## **Persian Gulf Images Of A Conflict:**

**Persian Gulf**, 1991      **Conflicting Images** Stuart Allan, Tom Allbeson, 2024-05-31 In contrast with historical examinations centring the evolving role of the war correspondent *Conflicting Images* focuses on the contribution of photographers and photojournalists providing an evaluative appraisal of war photography in the news and its development from the nineteenth century to the twenty first century Stuart Allan and Tom Allbeson critically explore diverse genres of war photography across a broad historical sweep encompassing events from the Crimean War 1853-56 and the Civil War in the United States 1861-65 up to and including conflicts unfolding in Syria and Ukraine This book reflects on the relevance of different types of warfare to visual reporting from colonial conquest via trench warfare and aerial bombardment to the ideological dimensions of the Cold War and embedding and winning hearts and minds during the War on Terror and its aftermath In pinpointing illustrative examples the authors examine changing dynamics of production dissemination and public engagement Readers will come to understand how current efforts to rethink the future of war photography in a digital age can benefit from a close and careful consideration of war photography's origins early development and gradual uneven transformation over the years *Conflicting Images* aims to invigorate ongoing enquiries and inspire new alternative trajectories for future research and practice This book is recommended reading for researchers and advanced students of visual journalism and conflict reporting      **Drones and the Annihilation-Image in Contemporary Warfare** Gabriel

F. Caetano, 2024-10-26 This book analyses the entanglement between Washington and Hollywood to shed light on the violence inherent in the image as a semiotic material agent in contemporary warfare In the 21st century the weaponized military drone an image centered machine has spearheaded the geopolitical curatorship of the USA in the context of the war on terror Drone violence shares the same characteristics as cinema image and movement However a drone's image is not purely a reflection of the nature of war it is more than representational it is performative Building upon the concept of annihilation image this book argues that the image wields a destructive agency as it transitions from reflection to diffraction Rather than mirroring reality the annihilation image creates a brutal pattern of difference in the world It is a destructive ontology in which seeing and annihilating are in a state of superposition Therefore everything that is framed is potentially dead That is to say by framing bodies and objects in the terrain a state of superpositional violence is created in which one is alive but virtually dead      **Monumental Conflicts** Derek R. Mallett, 2017-11-13 *Monumental Conflicts* examines 20th century wars

from the First World War to the First Gulf War each chapter analyzing how public memory has evolved over time The chapters raise fascinating questions about war and memory Why are wars remembered as they are What factors drive changes in public perception What implications arise from remembering and commemorating a war or particular aspects of a war What does public memory of a war say about us as a society The volume is divided into three sections focusing on political evolution negotiated memories of war and national pride and covers international wars from Afghanistan to Vietnam

and German deserter monuments to Vietnamese war tourism

**The Spitting Image** Jerry Lembcke, 2000-05-01 How the startling image of an anti war protester spitting on a uniformed veteran misrepresented the narrative of Vietnam War political debate One of the most resilient images of the Vietnam era is that of the anti war protester often a woman spitting on the uniformed veteran just off the plane The lingering potency of this icon was evident during the Gulf War when war supporters invoked it to discredit their opposition In this startling book Jerry Lembcke demonstrates that not a single incident of this sort has been convincingly documented Rather the anti war Left saw in veterans a natural ally and the relationship between anti war forces and most veterans was defined by mutual support Indeed one soldier wrote angrily to Vice President Spiro Agnew that the only Americans who seemed concerned about the soldier s welfare were the anti war activists While the veterans were sometimes made to feel uncomfortable about their service this sense of unease was Lembcke argues more often rooted in the political practices of the Right Tracing a range of conflicts in the twentieth century the book illustrates how regimes engaged in unpopular conflicts often vilify their domestic opponents for stabbing the boys in the back Concluding with an account of the powerful role played by Hollywood in cementing the myth of the betrayed veteran through such films as *Coming Home* *Taxi Driver* and *Rambo* Jerry Lembcke s book stands as one of the

most important original and controversial works of cultural history in recent years Ethics and Desire in the Wake of Postmodernism Graham Matthews, 2012-04-26 What is the significance of writing in the wake of postmodernism The previous decade has seen a growing interest in criticism of postmodern ethics and aesthetics from theorists and writers This book begins to answer what art form or critical methodology might take its place Exploring the work of six contemporary novelists Bret Easton Ellis J G Ballard Will Self Michel Houellebecq Tama Janowitz and Chuck Palahniuk Ethics and Desire in the Wake of Postmodernism delivers a series of interventions into six key areas of contemporary debate fear nihilism revolution ethics enjoyment and feminism The book goes on to develop an innovative critical methodology which reinvigorates the ability of art and literature to engage in ideological critique Rather than valorising separatism plurality or indeterminacy this approach delivers a critical framework which enacts a radical de centering of the fundamental coordinates of contemporary society

*Routledge Handbook of Research Methods in Military Studies* Joseph Soeters, Patricia M. Shields, Sebastiaan Rietjens, 2014-06-27 This volume offers an overview of the methodologies of research in the field of military studies. As an institution relying on individuals and resources provided by society, the military has been studied by scholars from a wide range of disciplines: political science, sociology, history, psychology, anthropology, economics, and administrative studies. The methodological approaches in these disciplines vary from computational modelling of conflicts and surveys of military performance to the qualitative study of military stories from the battlefield and veterans' experiences. Rapidly developing technological facilities, more powerful hardware, more sophisticated software, digitalization of documents and pictures render the methodologies in use more dynamic than ever. The *Routledge Handbook of Research Methods in Military Studies* offers a comprehensive and dynamic overview of these developments as they emerge in the many approaches to military studies. The chapters in this Handbook are divided over four parts: starting research, qualitative methods, quantitative methods, and finalizing a study, and every chapter starts with the description of a well-published study illustrating the methodological issues that will be dealt with in that particular chapter. Hence, this Handbook not only provides methodological know-how but also offers a useful overview of military studies from a variety of research perspectives. This Handbook will be of much interest to students of military studies, security and war studies, civil-military relations, military sociology, political science, and research methods in general.
