Narrative Innovation And Political Change In Mexico:

Narrative Innovation and Political Change in Mexico John Stubbs Brushwood, 1989 Narrative Innovation and Political Change in Mexico shows that novels considered as part of their social context are not simply reflections of society but often manifest change before it is apparent in the political realm The author explains this function by reference to narrative techniques as well as to thematic material He uses the other arts especially painting as corroborating factors in an exposition based on three periods of remarkable innovation in twentieth century Mexican fiction ending with the analogy of narrative fiction to politics in the nineteen eighties

Mexican Literature David William Foster, 2010-07-22 Mexico has a rich literary heritage that extends back over centuries to the Aztec and Mayan civilizations This major reference work surveys more than five hundred years of Mexican literature from a sociocultural perspective More than merely a catalog of names and titles it examines in detail the literary phenomena that constitute Mexico's most significant and original contributions to literature Recognizing that no one scholar can authoritatively cover so much territory David William Foster has assembled a group of specialists some of them younger scholars who write from emerging trends in Latin American and Mexican literary scholarship The topics they discuss include pre Columbian indigenous writing Joanna O Connell Colonial literature Lee H Dowling Romanticism Margarita Vargas nineteenth century prose fiction Mario Mart n Flores Modernism Bart L Lewis major twentieth century genres narrative Lanin A Gyurko poetry Adriana Garc a theater Kirsten F Nigro the essay Martin S Stabb literary criticism Daniel Altamiranda and literary journals Luis Pe a Each essay offers detailed analysis of significant issues and major texts and includes an annotated bibliography of important critical sources and reference works

Elena Garro and Mexico's Modern Dreams Rebecca E. Biron, 2012-12-15 Elena Garro and Mexico's Modern Dreams uses Elena Garro's eccentric life and work as a lens through which to examine mid twentieth century Mexican intellectuals desire to reconcile mexicanidad with modernidad The famously scandalous first wife of Nobel Prize winner poet Octavio Paz and an award winning author in her own right Garro constructed a mysterious and often contradictory persona through her very public participation in Mexican political conflicts Herself an anxious and contentious Mexican writer Elena Garro elicited profound political and aesthetic anxiety in her Mexican readers She confused the personal and the public in her creative fictions as well as in her vision of Mexican modernity This violation of key distinctions rendered her largely illegible to her contemporaries That illegibility serves as a symptom of unacknowledged desires that motivate twentieth century views of national modernity Taken together Garro's public persona and critical perspective expose the anxieties regarding ethnicity gender economic class and professional identity that define Mexican modernity Blending cultural studies and detailed literary analysis with political and intellectual history Mexico's Modern Dreams argues that in addition to the intriguing gossip she elicited in literary and political circles Garro produced a radical critique of Mexican modernity Her critique applies as well to the nation's twenty first century crisis of globalization state power and pervasive violence

The

Fragmented Novel in Mexico Carol Clark D'Lugo, 2010-01-01 From Mariano Azuela's 1915 novel *Los de abajo* to Rosamar Roffiel's *Amora* of 1989 fragmented narrative has been one of the defining features of innovative Mexican fiction in the twentieth century In this innovative study Carol Clark D Lugo examines fragmentation as a literary strategy that reflects the social and political fissures within modern Mexican society and introduces readers to a more participatory reading of texts D Lugo traces defining moments in the development of Mexican fiction and the role fragmentation plays in each Some of the topics she covers are nationalist literature of the 1930s and 1940s self referential novels of the 1950s that focus on the process of reading and writing the works of Carlos Fuentes novels of *La Onda* that came out of rebellious 1960s Mexican youth culture gay and lesbian fiction and recent women's writings With its sophisticated theoretical methodology that encompasses literature and society this book serves as an admirable survey of the twentieth century Mexican novel It will be important reading for students of Latin American culture and history as well as literature

Indigeneity in the Mexican Cultural Imagination Analisa Taylor, 2013-09-25 Since the end of the Mexican Revolution in 1917 the state has engaged in vigorous campaign to forge a unified national identity Within the context of this effort Indians are at once both denigrated and romanticized Often marginalized they are nonetheless subjects of constant national interest Contradictory policies highlighting segregation assimilation modernization and cultural preservation have alternately included and excluded Mexico's indigenous population from the state's self conscious efforts to shape its identity Yet until now no single book has combined the various elements of this process to provide a comprehensive look at the Indian in Mexico's cultural imagination *Indigeneity in the Mexican Cultural Imagination* offers a much needed examination of this fickle relationship as it is seen through literature ethnography film and art The book focuses on representations of indigenous peoples in post revolutionary literary and intellectual history by examining key cultural texts Using these analyses as a foundation Analisa Taylor links her critique to national Indian policy rights and recent social movements in Southern Mexico In addition she moves beyond her analysis of indigenous peoples in general to take a gendered look at indigenous women ranging from the villainized Malinche to the highly romanticized and sexualized Zapotec women of the Isthmus of Tehuantepec The contradictory treatment of the Indian in Mexico's cultural imagination is not unique to that country alone Rather the situation there is representative of a phenomenon seen throughout the world Though this book addresses indigeneity in Mexico specifically it has far reaching implications for the study of indigenaety across Latin America and beyond Much like the late Edward Said's *Orientalism* this book provides a glimpse at the very real effects of literary and intellectual discourse on those living in the margins of society This book's interdisciplinary approach makes it an essential foundation for research in the fields of anthropology history literary critique sociology and cultural studies While the book is ideal for a scholarly audience the accessible writing and scope of the analysis make it of interest to lay audiences as well It is a must read for anyone seeking a deeper understanding of the politics of indigeneity in Mexico and beyond

