Narrating The Thirties A Decade In The Making 1930 To Present:

Narrating the Thirties J. Baxendale, C. Pawling, 1995-12-18 In a series of case studies ranging widely from documentary film and the writings of J B Priestley to postwar historiography and *Remains of the Day* this book explores the ever changing and hotly contested narratives of Britain in the 1930s The authors argue that images of the Thirties have been a continual presence in the construction of the wartime and postwar world and in particular in the emergent discourse of social democracy and its subsequent decline

Narrating the Thirties John Baxendale, Christopher Pawling, 1996-01 Ever since the 1930s stories about Britain in the thirties have been numerous contradictory and hotly contested It is the red decade of Spain and the Communist poets It is the devil s decade of mass unemployment and hunger marches of Blackshirts appeasement and the drift towards war It is the first age of high mass consumption of suburbia the Daily Express and dance bands on the radio It is the last age of high spending luxury of Brideshead art deco nightclubs and transatlantic liners It is the moment of capitalism s crisis and or of its renewal John Baxendale and Chris Pawling argue that none of these narratives represents the real thirties Rather the ever changing constructions of the decade have reflected the conflicts and concerns of the world that came afterwards which moreover they have played a crucial part in shaping In a series of case studies ranging widely from the documentary film movement C L R James and J B Priestley to postwar historiography Dennis Potter and *Remains of the Day* *Narrating the Thirties* traces the changing story of the thirties and in particular its influence on the emergent discourse of social democracy so central to the making of postwar Britain

The 1930s: A Decade of Modern British Fiction Nick Hubble, Luke Seaber, Elinor Taylor, 2021-01-14 With austerity biting hard and fascism on the march at home and abroad the Britain of the 1930s grappled with many problems familiar to us today Moving beyond the traditional focus on the Auden generation this book surveys the literature of the period in all its diversity from working class women queer and postcolonial writers to popular crime and thriller novels In this way the book explores the uneven processes of modernization and cultural democratization that characterized the decade A major critical re evaluation of the decade the book covers such writers as Eric Ambler Mulk Raj Anand Katharine Burdekin Agatha Christie Lewis Grassie Gibbon Christopher Isherwood Storm Jameson Ethel Mannin Naomi Mitchison George Orwell Christina Stead Evelyn Waugh and many others

Heredity and Infection Jean-Paul Gaudillière, Ilana Löwy, 2012-11-12 Ideas about the transmission of disease have long formed the core of modern biology and medicine *Heredity and Infection* examines their development over the last century Two scientific revolutions the bacteriological revolution of the 1890s and the genetic revolution at the start of the twentieth century acted as the catalysts of major change in our understanding of the causes of illness As well as being great scientific achievements these were social and political watersheds that reconfigured the medical and administrative means of intervention By establishing a clear distinction between transmission by infection and genetic transmission this shift was instrumental in separating hygiene from eugenism The authors argue that the popular perception of such a sharp divide stabilized only after

1945 when the use of antibiotics to end epidemics became commonplace For health professionals the separation has never become an absolute one and the book examines the various blends of heredity and infection that have preoccupied biology medicine and the social sciences Heredity and Infection reconstructs the changing epidemiology of such historically important pathologies as tuberculosis cancer and AIDS In doing so it demonstrates the role of experimental models medical practices and cultural images in the making of contemporary biochemical knowledge Anthony Asquith Tom Ryall,2013-07-19 This is the first comprehensive critical study of Anthony Asquith Ryall sets the director s work in the context of British cinema from the silent period to the 1960s examining the artistic and cultural influences which shaped his films Asquith s silent films were compared favourably to those of his eminent contemporary Alfred Hitchcock but his career faltered during the 1930s However the success of Pygmalion 1938 and French Without Tears 1939 based on plays by George Bernard Shaw and Terence Rattigan together with his significant contributions to wartime British cinema re established him as a leading British film maker Asquith s post war career includes several pictures in collaboration with Terence Rattigan and the definitive adaptation of Oscar Wilde s The Importance of Being Earnest 1951 but his versatility is demonstrated in a number of modest genre films including The Woman in Question 1950 The Young Lovers 1954 and Orders to Kill 1958 **Remembering the Road to World War Two** Patrick Finney,2010-09-13 Remembering the Road to World War Two is a broad and comparative international survey of the historiography of the origins of the Second World War It explores how in the case of each of the major combatant countries historical writing on the origins of the Second World War has been inextricably linked with conceptions of national identity and collective memory **Intermodernism** Kristin Bluemel,2011-05-27 This collection of original critical essays newly available in paperback launches an ambitious long term project marking out a new period and style in twentieth century literary history **Historiography** Roger Spalding,Christopher Parker,2013-01-18 Historiography can be a daunting term for those not familiar with it This book presents the key ideas behind the term in a clear and accessible fashion The opening chapters introduce the reader to the practices that characterise the subject while the final chapters address the History of Nazism Gender History and Cultural History and seek to demonstrate that the historiographies of these sub disciplines grow and develop in response to changes within society at large This book aims to show that History is not simply an academic subject but an active and contested factor shaping the nature of the societies we live in As politicians in particular seek to validate their actions by drawing parallels between the past and present an ability to test these claims for logic and coherence and to assess the evidence used to support them becomes not simply a valuable academic skill but a vital requirement for active citizenship **Remapping the Home Front** Debra Rae Cohen,2002 An examination of how wartime rhetoric in World War I influenced the home front fiction of four British women writers Violet Hunt Rose Macaulay Stella Benson and Rebecca West **Re-presenting the Past** Ann-Marie Gallagher,Cathy Lubelska,Louise Ryan,2014-06-11 Feminist history continues to change the way history is written and in doing so changes

our view of the past The authors of this collection explore how issues of sexuality class nationalism and colonialism informed the ways in which women were represented and continue to be represented in history They show the ways in which women have been excluded silenced and misrepresented in stories of the past and how women s lives have been distorted or simplified in conventional historical accounts Together they suggest fresh ways of approaching women s history and use examples of work in new areas of research such as women s health and leisure in order to demonstrate the effectiveness of the various methodologies being proposed
