Smith, 2018-04-13 Most of us hope to do what morality requires of us But what if we can't figure out what it does require A soldier may know that morality requires him not to kill an innocent civilian but he can't tell whether the driver of a suspicious car is an innocent civilian or a terrorist about to detonate a bomb Holly M Smith addresses this problem in Making Morality Work by asking whether we should reject moral codes that can't be used by anyone hampered by inadequate information When considering questions of morality we call on moral theories to play both a theoretical and a practical role These theories provide accounts of what makes actions right or wrong and also provide a standard by which agents can guide their own conduct It is usually assumed that a single theory can serve both roles but limited knowledge often prevents people from using traditional normative theories to make decisions Smith examines three major strategies for addressing this epistemic problem in morality before developing an innovative solution that overcomes the weaknesses of prior approaches Making Morality Work opens a path towards resolving a deep problem in moral life **The Secret** Rhonda Byrne, 2011-07-07 The tenth anniversary edition of the book that changed lives in profound ways now with a new foreword and afterword In 2006 a groundbreaking feature length film revealed the great mystery of the universe The Secret and later that year Rhonda Byrne followed with a book that became a worldwide bestseller Fragments of a Great Secret have been found in the oral traditions in literature in religions and philosophies throughout the centuries For the first time all the pieces of The Secret come together in an incredible revelation that will be life transforming for all who experience it In this book you'll learn how to use The Secret in every aspect of your life money health relationships happiness and in every interaction you have in the world You'll begin to understand the hidden untapped power that's within you and this revelation can bring joy to every aspect of your life The Secret contains wisdom from modern day teachers men and women who have used it to achieve health wealth and happiness By applying the knowledge of The Secret they bring to light compelling stories of eradicating disease acquiring massive wealth overcoming obstacles and achieving what many would regard as impossible **Treasures of the Soul** Maggie Bellevue, 2022-10-14 The presentation of the main body of this book is based on a format that I conceptualized for ease of application of the principles

which I consider fundamental to living a fulfilling life of purpose I call that format The 7 C s of Living In Purpose In the order in which I present each of them as a chapter on its own these are Conceive Confidence Concentrate Consistence Commitment Character and Celebration Having made myself amenable to the divine assignment I was given to write a book that broadly discusses purpose in as focused a manner as I could possibly make it I still found myself burdened with the task of conceiving of a learning methodology which would render the entire text not just one that would occupy the average reader s leisure reading hours but also one that would lend itself to an effective tool for the application of the knowledge provided in the book
