Ulrich's International Periodicals Directory Carolyn Farquhar Ulrich, 1999 Contains essential bibliographic and access information on serials published throughout the world

Voice of the Buddha Maria Heim, 2018-09-12 What would a Buddhist theory of texts look like through the lens of the 5th century thinker Buddhaghosa In *Voice of the Buddha* Maria Heim reads from the principal commentator editor and translator of the Theravada intellectual tradition yielding fresh insight into all three collections of the early Pali texts Vinaya the Suttas and the Abhidhamma Buddhaghosa considered the Buddha to be omniscient the Buddha's words to be oceanic Every word passage book indeed the corpus as a whole is taken to be endless and immeasurable in Buddhaghosa's view Commentarial practice thus requires disciplined methods of expansion drawing out the endless possibilities for meaning and application Heim considers Buddhaghosa's theories of texts and follows his practices of exegesis to discover how he explored scripture's infinity By examining the significance of the immeasurability of scripture in commentarial practice and as a general principle this book offers new tools to understand the huge scriptural and commentarial literature of the Pali tradition And by taking seriously a traditional commentator's theory of texts it beckons us to learn from commentaries themselves how we might read and interpret them and the texts on which they comment

Anti-Judaism and Christian Orthodoxy Christine Shepardson, 2008 A critical reading of Ephrem's numerous poetic writings demonstrates that his sharp anti Jewish and anti Judaizing language helped to solidify a pro Nicene definition of Christian orthodoxy cutting off from that community in the very act of defining it his so called Judaizing and Arian Christian opponents both of whom he accused of being more like Jews than Christians Through carefully crafted rhetoric Ephrem constructed for his audience new social and theological parameters that reshaped the religious landscape of his community

Reciprocal Constructions Vladimir P. Nedjalkov, 2007-11-06 This monograph constitutes the first comprehensive investigation of reciprocal constructions and related phenomena in the world's languages Reciprocal constructions of the type The two boys hit each other The poets admire each other's poems have often been the subject of language particular

studies but it is only in this work that a truly global comparative picture emerges. Nine stage setting chapters dealing with general and theoretical matters are followed by 40 chapters containing in depth descriptions of reciprocals in individual languages by renowned specialists. The introductory papers provide a conceptual and terminological framework that allows the authors of the individual chapters to characterize their languages in comparable terms making it easy for the reader to see points of commonality between languages and constructions that have never been compared before. This set of volumes is an indispensable starting point and will be a lasting reference work for any future studies of reciprocals.

Research in Education, 1968 Resources in education, 1991 **Reflections and New Perspectives on Virgil's Georgics** Nicholas Freer, Bobby Xinyue, 2019-02-21

Virgil's *Georgics*, the most neglected of the poet's three major works, is brought to life and infused with fresh meanings in this dynamic collection of new readings. The *Georgics* is shown to be a rich field of inherited and varied literary forms actively inviting a wide range of interpretations as well as deep reflection on its place within the tradition of didactic poetry. The essays contained in this volume, contributed by scholars from Australia, Europe, and North America, offer new approaches and interpretive methods that greatly enhance our understanding of Virgil's poem. In the process, they unearth an array of literary and philosophical sources which exerted a rich influence on the *Georgics*, but whose impact has hitherto been underestimated in scholarship. A second goal of the volume is to examine how the *Georgics*, with its profound meditations on humankind, nature, and the socio-political world of its creation, has been reinterpreted and appropriated by readers and critics from antiquity to the modern era. The volume opens up a number of exciting new research avenues for the study of the reception of the *Georgics* by highlighting the myriad ways in which the poem has been understood by ancient readers, early modern poets, explorers of the New World, and female translators of the twentieth and twenty-first centuries.

The novel begins with Richard Pape, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and gripping novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
