Performance Or Compliance Performance Audit And Public Management In Five Countries:

Performance Or Compliance? Christopher Pollitt, 1999 In this volume an international team of researchers analyze the growth of performance audit in France Finland The Netherlands Sweden and the UK It is argued that audit offices face a series of strategic choices and that in different countries they have chosen somewhat different trajectories

Environmental Performance Auditing in the Public Sector Awadhesh Prasad, 2018-06-14 Environment and sustainable development challenges are a matter of global concern Trillions of dollars of mostly public money are invested every year in domestic and international policies and programs to address these challenges The effectiveness of these policies and programs is critical to environmental sustainability Performance audits that examine the effectiveness of governmental policies and programs heavily influence their implementation Despite this performance auditing in the environment field has received very little academic attention This book takes a closer look at performance auditing of public sector environmental policies and programs It examines trends in global environmental performance auditing and how it is currently practiced drawing on a global survey and case studies from Canada India and Australia In doing so it identifies issues and challenges faced by Supreme Audit Institutions in undertaking these performance audits This book will be of interest to students scholars and practitioners of sustainable development environmental auditing and public sector auditing as well as to donor organisations engaged in these areas

Value for Money Andrew Podger, Tsai-tsu Su, John Wanna, Hon S. Chan, Meili Niu, 2018-01-11 The Greater China Australia Dialogue on Public Administration has held annual workshops since 2011 on public administration themes of common interest to the People's Republic of China Taiwan and Australia This book presents and discusses a selection of papers developed from the Dialogue's fifth workshop held in late 2015 hosted by the National Taiwan University in Taipei The theme Value for Money focused on budget and financial management reforms including how different nations account for the relative performance of their public sectors All governments face the challenge of scarce resources requiring budgetary management processes for identifying the resources required by and available to government and then for allocating them and ensuring their use or deployment represents value for money Such budgetary and financial management processes need to inform decision making routinely and protect the integrity of the way public resources are used with some public accountability to indicate that their uses are properly authorised and reflect the policies of legitimate government leaders The chapters in this book explore budgeting and financial management in three very different jurisdictions Australia the People's Republic of China and the Republic of China Taiwan These activist and at times innovative countries are keen to analyse and reflect upon each other's policy achievements and patterns of public provision They are keen to learn more about each other as their economic and social engagement continues to deepen They are also conscious that fundamental differences exist in terms of economic development and global strategic positioning and levels and philosophies of political development to an extent these differences are representative of differences amongst

countries around the globe **Public Management Reform : A Comparative Analysis** Christopher Pollitt, Geert Bouckaert, 1999-12-09 In this major new contribution to a rapidly expanding field the authors offer an integrated analysis of the wave of management reforms which have swept through so many countries in the last twenty years The reform trajectories of ten countries are compared and key differences of approach discussed Unlike some previous works this volume affords balanced coverage to the New Public Management NPM and the non NPM or reluctant NPM countries since it covers Australia Canada Finland France Germany the Netherlands New Zealand Sweden the UK and the USA Unusually it also includes a preliminary analysis of attempts to improve management within the European Commission *Contemporary Issues in Management Accounting* Alnoor Bhimani, 2006 Covering established and emerging areas in the fast changing field of management accounting this work discusses accounting practices such as budgeting costing responsibility accounting and capital investment analysis Contracts, Performance Measurements, and Accountability in the Public Sector Gavin Drewry, Carsten Greve, Thierry Tanquerel, 2005 This book addresses issues to do with public accountability audit and performance measurement that are both highly topical and of crucial importance to the theory and practice of public administration in an era of contractualized public management The literature on public sector contracting covering both hard agreements ones that are legally enforceable and soft agreements enforced by negotiation and mutual trust has been growing for some time and the present book adds a primarily European perspective on contracting performance based management and accountability One important aspect of this study is its recognition that those responsible for monitoring public services and holding them to account have had to an increasing extent to reconcile tensions between on the one hand the need for strong oversight and on the other the encouragement of innovation and risk in an increasingly competitive and entrepreneurial public service culture Following an introductory overview by the three editors the book is in three parts The first part deals with the theory and practice of performance measurement and evaluation the second part provides a series of specific case studies of audit and accountability in a variety of countries and contexts the third part offers some wider cross cutting perspectives Based on the work of the EGPA permanent study group on the history of contractualization Contracts Performance Measurement and Accountability in the Public Sector draws upon the wide expertise and research interests of academics and practitioners from the United Kingdom Denmark Switzerland Belgium Sweden and the USA International Encyclopedia of Political Science Bertrand Badie, Dirk Berg-Schlosser, Leonardo Morlino, 2011-09-07 With entries from leading international scholars from around the world this eight volume encyclopedia offers the widest possible coverage of key areas both regionally and globally The International Encyclopedia of Political Science provides a definitive comprehensive picture of all aspects of political life recognizing the theoretical and cultural pluralism of our approaches and including findings from the far corners of the world The eight volumes cover every field of politics from political theory and methodology to political sociology comparative politics public policies and international relations Entries are arranged in

