Oliver A. Johnson

Perception Knowledge And Disbelief A Study Of Jayarasi Sceptism:

Advaita Epistemology and Metaphysics Chakravarthi Ram-Prasad, 2013-11-05 Based on original translations of passages from the works of three major thinkers of the classical Indian school of Advaita Sankara Vacaspati and Sri Harsa but addressing issues found in Descartes Berkeley Hume Kant Wittgenstein and contemporary analytic philosophers this book argues for a philosophical position it calls non realism This is the view that an independent external world must be assumed if the features of cognition are to be explained but that it cannot be proved that there is such a world independently of an appeal to cognition itself This position is constructed against idealist denials of externality realist arguments for an independent world and the sceptical denial of the coherence of cognition A Historical-developmental Study of Classical Indian Philosophy of Morals Rajendra Prasad, 2009 Contributed articles *Perception, Knowledge and Disbelief* Eli Franco, 1994 The Tattvapaplavasimha is a philosophical text unique of its kind it is the only text of the Carvaka Lokayata school which has survived and the only Sanskrit work in which full fledged scepticism is propounded Notwithstanding that it has been hitherto almost completely ignored The present book consists of an introduction detailed analysis edition translation with extensive notes of the first half of the text In the introduction Jayarasi's affiliation to the Lokayata school is reassessed and his place in the historical development of Indian Philosophy evaluated New evidence for the dating of Jayarasi is examined and a new dating is suggested **Skepticism and the Veil of Perception** Michael Huemer, 2001-07-17 This book develops and defends a version of direct realism the thesis that perception gives us direct awareness and non inferential knowledge of the external world Huemer rebuts the main arguments used by philosophical skeptics to try to show that we cannot know anything about the world outside of the mind as well as the arguments used by representationalists to try to show that we only perceive representations of external objects **Skepticism and the Veil of Perception** Michael Huemer, 2001-07-17 Since Descartes one of the central questions of Western philosophy has been that of how we know that the objects we seem to perceive are real Philosophical skeptics claim that we know no such thing Representationalists claim that we can gain such knowledge only by inference by showing that the hypothesis of a real world is the best explanation for the kind of sensations and mental images we experience Both accept the doctrine of a veil of perception that perception can only give us direct awareness of images or representations of objects not the external objects themselves In contrast Huemer develops a theory of perceptual awareness in which perception gives us direct awareness of real objects not mental representations and we have non inferential knowledge of the properties of these objects Further Huemer confronts the four main arguments for philosophical skepticism showing that they are powerless against this kind of theory of perceptual knowledge Scepticism and Perceptual Justification Dylan Dodd, Elia Zardini, 2014 New essays on scepticism about the senses explore the problem of whether and how experience can provide knowledge or justification for belief about the objective world outside the experiencer's mind *Skepticism and the Veil of Perception* Michael Huemer, 2001 This book

develops and defends a version of direct realism the thesis that perception gives us direct awareness and non inferential knowledge of the external world Huemer rebuts the main arguments used by philosophical skeptics to try to show that we cannot know anything about the world outside of the mind as well as the arguments used by representationalists to try to show that we only perceive representations of external objects **Skepticism and the Definition of Knowledge** Gilbert Harman, 2015-06-05 Originally published in 1990 This study argues that scepticism is an intelligible view and that the issue scepticism raises is whether or not certain sceptical hypotheses are as plausible as the ordinary views we accept It discusses psychological concepts definitions of knowledge belief and hypothetic inference inference to the best explanation Starting from Is skepticism a problem for epistemology the book takes us through the argument for the possibility of scepticism including looking at sense data and considering memory and perception **Skepticism and Cognitivism** Oliver A. Johnson, 1978
