Perception And Personal Identity:

Perception and Personal Identity Oberlin Colloquium in Philosophy Staff, Perception and Personal Identity, 1969

The Psychology of Group Perception Vincent Yzerbyt, Charles M. Judd, Olivier Corneille, 2004-08-02 This groundbreaking work by leading social psychologists who have all contributed in important ways to the psychology of group perception focuses in particular on three interrelated issues 1 whether groups are seen to be diverse or relatively homogeneous 2 whether groups are seen as real and stable or only transitory and ephemeral and 3 whether group membership derives from some essential quality of the members or rather is based on social constructions

Locke on Persons and Personal Identity Ruth Boeker, 2021-03-01 Ruth Boeker offers a new perspective on Locke's account of persons and personal identity by considering it within the context of his broader philosophical project and the philosophical debates of his day Emphasizing the importance of the moral and religious dimensions of his view Boeker argues that to take seriously Locke's general approach to questions of identity we should consider his account of personhood separately from his account of personal identity over time On this basis she argues that Locke endorses a moral account of personhood according to which persons are subjects of accountability and that his particular thinking about moral accountability explains why he regards sameness of consciousness as necessary for personal identity over time In contrast to some neo Lockean views about personal identity Boeker argues that Locke's account of personal identity is not psychological per se but rather his underlying moral religious metaphysical and epistemic background beliefs are relevant for understanding why he argues for a consciousness based account of personal identity Taking his underlying background beliefs into considerations not only sheds light on why many of his early critics do not adopt Locke's view but also shows why his view cannot be as easily dismissed as some of his critics assume

Hume on the Self and Personal Identity Dan O'Brien, 2022-08-30 This book brings together a team of international scholars to attempt to understand David Hume's conception of the self The standard interpretation is that he holds a no self view we are just bundles of conscious experiences thoughts and emotions There is nothing deeper to us no core no essence no soul In the Appendix to A Treatise of Human Nature though Hume admits to being dissatisfied with such an account and Part One of this book explores why this might be so Part Two turns to Books 2 and 3 of the Treatise where Hume moves away from the fiction of a simple self to the complex idea we have of our flesh and blood selves those with emotional lives practical goals and social relations with others In Part Three connections are traced between Hume and Madhyamaka Buddhism Husserl and the phenomenological tradition and contemporary cognitive science
