Narrative of the Life of James Watkins, Formerly a Slave in Maryland, U.S., 1853 *A History of African American Poetry* Lauri Ramey, 2019-03-21 Offers a critical history of African American poetry from the transatlantic slave trade to present day hip hop *The Harvard Guide to African-American History* Evelyn Brooks Higginbotham, 2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America **To Tell a Free Story** William L. Andrews, 2022-10-17 To Tell A Free Story traces in unprecedented detail the history of Black autobiography from the colonial era through Emancipation Beginning with the 1760 narrative by Briton Hammond William L Andrews explores first person public writings by Black Americans Andrews includes but also goes beyond slave narratives to analyze spiritual biographies criminal confessions captivity stories travel accounts interviews and memoirs As he shows Black writers continuously faced the fact that northern whites often refused to accept their stories and memories as sincere and especially distrusted portraits of southern whites as inhuman Black writers had to silence parts of their stories or rely on subversive methods to make facts tellable while contending with the sensibilities of the white editors publishers and readers they relied upon and hoped to reach *We Have Raised All of You* Katy Simpson Smith, 2013-11-04 White black and Native American women in the early South often viewed motherhood as a composite of roles ranging from teacher and nurse to farmer and politician Within a multicultural landscape mothers drew advice and consolation from female networks broader intellectual currents and an understanding of their own multifaceted identities to devise their own standards for child rearing In this way by constructing interpreting and defending their roles as parents women in the South maintained a certain degree of control over their own and their children's lives Focusing on Virginia and the Carolinas from 1750 to 1835 Katy Simpson Smith's study examines these maternal practices to reveal the ways in which diverse groups of women struggled to create empowered identities in the early South *We Have Raised All of You* contributes to a wide variety of historical conversations by affirming the necessity of multicultural not simply biracial studies of the American South Its equally

weighted analysis of white black and Native American women sets it distinctly apart from other work Smith shows that while women from different backgrounds shared similar experiences within the trajectory of motherhood no universal model holds up under scrutiny Most importantly this book suggests that parenthood provided women with some power within their often circumscribed lives Alternately restricted oppressed belittled and enslaved women sought to embrace an identity that would give them some sense of self respect and self worth The rich and varied roles that mothers inherited Smith shows afforded women this empowering identity

Clothed in Meaning Sylvia Jenkins Cook, 2020-08-25 The rise of both the empire of cotton and the empire of fashion in the nineteenth century brought new opportunities for sartorial self expression to millions of ordinary people who could now afford to dress in style and assert their physical presence Millions of laborers toiling in cotton fields and producing cotton cloth in industrial mills faced a brutal reality of exploitation servitude and regimentation yet they also had a profound desire to express their selfhood Another transformative force of this era the rise of literary publication and the radical extension of literacy to the working class opened an avenue for them to do so Cloth and clothing provide potent tropes not only for physical but also for intellectual forms of self expression Drawing on sources ranging from fugitive slave narratives newspapers manifestos and mill workers magazines to fiction poetry and autobiographies *Clothed in Meaning* examines the significant part played by mill workers and formerly enslaved people many of whom still worked picking cotton in this revolution of literary self expression They created a new literature from their palpable daily intimacy with cotton cloth and clothing as well as from their encounters with grimly innovative modes of work In the materials of their labor they discovered vivid tropes for formulating their ideas and an exotic and expert language for articulating them The harsh conditions of their work helped foster in their writing a trenchant irony toward the demeaning reduction of human beings to hands whose minds were unworthy of interest Ultimately *Clothed in Meaning* provides an essential examination of the intimate connections between oppression and luxury as recorded in the many different voices of nineteenth century labor
