

A man wearing a white chef's hat, a light blue button-down shirt, a patterned tie, and a white apron stands behind a table. He is looking directly at the camera with a slight smile. The table in front of him is covered with various chicken dishes: a whole roasted chicken on a white platter with orange slices, a bowl of fried chicken, a dish of chicken with broccoli, a large pie or casserole, and a bowl of chicken in a red sauce. To the right of the man is a white ceramic rooster figurine.

activity and had a decrease in consumption of salt and alcohol The third had all the interventions of the first but also were put on the dash diet All three groups showed positive health changes but only the one with the dash diet statistically increased insulin sensitivity The dash is a positive step in managing effects of diabetes in addition to the insulin sensitivity This is because many people with diabetes have a higher risk of heart disease and stroke Hypertension increases this risk so a diet that decreases blood pressure will have the benefit of being a tool of prevention of other diseases in individuals with diabetes Develop your relationship with your medical provider and be sure to maintain contact about any questions concerns or changes in your diabetes symptoms All the recipes also include detailed information on calories fat saturated fat sodium carbohydrates Total sugars protein Dietary fiber as well as serving sizes
