforms and equipment from many of Napoleons regiments but no side arms as these would not have been thrown into the grave and the history of the ongoing restoration of these artefacts
