Perceptions and Policy in Transatlantic Relations

Natividad Fernández Sola, Michael Smith, 2009 In this book experts from both sides of the Atlantic examine the recent tensions between Western Europe and the United States over such issues as transatlantic security policies towards terrorism and relations with Russia and the former Soviet Union against the broader background of perceptions and misperceptions in transatlantic relations Drawing on Professor Robert Jervis work *Perceptions and Misperceptions in International Politics* this book examines whether Jervis thesis has a new relevance given the current challenges in transatlantic relations Some of the issues examined include perceptions and misperceptions in general focusing on US foreign policy issues of decision making and implementation and issues of alliance management the capacity of the United States and the European Union to cooperate effectively within the broader transatlantic framework studies focusing on the alliance security dilemma and the transatlantic security community case studies of transatlantic relations in the war on terror and relations with Russia the present and future of the western alliance Providing a global and multilateral analysis from American and European perspectives and exploring fields of cooperation and competition *Perceptions and Policy in Transatlantic Relations* will be of strong interest to students of International Relations American politics and European politics

How Statesmen Think Robert Jervis, 2017-02-14 Robert Jervis has been a pioneering leader in the study of the psychology of international politics for more than four decades *How Statesmen Think* presents his most important ideas on the subject from across his career This collection of revised and updated essays applies elaborates and modifies his pathbreaking work The result is an indispensable book for students and scholars of international relations *How Statesmen Think* demonstrates that expectations and political and psychological needs are the major drivers of perceptions in international politics as well as in other arenas Drawing on the increasing attention psychology is paying to emotions the book discusses how emotional needs help structure beliefs It also shows how decision makers use multiple shortcuts to seek and process information when making foreign policy and national security judgments For example the desire to conserve cognitive resources can cause decision makers to look at misleading indicators of military strength and psychological pressures can lead them to run particularly high risks The book also looks at how deterrent threats and counterpart promises often fail because they are misperceived *How Statesmen Think* examines how these processes play out in many situations that arise in foreign and security policy including the threat of inadvertent war the development of domino beliefs the formation and role of national identities and conflicts between intelligence organizations and policymakers

The Oxford Handbook of Foreign Policy Analysis Juliet Kaarbo, Cameron G. Thies, 2024 *The Oxford Handbook of Foreign Policy Analysis* provides an inclusive and forward looking assessment of this subfield Edited and written by a team of world class scholars it sets the agenda for future research in FPA and in IR

The Origins of Alliances Stephen M. Walt, 2013-08-10 *The Origins of Alliances* offers a different way of thinking about our security and thus about our diplomacy It ought to be read by anyone with a serious interest in understanding why our foreign policy is

so often self defeating New Republic How are alliances made In this book Stephen M Walt makes a significant contribution to this topic surveying theories of the origins of international alliances and identifying the most important causes of security cooperation between states In addition he proposes a fundamental change in the present conceptions of alliance systems Contrary to traditional balance of power theories Walt shows that states form alliances not simply to balance power but in order to balance threats Walt begins by outlining five general hypotheses about the causes of alliances Drawing upon diplomatic history and a detailed study of alliance formation in the Middle East between 1955 and 1979 he demonstrates that states are more likely to join together against threats than they are to ally themselves with threatening powers Walt also examines the impact of ideology on alliance preferences and the role of foreign aid and transnational penetration His analysis show however that these motives for alignment are relatively less important In his conclusion he examines the implications of balance of threat for U S foreign policy

Foreign Policy Analysis Chris Alden, Amnon Arran, 2016-10-04 Building on the success of the first edition this revised volume re invigorates the conversation between foreign policy analysis and international relations It opens up the discussion situating existing debates in foreign policy in relation to contemporary concerns in international relations and provides a concise and accessible account of key areas in foreign policy analysis that are often ignored Focusing on how foreign policy decision making affects the conduct of states in the international system and analysing the relationship between policy agency and actors the volume examines foreign policy and bureaucracies domestic sources of foreign policy foreign policy and the state foreign policy and globalization foreign policy and change Features of the second edition include a wider range of contemporary case studies and examples from around the globe analysis of new directions in foreign policy analysis including foreign policy implementation and the changing media landscape fully updated material across all chapters to reflect the evolving research agenda in the area This second edition builds on and expands the theoretical canvas of foreign policy analysis shaping its ongoing dialogue with international relations and offering an important introduction to the field It is essential reading for all students of foreign policy and international relations