at the activity of a community continually re creating itself within and beyond its own borders Mexico is a particularly apt focus partly because of the vitality of its culture partly because of its changing political identity and partly because of the impact of borders and borderlessness on its national character The ten essays collected here look at a wide range of aesthetic productions especially literature and the visual arts that give context to how art and society interact Steering a careful course between the nostalgia of nationalism and the insensitivity of globalism these essays examine modernism and postmodernism in the Mexican setting Individually they explore the incorporation of historical icons of vanguardism and of international influence From Diego Rivera to Elena Garro from the Tlateloco massacre to the Chiapas rebellion from mass market fiction to the film *Aliens* the contributors view the many sides of Mexican life as relevant to the creation of a constantly shifting national culture Taken together the essays look both backward and forward at the evolving effect of the Mexican nation

Beyond Eurocentrism Peter Gran, 2021-02-01 Eurocentrism influences virtually all established historical writing With the rise of Prussia and by extension Europe eurocentrism became the dominant paradigm for world history Employing the approaches of Gramsci and Foucault Peter Gran proposes a reconceptualization of world history He challenges the traditional convention of relying on totalitarian or democratic functions of a particular state to explain and understand relationships of authority and resistance in a number of national contexts Gran maintains that there is no single developmental model but diverse forms of hegemony that emerged out of the political crisis following the penetration of capitalism into each nation In making comparisons between seemingly disparate and distinctive nations and by questioning established canons of comparative inquiry Gran encourages people to recognize the similarities between the West and non West nations

volume an invaluable introduction to the politics literature and culture of modern Spain The Natural World in Latin American Literatures Adrian Taylor Kane, 2014-01-10 From the Popol Vuh to postmodernism imagery of the natural world has played an important role in Latin American literature In contrast to the rise of ecocritical scholarship in Anglophone literary studies Latin American literary ecocriticism has been slower to take root This volume of eleven essays seeks to advance the ecocritical conversation among Latin Americanists furthering insight into the relationship between humans and their environments The essays address regions as diverse as Patagonia and the Chihuahua Desert Cooptation, Complicity, and Representation Shigeko Mato, 2010 Is the affiliation between intellectuals and hegemony unbreakable When intellectuals attempt to retell history from its bottom side or when writers try to represent the so called marginalized subject are they not simply reinforcing the perspective and agenda of society's hegemonic currents Cooptation Complicity and Representation engages in a discussion of the problem of this potentially unbreakable affiliation between intellectuals and hegemony Through five twentieth century Mexican literary works Pedro P. Ramo 1955 Juan Rulfo Hasta no verte Jesús mío 1969 Elena Poniatowska three short stories from Ciudad Real 1960 Rosario Castellanos Llanto Novelas imposibles 1992 Carmen Boullosa and Muertos incómodos falta lo que falta 2005 Subcomandante Marcos and Paco Ignacio Taibo II this book attempts to examine the contradictory phenomenon that emerges when intellectuals desire to represent a marginalized subject or history clashes with their own limited ability to fully know the marginalized No critics have compiled these five seemingly unrelated Mexican texts in order to scrutinize such a contradictory tendency Cooptation Complicity and Representation provides an innovative way to connect the five texts by delineating within specific Mexican historical and geopolitical contexts how and why intellectuals have difficulty moving away from the reproduction of otherness when they attempt to represent a marginalized subject or history This book can be useful for those who are interested in the Spanish American boom literature twentieth century Mexican literature women writing testimonial writing subaltern studies postcolonial studies historical novels and cultural studies **The Evolution of the Mexican Political System (Latin American Silhouettes)** Jaime E. Rodríguez O., 1993-03 **Gender, Nation and the Formation of the Twentieth-century Mexican Literary Canon** Sarah E. L. Bowskill, 2017-12-02 The post revolutionary Mexican literary canon was formed by cultural and political elites who sought to identify and reward those novels which would best represent the new nation Reviewers found what they were looking for in Gregorio López y Fuentes's El indio 1935 for example but not in Consuelo Delgado's Yo también Adelita 1936 This groundbreaking study provides a fresh perspective on canon formation by uncovering the circumstances and readings which produced a male dominated Mexican literary canon
