Evolutionary Intelligence W. Russell Neuman, 2023-09-26 A surprising vision of how human intelligence will coevolve with digital technology and revolutionize how we think and behave It is natural for us to fear artificial intelligence But does Siri really want to kill us Perhaps we are falling into the trap of projecting human traits onto the machines we might build In Evolutionary Intelligence Neuman offers a surprisingly positive vision in which computational intelligence compensates for the well recognized limits of human judgment improves decision making and actually increases our agency In artful accessible and adventurous prose Neuman takes the reader on an exciting fast paced ride all the while making a convincing case about a revolution in computationally augmented human intelligence Neuman argues that just as the wheel made us mobile and machines made us stronger the migration of artificial intelligence from room sized computers to laptops to our watches smart glasses and even smart contact lenses will transform day to day human decision making If intelligence is the capacity to match means with ends then augmented intelligence can offer the ability to adapt to changing environments as we face the ultimate challenge of long term survival Tapping into a global interest in technology's potential impacts on society economics and culture Evolutionary Intelligence demonstrates that our future depends on our ability to computationally compensate for the limitations of a human cognitive system that has only recently graduated from hunting and gathering

1995 W. Joseph Campbell, 2015-01-02 A hinge moment in recent American history 1995 was an exceptional year Drawing on interviews oral histories memoirs archival collections and news reports W

Joseph Campbell presents a vivid detail rich portrait of those memorable twelve months This book offers fresh interpretations of the decisive moments of 1995 including the emergence of the Internet and the World Wide Web in mainstream American life the bombing at Oklahoma City the deadliest attack of domestic terrorism in U S history the sensational Trial of the Century at which O J Simpson faced charges of double murder the U S brokered negotiations at Dayton Ohio which ended the Bosnian War Europe s most vicious conflict since the Nazi era and the first encounters at the White House between Bill Clinton and Monica Lewinsky a liaison that culminated in a stunning scandal and the spectacle of the president s impeachment and trial As Campbell demonstrates in this absorbing chronicle 1995 was a year of extraordinary events a watershed at the turn of the millennium The effects of that pivotal year reverberate still marking the close of one century and the dawning of another

All the Facts James W. Cortada,2016-03-16 All the Facts presents a history of the role of information in the United States since 1870 when the nation began a nearly 150 year period of economic prosperity and technological and scientific transformations James Cortada argues that citizens and their institutions used information extensively as tools to augment their work and private lives and that they used facts to help shape how the nation evolved during these fourteen decades He argues that information s role has long been a critical component of the work play culture and values of this nation and no more so than during the twentieth century when its function in society expanded dramatically While elements of this story have been examined by thousands of scholars such as the role of radio newspapers books computers and the Internet about such institutions as education big business expanded roles of governments from town administration to the state house from agriculture to the services and information industries All the Facts looks at all of these elements holistically providing a deeper insight into the way the United States evolved over time An introduction and 11 chapters describe what this information ecosystem looked like how it evolved and how it was used For another vast layer of information about this subject the reader is directed to the detailed bibliographic essay in the back of this book It includes a narrative history case studies in the form of sidebars and stories illustrating key points Readers will find for example the story of how the US postal system helped create today s information society along with everything from books and newspapers to TV computers and the Internet The build up to what many today call the Information Age took a long time to achieve and continues to build momentum The implications for the world and not just for the United States are as profound as any mega trend one could identify in the history of humankind All the Facts presents this development thoroughly in an easy to digest format that any lover of history technology or the history of information and business will enjoy

The PayPal Wars Eric M. Jackson,2023-07-18 Peter Thiel Elon Musk and the rest of the PayPal Mafia are now household names who ve reshaped technology automobiles space travel and politics But two decades ago they were unsung entrepreneurs attempting to launch a Silicon Valley startup against overwhelming odds That improbable journey started in the shadow of Stanford University when Thiel met Max Levchin a Ukrainian engineer who recently moved to California Years before anyone

had heard of Bitcoin the two set out to build an online payment service that could reduce government control over currency by empowering people around the globe But after their startup PayPal survived the dot com crash only to find itself besieged by an unimaginable series of challenges that lofty dream threatened to become a nightmare Former insider Eric M Jackson s telling of PayPal s origins is an eyewitness account to technology history as well as an engrossing story of human struggle and perseverance against overwhelming odds PayPal went from unknown startup to online powerhouse in just three years but for the company s team it was not an easy journey The entrepreneurs that joined together to overhaul world currency markets first had to face one of the greatest series of trials ever thrown at a startup before becoming part of Silicon Valley lore Jackson s lively blow by blow account of PayPal s death defying beginnings and ferocious battles offers a detailed perspective that only an eyewitness could provide Read *The PayPal Wars* and you ll learn how Elon Musk joined with Peter Thiel and how the two future titans would soon square off to control the company Organized crime attempted to ransack PayPal but the company fought back Government bureaucrats and regulators ferociously tried to shut down the upstart payments service Turmoil pushed PayPal to the brink of insolvency before Thiel and his team turned the business around Our clashes with the credit card associations the banking lobby state regulators foreign Mafioso and litigation happy lawyers significantly increased as the company s profile grew writes Jackson adding that the initial public offering that was meant to strengthen PayPal with an infusion of cash ironically attracted a rogue s gallery of foes instead The modern business environment Jackson concludes turned out to be more hostile than even our fiercest competitor This somber warning that regulators lawyers and lobbyists threaten to undermine American entrepreneurship makes *The PayPal Wars* a timely read for every concerned citizen