Terrorism, Talking and Transformation Harmonie Toros, 2012-02-27 Using rare field research this book investigates whether and how talking may transform terrorist violence Given the failings of today s dominant counterterrorism strategy is talking a viable policy option to transform conflicts marked by terrorist violence This book examines the reasons why negotiating with terrorists is so often shunned by decision makers and scholars as a policy response concluding that such objections are primarily based on a realist and statist understanding of terrorism that has dominated the field so far Based on interviews with top rebel and military commanders in the southern Philippine region of Mindanao and interviewing key actors in Northern Ireland Terrorism Talking and Transformation investigates how talking may contribute to the transformation of conflicts marked by terrorist violence The result of this analysis is a theoretically grounded empirically recognizable and emancipation oriented framework that can be used to investigate the potential of

talking in transforming not only terrorist and counterterrorist violence but also the underlying structural violence that often surrounds it This book will be of much interest to students in the fields of terrorism studies security studies Southeast Asian studies conflict resolution transformation and IR in general and of use to practitioners in the field **Perfect Deterrence**

Frank C. Zagare,D. Marc Kilgour,2000-09-21 An important and timely contribution to International Relations and political science this is the first general analysis of deterrence since the end of the Cold War Using non cooperative game theory the authors develop a new approach to deterrence Perfect Deterrence Theory which they apply to unilateral and mutual direct deterrence relationships and to extended deterrence relationships supported by deployment policies such as Massive Retaliation and Flexible Response The authors focus on the relationship among capabilities preferences credibility and outcomes to achieve a new understanding of threats and responses Some surprising conclusions emerge indicating that credible threats to respond to attack can sometimes make an attack more likely and that incredible response threats can sometimes promote peace With the application of deterrence theory in diverse social settings and historical examples from before during and after the Cold War this book provides a welcome new examination of the subject **European Security**

Culture Monica Gariup,2017-05-15 Grounded on tenets of cultural realism and social constructivism Monica Gariup develops a theoretical framework to enhance our understanding of security culture at the European Union level She employs tools from political theory linguistic analysis and international relations theory to examine the implications of discourse and practice in European Security and Defense Policy ESDP Innovative in scope the volume analyzes whether elaborating a structurationist solution and proposing a discursive syntax of security makes it possible to identify and compare different types of security actors Providing a comprehensive and objective analysis on the links and implications between the discourse and actual policy of the ESDP this is essential reading for scholars and researchers in European politics international relations security and cultural studies **Classics of International Relations** Henrik Bliddal,Casper

Sylvest,Peter Wilson,2013-07-24 Classics of International Relations introduces contextualises and assesses 24 of the most important works on international relations of the last 100 years Providing an indispensable guide for all students of IR theory from advanced undergraduates to academic specialists it asks why are these works considered classics Is their status deserved Will it endure It takes as its starting point Norman Angell s best selling The Great Illusion 1909 and concludes with Daniel Deudney s award winning Bounding Power 2006 The volume does not ignore established classics such as Morgenthau s Politics Among Nations and Waltz s Theory of International Politics but seeks to expand the IR canon beyond its core realist and liberal texts It thus considers emerging classics such as Linklater s critical sociology of moral boundaries Men and Citizens in the Theory of International Relations and Enloe s pioneering gender analysis Bananas Beaches and Bases It also innovatively considers certain alternative format classics such as Kubrick s satire on the nuclear arms race Dr Strangelove and Errol Morris s powerful documentary on war and US foreign policy The Fog of War With an international cast of

contributors many of them leading authorities on their subject Classics of International Relations will become a standard reference for all those wishing to make sense of a rapidly developing and diversifying field Classics of International Relations is designed to become a standard reference text for advanced undergraduates post graduates and lecturers in the field of IR