alphabetical order and a list of entries by subject area appears in the front of each volume for ease of use The encyclopedia contains a detailed index as well as extensive bibliographical references Filling the need for an exhaustive overview of the empirical findings and reflections on politics this reference resource is suited for undergraduate or graduate students who wish to be informed effectively and quickly on their field of study for scholars seeking information on relevant research findings in their area of specialization or in related fields and for lay readers who may lack a formal background in political science but have an interest in the field nonetheless The International Encyclopedia of Political Science provides an essential authoritative guide to the state of political science at the start of the 21st century and for decades to come making it an invaluable resource for a global readership including researchers students citizens and policy makers The encyclopedia was developed in partnership with the International Political Science Association Key Themes Case and Area Studies Comparative Politics Theory and Methods Democracy and Democratization Economics Epistemological Foundations Equality and Inequality Gender and Race Ethnicity International Relations Local Government Peace War and Conflict Resolution People and Organizations Political Economy Political Parties Political Sociology Public Policy and Administration Qualitative Methods Quantitative Methods Religion *Policy Analysis in the Netherlands* Frans van Nispen, Peter Scholten, 2018-03-01 This comprehensive study part of the International Library of Policy Analysis edited by Iris Geva May and Michael Howlett brings together for the first time a systemic overview of policy analysis activities in the Netherlands The Netherlands is internationally regarded as one of the front runners of policy analysis and evaluation in Europe This book provides a much needed overview of developments in policy analysis in both academia and practice at various levels of governance It brings together contributions from key scholars as well as from professionals in the field The book captures the diversity of modes of policy analysis which have evolved since the 1970s Above all it provides an overview of the current state of affairs and is as such suitable for anyone who is interested in governance and performance Features of the ILPA series include a systematic study of policy analysis systems by government and non governmental actors a history of the country's policy analysis empirical case studies and a comparative overview a key reference collection for research and teaching in comparative policy analysis and policy studies *Making Policy in Theory and Practice* Bochel, Hugh, Duncan, Sue, 2007-10-17 This volume combines academic and practitioner perspectives to critically consider contemporary policy making and highlight examples of good practice at all levels of government **Performance Auditing** Jeremy Lonsdale, Peter Wilkins, Tom Ling, 2011-01-01 It is time 15 years on from the coining of the Audit Explosion to re appraise the growth of new forms of auditing As we move into what might be called Auditing in Austerity this book gives us that overview An extremely well informed team of authors has been assembled to deliver a comparative analysis that successfully mixes insider and outsider perspectives This should be required reading not just for auditors and their academic hangers on but for the wider audience of those interested in contemporary developments in democratic accountability and policymaking Christopher Pollitt Catholic University of Leuven

