Perinatal Nursing Reproductive Health:

Perinatal Nursing: Reproductive health Glenda Fregia Butnarescu, Delight Mocas Tillotson, Patricia Padulo Villarreal, 1978 *Perinatal Nursing* Glenda Fregia Butnarescu, **Perinatal Nursing** Kathleen Rice Simpson, Patricia A. Creehan, 2008 Co published with the Association of Women's Health Obstetric and Neonatal Nurses AWHONN this book is a comprehensive clinical resource for practicing perinatal nurses and an excellent staff educator's guide and textbook. It provides commonly accepted guidelines for practice and evidence-based care and includes algorithms to support decision making. Numerous photographs complement the text and summary boxes highlight key points. Appendices provide patient care examples and practice guidelines. This edition has been extensively revised and updated. New features include more than 650 end of chapter review questions and answers and selected AWHONN protocols [AWHONN's Perinatal Nursing](#) Kathleen R. Simpson, 2013-04-01 A comprehensive resource for practicing perinatal nurses. Provides commonly accepted guidelines for practice as well as evidence-based care. Extremely useful as a clinical resource as well as staff educator's guide and textbook. Co-publishing with AWHONN provides additional credibility to this book **A Guide to Providing LGBTQ+ Inclusive Reproductive Health Care** Mari Greenfield, Kate Luxion, El Molloy, Alice-Amanda Hinton, 2025-03-11 This evidence-based guide brings together a wide range of information and practical tools for midwives, obstetricians, nurses, health visitors, and birthworkers, empowering them to provide safe and compassionate care throughout the reproductive journeys of lesbian, gay, bisexual, transgender, and queer LGBTQ people. This book may also be helpful to LGBTQ people in their own reproductive journeys. Throughout history, in cultures around the world, LGBTQ people have become pregnant, sought abortion care, miscarried, experienced infertility, given birth, and made decisions about infant feeding. Their reproductive journeys are increasingly visible, reflecting the changing social and legal recognition of sexual and gender minority people as parents. LGBTQ people require support during these significant life events, which is appropriate, expert, and meets their needs. However, healthcare professionals and birthworkers may not always be confident in working with these clients and may lack understanding of LGBTQ clients' experiences. There is also often insufficient attention paid to differences in the LGBTQ non-gestational parents' experiences. Taking an interdisciplinary approach, this book brings together up-to-date research findings from a range of fields, including medicine, psychology, sociology, law, and public health, to provide a knowledge base and tools to support clients at different stages of pregnancy and parenthood. The book follows the reproductive journey, moving from pre-conception and fertility research through pregnancy and birth to postnatal physical and mental healthcare. It also addresses termination care and perinatal loss. The chapters contain vignettes to personalise the issues discussed, highlights key practice recommendations, and suggestions for further reading. This is an essential guide for student midwives and medical students, as well as health visitors, midwives, and obstetricians in practice.