Zion's Dilemmas Charles D. Freilich, 2012-09-28 In Zion's Dilemmas a former deputy national security adviser to the State of Israel details the history and in many cases the chronic inadequacies in the making of Israeli national security policy Chuck Freilich identifies profound ongoing problems that he ascribes to a series of factors a hostile and highly volatile regional environment Israel's proportional representation electoral system and structural peculiarities of the Israeli government and bureaucracy Freilich uses his insider understanding and substantial archival and interview research to describe how Israel has made strategic decisions and to present a first of its kind model of national security decision making in Israel He analyzes the major events of the last thirty years from Camp David I to the 1982 invasion of Lebanon through Camp David II the Gaza Disengagement Plan of 2005 and the second Lebanon war of 2006 In these and other cases he identifies opportunities forgone failures that resulted from a flawed decision making process and the entanglement of Israeli leaders in an inconsistent highly politicized and sometimes improvisational planning process The cabinet is dysfunctional and Israel does not have an effective statutory forum for its decision making most of which is thus conducted in informal settings In many cases policy objectives and options are poorly formulated For all these problems however the Israeli decision making process does have some strengths among them the ability to make rapid and flexible responses generally pragmatic decision making effective planning within the defense establishment and the skills and motivation of those involved Freilich concludes with cogent and timely recommendations for reform *Economic Incentives and Bilateral Cooperation* William J. Long, 1996

Explores how economic incentives can be used in foreign policy **The Logic of Images in International Relations** Robert Jervis, 1989 The summation of more than two thousand years of one of the world's most august literary traditions this volume also represents the achievements of four hundred years of Western scholarship on China The selections include poetry drama fiction songs biographies and works of early Chinese philosophy and history rendered in English by the most renowned translators of classical Chinese literature Arthur Waley Ezra Pound David Hawkes James Legge Burton Watson Stephen Owen Cyril Birch A C Graham Witter Bynner Kenneth Rexroth and others Arranged chronologically and by genre each chapter is introduced by definitive quotes and brief introductions chosen from classic Western sinological treatises Beginning with discussions of the origins of the Chinese writing system and selections from the earliest genre of Chinese literature the Oracle Bone inscriptions the book then proceeds with selections from early myths and legends the earliest anthology of Chinese poetry the Book of Songs early narrative and philosophy including the I Ching Tao te Ching and the Analects of Confucius rhapsodies historical writings magical biographies ballads poetry and miscellaneous prose from the Han and Six Dynasties period the court poetry of the Southern Dynasties the finest gems of Tang poetry and lyrics stories

and tales of the Sui Tang and Five Dynasties eras Special highlights include individual chapters covering each of the luminaries of Tang poetry Wang Wei Li Bo Du Fu and Bo Juyi early literary criticism women poets from the first to the tenth century C E and the poetry of Zen and the Tao Bibliographies explanatory notes copious illustrations a chronology of major dynasties and two way romanization tables coordinating the Wade Giles and pinyin transliteration systems provide helpful tools to aid students teachers and general readers in exploring this rich tradition of world literature

The World Imagined Hendrik Spruyt, 2020-07-02 Spruyt takes an inter disciplinary approach to explain how collective belief systems organized three non European societies c 1500 1900 and how these polities engaged the European colonial powers

Looking for Balance Steve Chan, 2013-07-15 Debate surrounding China s rise and the prospects of its possible challenge to America s preeminence has focused on two questions whether the United States should contain or engage China and whether the rise of Chinese power has inclined other East Asian states to balance against Beijing by alignment with the United States or ramping up their military expenditures By drawing on alternative theoretic approaches most especially balance of threat theory political economic theory and theories of regime survival and economic interdependence Steve Chan is able to create an explanation of regional developments that differs widely from the traditional strategic vision of national interest He concludes that China s primary aim is not to match U S military might or the foreign policy influence that flows from that power and that its neighbors are not balancing against its rising power because in today s guns versus butter fiscal reality balancing policies would entail forfeiting possible gains that can accrue from cooperation economic growth and the application of GDP to nonmilitary ends Instead most East Asian countries have collectively pivoted to a strategy of elite legitimacy and regime survival based on economic performance

Risk: A Study Of Its Origins, History And Politics Matthias Beck, Beth Kewell, 2014-01-13 Over a period of several centuries the academic study of risk has evolved as a distinct body of thought which continues to influence conceptual developments in fields such as economics management politics and sociology However few scholarly works have given a chronological account of cultural and intellectual trends relating to the understanding and analysis of risks Risk A Study of its Origins History and Politics aims to fill this gap by providing a detailed study of key turning points in the evolution of society s understanding of risk Using a wide range of primary and secondary materials Matthias Beck and Beth Kewell map the political origins and moral reach of some of the most influential ideas associated with risk and uncertainty at specific periods of time The historical focus of the book makes it an excellent introduction for readers who wish to go beyond specific risk management techniques and their theoretical underpinnings to gain an understanding of the history and politics of risk
