be an intended mother the term for the mother to be if and when a baby is born And all of the women ultimately end up having a child or more through surrogacy When I first started researching surrogacy I was fortunate to find several Online support groups As I gave and received support to so many other women I became fascinated with the extent to which people would go to simply have a baby I realized that their stories our stories needed to be heard thus the idea for this book was born For the millions of women who have been touched by infertility in some way or know someone who has Surrogacy Was the Way will open their eyes to amazing possibilities It will show them that they do have options and with persistence and faith they can achieve their dreams of motherhood after all

some help After I moved to Los Angeles and attended UCLA though I had dreams of being a writer I knew that I was going to work in restaurants These days as you watch television it might seem that working in the food business looks glamorous but I can assure you that it is not It is a living but not what you might think I like my career as a food manager but it is not for everyone Writing is not always fun when you get right down to it and has the added benefit of not being a reliable way to pay the bills My line of work exposes me to many young adults who are attending college As a person who now is old enough to be their parent I am in an advice giving position I like to say two things about my career when I am asked First I say unfortunately I chose the right career for me and do not work in restaurants if you can It is a miracle that I have been able to stay married and to carry on a somewhat normal life with all of the odd hours I need to work Gone are the days of having a reliable and well paying job I am lucky and grateful to work at UCLA UCLA is stable that is for sure I graduated UCLA almost twenty years ago I began working as a manager while I was finishing my undergraduate degree in English literature After I worked in restaurant jobs for a few years my wife and I wanted to have children We experienced trouble with conceiving a child This was not a delightful situation but if there was a time that I could say that I had to grow up that was the time Meanwhile my father passed away and then my father in law passed away My wife and I sought out different medical treatments to have children that were not successful The one thing that my wife and I always had was a strong bond My wife is very tenacious She is a wonderful example for me We then finally learned how to adopt a child There is a process that we went through within the County of Los Angeles This book is the story in part at least from my point of view of our adoption of our son It was easy and it was not easy If there is one thing you could take away from this book it is that if we could do it so could you
