1

PUTTING TOGETHER THE NARRATIVE

Allows the client to express their thoughts and explore events in their lives and the meanings they have placed on these experiences.

2

EXTERNALIZING THE PROBLEM

Leading clients towards viewing their problems or behaviors as external instead of an unchangeable part of themselves - they realize they themselves are not the problem.

3

DECONSTRUCTION

Working with the client to break down or deconstruct their stories into smaller, more manageable parts to clarify the problem.

4

UNIQUE OUTCOMES

This refers to the exceptions to the dominant story. Also known as 're-authoring' or 're-storying,' clients go through their experiences to find alterations to their story or make a whole new one.

Gothic Traditions and Narrative Techniques in the Fiction of Eudora Welty Ruth D. Weston, 1994-11-01 In this study Ruth D Weston probes the whole of Eudora Welty's work to reveal the writer's close relationship to the gothic tradition Specifically Weston shows how Welty employs the theme of enclosure and escape and settings that convey a sense of mystery gothic adaptations both to create certain narrative techniques in her fiction Differentiating at the outset between the Gothic genre as opposed to elements of the gothic tradition and acknowledging both critics and Welty's own reluctance to link her writing with the former Weston plunges in and brilliantly discloses the relationship Welty's writing has to both and in doing so describes a rich literary heritage to which Welty belongs She shows how the tradition of adapting European Gothic conventions to American settings has come down to us through writers such as Hawthorne particularly through the short story and continues in Welty's fiction Among Welty's narrative techniques that Weston discusses are plot structures built around betrayal and captivity reversal of characters gender roles a tone sometimes similar to that of gothic genres such as the fairy tale or ghost story and affective settings in gothic spaces such as the woods along the Natchez Trace These techniques Weston explains help Welty in illustrating restrictions placed on the individual's search for selfhood by human relationships cultural expectations and memory In addition to examining the texts themselves Weston draws on Welty's critical and theoretical writings and her letters and other materials in archival collections She also gleans insights from the work of contemporary narrative theorists feminist critics and recent commentators on the Gothic In the course of her presentation she offers some excellent new assessments of Welty's relation to the female Gothic and the Southern Gothic and to William Faulkner and Jane Austen This book is one of the most informed studies to date of Welty's relation to the literary mainstream of the nineteenth and twentieth centuries Welty scholars as well as general readers of American and southern literature will gain a deep appreciation for Welty's imaginative and original response to the Gothic literary tradition

Warped Narratives Melissa Kate Merry, 2020-01-06 The politics of gun policy in the United States are dramatic Against the backdrop of daily gun violence which claims more than 33 000 lives per year gun control groups push for stronger regulations while gun rights groups resist infringements upon their Second Amendment rights To illuminate the dynamics of this polarized debate *Warped Narratives* examines how and why interest groups frame the gun violence problem in particular ways exploring the implication of groups framing choices for policymaking and politics Melissa K Merry argues that the gun policy arena is warped and that both gun control and gun rights organizations contribute to the distortion of the issue by focusing on atypical characters and settings in their policy narratives Gun control groups emphasize white victims child victims and mass shootings in suburban locales while gun rights groups focus on self defense shootings highlighting threats to law abiding gun owners In reality most gun deaths are the result of suicide Homicides occur disproportionately in urban areas mainly affecting racial minorities While warping makes political sense in the short term it may lead to negative long term consequences including constraints on groups ability to build broad based coalitions and to reduce prospects for compromise To demonstrate warping Merry analyzes nearly 67 000 communications by 15 national gun policy groups between 2000 and 2017 collected from blogs emails Facebook posts and press releases This book is the first to systematically assess the role of race in gun policy groups framing and offers the most comprehensive examination to date of interest groups presentation of this issue

Narratives of Dependency Elke Brüggem, Marion Gymnich, 2024-05-20 Given that strong asymmetrical dependencies have shaped human societies throughout history this kind of social relation has also left its traces in many types of texts Using written and oral narratives in attempts to reconstruct the history of asymmetrical dependency comes along with various methodological challenges as the 15 articles in this interdisciplinary volume illustrate They focus on a wide range of different factual and fictional text types including inscriptions from Egyptian tombs biblical stories novels from antiquity the Middle High German Rolandslied Ottoman court records captivity narratives travelogues the American gift book The Liberty Bell and oral narratives by Caribbean Hindu women Most of the texts discussed in this volume have so far received comparatively little attention in slavery and dependency studies The volume thus also seeks to broaden the archive of texts that are deemed relevant in research on the histories of asymmetrical dependencies bringing together perspectives from disciplines such as Egyptology theology literary studies history and anthropology

Methods of the Policy Process Christopher M. Weible, Samuel Workman, 2022-04-28 The increasingly global study of policy processes faces challenges with scholars applying theories in radically different national and cultural contexts Questions frequently arise about how to conduct policy process research comparatively and among this global community of scholars Methods of the Policy Process is the first book to remedy this situation not by establishing an orthodoxy or imposing upon the policy process community a rigid way of conducting research but instead by allowing the leading researchers in the different theoretical traditions a space to share the means by which they put their research into action This edited volume serves as a companion volume and supplemental guide to the well established Theories of the Policy Process 4th Edition Methods of the Policy Process acknowledges that growth and advancement in the study of the policy process is dependent not merely on conceptual and theoretical development but also on developing and systematizing better methodological approaches to measurement and analysis To maximize student engagement with the material each chapter follows a similar framework introduction of a given theory of the policy process application of that theory including best practices for research design conceptualization major data sources data collection and methodological approaches critical assessment future directions and often online resources including datasets survey instruments and interview and coding protocols While the structure and focus of each chapter varies slightly according to the theoretical tradition being discussed each chapter's central aim is to prepare readers to confidently undertake common methodological strategies themselves Methods of the Policy Process is especially beneficial to people new to the field including students enrolled in policy process courses as well as those without access to formal training For scholars experienced in applying theories this edited volume is a helpful reference to clarify best practices in research methods

The Drama of the

Messiah in Matthew 8 and 9 Solomon Pasala, 2008 In contrast to the other synoptic evangelists the author of Matthew proceeded differently in many respects Why did he modify the text so much and arrange ten miracle narratives one after the other at one stretch with minor interruptions Why did he place the so called miracle chapters immediately after the Sermon on the Mount Why did he enclose them between two summary statements on either side These are only some of the unanswered questions about chapters 8 and 9 of Matthew's Gospel Beginning with Aristotle's theory of the drama or tragedy the author suggests that the way the evangelist has reworked and reorganized the miracle narratives is similar to the structure of the classic drama By discovering the narrative strategies and the discourse aspect we are able to demonstrate how each episode corresponds to the different moments of a plot such as the initial situation inciting moment complication climax with suspense and finally resolution and denouement
