Dictionary of Midwestern Literature, Volume 1 Philip A. Greasley, 2001-05-30. The *Dictionary of Midwestern Literature, Volume One* surveys the lives and writings of nearly 400 Midwestern authors and identifies some of the most important criticism of their writings. The Dictionary is based on the belief that the literature of any region simultaneously captures the experience and influences the worldview of its people, reflecting as well as shaping the evolving sense of individual and collective identity, meaning, and values. Volume One presents individual lives and literary orientations and offers a broad survey of the Midwestern experience as expressed by its many diverse peoples over time. Philip A. Greasley's introduction fills in background information and describes the philosophy, focus, methodology, content, and layout of entries as well as criteria for their inclusion. An extended lead essay, *The Origins and Development of the Literature of the Midwest* by David D. Anderson, provides a historical, cultural, and literary context in which the lives and writings of individual authors can be considered. This volume is the first of an ambitious three-volume series sponsored by the Society for the Study of Midwestern Literature and created by its members. Volume Two will provide similar coverage of non-author entries such as sites, centers, movements, influences, themes, and genres. Volume Three will be a literary history of the Midwest. One goal of the series is to build understanding of the nature, importance, and influence of Midwestern writers and literature. Another is to provide information on writers from the early years of the Midwestern experience as well as those now emerging who are typically absent from existing reference works.

Cultures of Memory in South Asia D. Venkat Rao, 2014-05-02. Culture of

Memory in South Asia reconfigures European representations of India as a paradigmatic extension of a classical reading which posits the relation between text and context in a determined way. It explores the South Asian cultural response to European textual inheritances. The main argument of this work is that the reflective and generative nodes of Indian cultural formations are located in the configurations of memory, the body and idiom, verbal and visual, where the body or the body complex becomes the performative effect and medium of articulated memories. This work advances its arguments by engaging with mnemocultures, cultures of memory that survive and proliferate in speech and gesture. Drawing on Sanskrit and Telugu reflective sources, this work emphasizes the need to engage with cultural memory and the compositional modes of Indian reflective traditions. This important and original work focuses on the ruptured and stigmatised resources of heterogeneous Indian traditions and calls for critical humanities that move beyond the colonially configured received traditions. *Cultures of Memory* suggests the possibilities of transcultural critical humanities research and teaching initiatives from the Indian context in today's academy.

Ainu Spirits Singing Sarah M. Strong, 2011-10-31 Indigenous peoples throughout the globe are custodians of a unique, priceless and increasingly imperiled legacy of oral lore. Among them, the Ainu, a people native to northeastern Asia, stand out for the exceptional scope and richness of their oral performance traditions. Yet despite this cultural wealth, nothing has appeared in English on the subject in over thirty years. Sarah Strong's *Ainu Spirits Singing* breaks this decades-long silence with a nuanced study and English translation of Chiri Yukie's *Ainu Shin yoshu*, the first written transcription of Ainu oral narratives by an ethnic Ainu. The thirteen narratives in Chiri's collection belong to the genre known as *kamui yukar*, said to be the most ancient performance form in the vast Ainu repertoire. In it, animals and sometimes plants or other natural phenomena, all regarded as spiritual beings (*kamui*), within the animate Ainu world assume the role of narrator and tell stories about themselves. The first-person speakers include imposing animals such as the revered orca, the Hokkaido wolf and Blakiston's fish owl, as well as the more humble Hokkaido brown frog, snowshoe hare and pearl mussel. Each has its own story and own signature refrain. Strong provides readers with an intimate and perceptive view of this extraordinary text. Along with critical contextual information about traditional Ainu society and its cultural assumptions, she brings forward pertinent information on the geography and natural history of the coastal southwestern Hokkaido region where the stories were originally performed. The result is a rich fusion of knowledge that allows the reader to feel at home within the animistic frame of reference of the narratives. Strong's study also offers the first extended biography of Chiri Yukie (1903-1922) in English. The story of her life and her untimely death at age nineteen makes clear the harsh consequences for Chiri and her fellow Ainu of the Japanese colonization of Hokkaido and the Meiji and Taisho governments' policies of assimilation. Chiri's receipt of the narratives in the Horobetsu dialect from her grandmother and aunt, both traditional performers, and the fact that no native speakers of that dialect survive today make her work all the more significant. The book concludes with a full integral translation of the text.
