Dear Mr Doe

I am a junior majoring in Computer Science at University. I recently met with Bill Jones, a Control Designer in your organisation. He recommended that I bring this resume to your attention. I would appreciate if you accepted this letter and the aforementioned resume as an application for an intern position on your design team.

Over the past few semesters, I have taken several classes that have broadened my background in digital design. These courses familiarized me with the techniques used to abstract and organize complex computational devices and behaviourally simulate their models. In addition, I gained experience in low-level circuit simulation techniques.

My last internship at Computer Corporation provided me with an opportunity to make a significant contribution to a large, dynamic project. While on the development team, I learned to coordinate my individual efforts with the other highly motivated people around me. I developed strong organizational and team oriented skills. I am confident that these abilities would serve me well on your design team.

As stated earlier, I am very interested in integrated circuits and feel that I could contribute to the efforts of your design team. I would appreciate the opportunity to discuss my qualifications and your summer employment opportunities in more detail. I can be contacted at 555-246-1234. I look forward to hearing from you.

Thank you.

Sincerely,

Ann Anderson

and when they did not So New York Times bestselling author Simon Garfield asks Can anything be done to revive a practice that has dictated and tracked the progress of civilization for more than five hundred years In To the Letter Garfield traces the fascinating history of letter writing from the love letter and the business letter to the chain letter and the letter of recommendation He provides a tender critique of early letter writing manuals and analyzes celebrated correspondence from Erasmus to Princess Diana He also considers the role that letters have played as a literary device from Shakespeare to the epistolary novel all the rage in the eighteenth century and alive and well today with bestsellers like The Guernsey Literary and Potato Peel Pie Society At a time when the decline of letter writing appears to be irreversible Garfield is the perfect candidate to inspire bibliophiles to put pen to paper and create a form of expression emotion and tactile delight we may clasp to our heart

DOUGLAS J MOO, 2020-05-21 Few New Testament books have been as controversial and misunderstood as The Letter of James Its place in the canon was contested by some early Christians and the reformer Martin Luther called it an epistle of straw The sometimes negative view of the letter among modern theologians however is not shared by ordinary believers Few books in the New Testament are better known or more often quoted and because James is so concise so intensely practical and so filled with memorable metaphors and illustrations it has become one of the two or three most popular New Testament books in the church The highly original commentary on James by respected New Testament scholar Douglas Moo combines penetrating scholarship with the simplicity of style and pastoral tone characteristic of James itself After discussing such background issues as authorship genre purpose structure and theology Moo provides a verse by verse exposition of the text that leads readers to the heart of James's message wholehearted commitment to Christ In addition to expounding the meaning of James Moo also takes care to provide practical insights for applying the meaning in the church today A number of

years in the making interacting with the best and most recent works on James and written for readers at all levels this volume will quickly become a standard commentary on James
