transmedially and that its textual politics particularly speak to white male middle class Americans Narratology and <u>Interpretation</u> Jonas Grethlein, Antonios Rengakos, 2009-08-17 The categories of classical narratology have been successfully applied to ancient texts in the last two decades but in the meantime narratological theory has moved on In accordance with these developments Narratology and Interpretation draws out the subtler possibilities of narratological analysis for the interpretation of ancient texts The contributions explore the heuristic fruitfulness of various narratological categories and show that in combination with other approaches such as studies in deixis performance studies and reader response theory narratology can help to elucidate the content of narrative form Besides exploring new theoretical avenues and offering exemplary readings of ancient epic lyric tragedy and historiography the volume also investigates ancient predecessors of narratology Cultural Ways of Worldmaking Vera Nünning, Ansgar Nünning, Birgit Neumann, 2010-06-29 Taking as its point of departure Nelson Goodman's theory of symbol systems as delineated in his seminal book Ways of Worldmaking this volume gauges the possibilities and perspectives offered by the worldmaking approach as a model for the study of culture Its main objectives are to explore the usefulness and scope of the approach for the study of culture and to supplement Goodman s philosophy of worldmaking with a number of complementary disciplinary perspectives literary and cultural approaches and new questions and applications It focuses on three key issues or concepts which illuminate ways of worldmaking and their interdisciplinary relevance and ramifications viz 1 theoretical approaches to ways of worldmaking 2 the impact of media on ways of worldmaking and 3 narratives as ways of worldmaking The volume serves to demonstrate how specific media and narratives affect the worlds that are created and shows how these worlds are established as socially relevant It also illustrates the extent to which ways of worldmaking are imbued with cultural values and thus inevitably implicated in power relations Transmedial Narratology and Contemporary Media Culture Jan-Noël Thon, 2016-08 Narratives are everywhere and since a significant part of contemporary media culture is defined by narrative forms media studies need a genuinely transmedial narratology Against this background Transmedial Narratology and Contemporary Media Culture focuses on the intersubjective construction of storyworlds as well as on prototypical forms of narratorial and subjective representation This book provides not only a method for the analysis of salient transmedial strategies of narrative representation in contemporary films comics and video games but also a theoretical frame within which medium specific approaches from literary and film narratology from comics studies and game studies and from various other strands of media and cultural studies may be applied to further our understanding of narratives across media The Narratology of Comic Art Kai Mikkonen, 2017-05-08 By placing comics in a lively dialogue with contemporary narrative theory. The Narratology of Comic Art builds a systematic theory of narrative comics going beyond the typical focus on the Anglophone tradition This involves not just the exploration of those properties in comics that can be meaningfully investigated with existing narrative theory but an interpretive study of the potential in narratological concepts and analytical procedures that has hitherto been overlooked

This research monograph is then not an application of narratology in the medium and art of comics but a revision of narratological concepts and approaches through the study of narrative comics Thus while narratology is brought to bear on comics equally comics are brought to bear on narratology An Introduction to Narratology Monika Fludernik, 2009-02-16 An Introduction to Narratology is an accessible practical guide to narratological theory and terminology and its application to literature In this book Monika Fludernik outlines the key concepts of style metaphor and metonymy and the history of narrative forms narratological approaches to interpretation and the linguistic aspects of texts including new cognitive developments in the field how students can use narratological theory to work with texts incorporating detailed practical examples a glossary of useful narrative terms and suggestions for further reading This textbook offers a comprehensive overview of the key aspects of narratology by a leading practitioner in the field It demystifies the subject in a way that is accessible to beginners but also reflects recent theoretical developments and narratology s increasing popularity as a critical tool Analyzing Digital Fiction Alice Bell, Astrid Ensslin, Hans Rustad, 2013-12-17 Written for and read on a computer screen digital fiction pursues its verbal discursive and conceptual complexity through the digital medium It is fiction whose structure form and meaning are dictated by the digital context in which it is produced and requires analytical approaches that are sensitive to its status as a digital artifact Analyzing Digital Fiction offers a collection of pioneering analyses based on replicable methodological frameworks Chapters include analyses of hypertext fiction Flash fiction Twitter fiction and videogames with approaches taken from narratology stylistics semiotics and ludology Essays propose ways in which digital environments can expand challenge and test the limits of literary theories which have until recently predominantly been based on models and analyses of print texts Transmedia Practices in the Long Nineteenth Century Christina Meyer, Monika Pietrzak-Franger, 2022-02-23 This volume provides engaging accounts with transmedia practices in the long nineteenth century and offers model analyses of Victorian media e g theater advertising books games newspapers alongside the technological economic and cultural conditions under which they emerged in the Anglophone world By exploring engagement tactics and forms of audience participation the book affords insight into the role that social agents e g individual authors publishing houses theatre show producers lithograph companies toy manufacturers newspaper syndicates or advertisers played in the production distribution and consumption of Victorian media It considers such examples as Sherlock Holmes Kewpie Dolls media forms and practices such as cut outs popular lectures telephone conversations or early theater broadcasting and such authors as Nellie Bly Mark Twain and Walter Besant offering insight into the variety of transmedia practices present in the long nineteenth century. disseminated and consumed and with what implications *Unnatural Narratives - Unnatural Narratology* Jan Alber, Rüdiger Heinze, 2011-09-29 In recent years the study of unnatural narratives has become an exciting new but still disparate research program in narrative theory. For the first time this collection of essays presents and discusses the new analytical tools that have so far been developed on the basis of unnatural novels short stories and plays and extends these findings through analyses of testimonies comics graphic novels films and oral narratives. Many narratives do not only mimetically reproduce the world as we know it but confront us with strange narrative worlds which rely on principles that have very little to do with the actual world around us. The essays in this collection develop new narratological tools and modeling systems which are designed to capture the strangeness and extravagance of such anti-realist narratives. Taken together the essays offer a systematic investigation of anti-mimetic techniques and strategies that relate to different narrative parameters different media and different periods within literary history