Belgium This book fills an important gap in the market At a time when governments around the world face the largest deficits in decades there is a strong need to reduce public expenditures whilst ensuring greater value for money from public services This book addresses these concerns and many more Each of the chapter authors is a senior practitioner and or an academic who specialises in performance auditing and accountability in modern complex democracies They explore the nature of the concepts which underlie current practice set out a variety of institutional structures and processes and identify the limits of both theory and practice These make this a book of considerable significance and one which makes an important contribution to our understanding of the democratic process This is not a narrowly focused book only of interest to those who specialise in performance auditing Given the richness of its analysis and the fine grained understanding of institutions and processes it has much to say to students of public administration management and policy analysis I am confident that this will rapidly become the standard reference for those who are interested in performance auditing Peter M Jackson AcSS University of Leicester UK What a good read Insightful and challenging It is likely to incite a lot of discussion on the wide ranging views from the very well informed and qualified contributors not least from those who actually have to implement the findings and recommendations of performance audit reports The focus is rightly on accountability for performance not only in achieving government program objectives in an economic efficient and effective manner but also on the audit institutions themselves It should be welcomed by the public sector and particularly by the parliamentary institutions concerned with achieving accountability for government performance Pat Barrett AO Australian National University and former Australian Auditor General 1995 2005 This book is a much welcome tonic for public administration It is one of the few books that explicitly focus on how audit institutions carry out their performance auditing responsibilities While auditors will likely read this the authors have geared the book to a broader readership including public managers who are often the subject of performance audits From the foreword by Paul Posner George Mason University US This state of the art book examines the development of performance audit drawing on the experience in a number of different countries including the United Kingdom the United States Australia the Netherlands and Belgium The expert contributors identify the trajectory of performance audit examine how it is conducted and consider what it is contributing to effective government They conclude that in the face of new challenges performance auditors should focus both on their core responsibilities to ensure accountability and continue to develop more insightful and sophisticated approaches to enable them to assess the growing complexity of the delivery of public services By doing so they can continue to play a valuable role in democratic accountability Providing an up to date overview and discussion of performance audit this highly topical book will appeal to all those working within audit academics working in the fields of public management and public administration as well practitioners in and close to state audit institutions Members of Parliament evaluators internal auditors researchers policy analysts and consultants will also find this book invaluable *The Essential Public Manager* Christopher Pollitt, 2003-05-16

This is a new kind of book on public management Using conversations cases and original sources it engages in a challenging and amusing way with the key themes and problems of the field After writing many conventional books and articles Christopher Pollitt has turned to this novel approach in order to offer students teachers and practitioners alike a refreshing introduction to both the classic and the most fashionable issues in public management The book provides a vigorous overview of such crucial topics as the differences and similarities between public and private sector management the nature of the New Public Management the development of networks and partnerships the impacts of politics and citizen participation on public administration changes in the ethics and value climate for public servants and the fundamental question of what kind of advice academics can and cannot offer to practising managers It is international in its scope and draws upon examples and sources from Europe North America and Australasia Although the style is lively and informal the text is built upon a very wide range of academic writing and research For those who wish to go deeper at any point each chapter offers a summary of the literature and guidance on further sources The Essential Public Manager offers readers a stimulating journey through the challenges facing those who run the basic systems and services in our societies It constitutes a valuable new source for students teachers and practising managers alike

Financial Determinants in Local Re-Election Rates: Emerging Research and Opportunities Cunha, Ana Maria, Ferreira, Augusta, Fernandes, Maria José, Gomes, Patrícia, 2019-10-25 Accounting information on the one hand allows government officials to obtain better information to support greater decision making transparency and accountability On the other hand this financial information also allows local citizens more access to knowledge of how public resources are being managed and used by the local government entities Measuring the pros and cons of this information may determine how certain officials remain in office while others do not Financial Determinants in Local Re Election Rates Emerging Research and Opportunities is a collection of innovative research that assesses whether accounting information and other factors have an impact on electoral results which in turn impact re election in local government While highlighting topics including political financing voting behavior and capital spending this book is ideally designed for political analysts politicians government officials researchers policymakers public policy managers financial analysts academicians and students seeking current research on financial information and other factors having an impact on electoral results

Evaluation Jan-Eric Furubo,2018-02-06 Evaluation has come of age Today most social and political observers would have difficulty imagining a society where evaluation is not a fixture of daily life from individual programs to local authorities to parliamentary committees While university researchers grant makers and public servants may think there are too many types of evaluation rankings and reviews evaluation is nonetheless viewed positively by the public It is perceived as a tool for improvement and evaluators are seen as dedicated to using their knowledge for the benefit of society The book examines the degree to which evaluators seek power for their own interests This perspective is based on a simple assumption If you are in possession of an asset that can give you power why not use it for your own interests Can we really trust evaluation to be a force for the good To what degree can we talk about self interest in evaluation and is this self interest something that contradicts other interests such as the benefit of society Such questions and others are addressed in this brilliant innovative international collection of pioneering contributions
