*Person to Person* Irving Deer,1973      **The Modern Satiric Grotesque and Its Traditions** John R. Clark,2014-07-15  
Thomas Mann predicted that no manner or mode in literature would be so typical or so pervasive in the twentieth century as the grotesque Assuredly he was correct The subjects and methods of our comic literature and much of our other literature are regularly disturbing and often repulsive no laughing matter In this ambitious study John R Clark seeks to elucidate the major tactics and topics deployed in modern literary dark humor In Part I he explores the satiric strategies of authors of the grotesque strategies that undercut conventional usage and form the de basement of heroes the denigration of language and style the disruption of normative narrative technique and even the debunking of authors themselves Part II surveys major recurrent themes of grotesquerie tedium scatology cannibalism dystopia and Armageddon or the end of the world Clearly the literature of the grotesque is obtrusive and ugly its effect morbid and disquieting and deliberately meant to be so Grotesque literature may be unpleasant but it is patently insightful Indeed as Clark shows all of the strategies and topics employed by this literature stem from age old and spirited traditions Critics have complained about this grim satiric literature asserting that it is dank cheerless unsavory and negative But such an interpretation is far too simplistic On the contrary as Clark demonstrates such grotesque writing in its power and its prevalence in the past and present is in fact conventional controlled imaginative and vigorous no mean achievements for any body of art      Encyclopedia of Rhetoric and Composition Theresa Enos,2013-10-08 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company      *Catalog of Copyright Entries. cultural change using mainly speech in natural situations as the empirical base since talking is one form of doing The historical and social background is also described Madrilenian conversations were full of examples from all walks of life and personal situations The historical moment was one of change from an authoritarian society to a more democratic one These larger circumstances were often symbolized in terms of gender issues A common idea in Madrilenian discussions was that women should be or become persons This use of the concept person has little to do with individualism or psychology It was rather an everyday way of expressing opposition to essentialized and hierarchical categorizations The phrase meant that a person is an active human being who refuses to be categorized by others whereas a woman must look and behave so that her gender is clearly contrasted to that of a man And this it was thought places women at a disadvantage But there were also those who thought that a woman can only be a person if she is a woman first

Revolutionary Changes in Understanding Man and Society Johann Götschl, 2012-12-06 JOHANN GOTSCHL Over the last decades social philosophers economists sociologists utility and game theorists biologists mathematicians moral philosophers and philosophers have created totally new concepts and methods of understanding the function and role of humans in their modern societies The years between 1953 and 1990 brought drastic changes in the scientific foundations and dynamic of today's society A burst of entirely new revolutionary ideas similar to those which heralded the beginning of the twentieth century in physics dominates the picture This book also discusses the ongoing refutation of old concepts in the social sciences Some of them are the traditional concepts of rationality for example based on maximization of interests the linearity of axiomatic methods methodological individualism and the concept of a static society Today the revolutionary change from a static view of our society to an evolutionary one reverberates through all social sciences and will dominate the twenty first century In an uncertain and risky world where cooperation and teamwork is getting more and more important one cannot any longer call the maximization of one's own expectations of utility or interests rational

references to specific books of Scripture is integral or foundational to Paul's epistolary argument. If the problem in Philippi is the disinclination to accept suffering and death as intrinsic to gospel citizenship, then the muted allusions lead to a single central theme: God's approval of suffering and death for the sake of Christ. McAuley argues this theme is the crucial intertext that unifies and gives significance to the whole letter. Previous scholarly efforts to discover congruence between the contexts of Philippians and the Old Testament have rested on a heuristic approach focused on surface-level themes and facticities recorded in Paul's text, leading to mixed results. In this investigation, McAuley sets forth a new theoretical and exegetical framework that draws on insights from theories of intertextuality, allusion, and rhetorical situation to offer a fresh interpretation of Philippians.

### **Remapping the Rhetorical Situation in Networked Culture** Ramesh

Pokharel, 2021-06-02 With the advent of new media and technology, the notion of the rhetorical situation has changed, and there is now the exigence of a new theory of the rhetorical situation that better incorporates such new notions. By bringing together critical theory of technology and theory of critical geography along with rhetoric and language theory, this book proposes a new theory on the rhetorical situation that has more explanatory power and accounts for frames, critiques, and analyses of the fundamental assumptions and beliefs on the rhetorical situation. This theory conceives the constituents of the rhetorical situations as indiscrete and non-linear entities. The book offers an innovative way to study the rhetorical situation in a new light that will broaden the research scope of rhetoric.

### **Vision, Rhetoric, and Social Action in the**

**Composition Classroom** Kristie S. Fleckenstein, 2009-11-16 In this innovative volume, Kristie S. Fleckenstein explores how the intersection of vision rhetoric and writing pedagogy in the classroom can help students become compassionate citizens who participate in the world as they become more critically aware of the world. Fleckenstein argues that all social action behavior designed to increase human dignity, value, and quality of life depends on a person's repertoire of visual and rhetorical habits. To develop this repertoire in students, the author advocates the incorporation of visual habits or ways of seeing into a language-based pedagogical approach in the writing classroom. According to Fleckenstein, interweaving the visual and rhetorical in composition pedagogy enables students to more readily perceive the need for change while arming them with the abilities and desire to enact it. The author addresses social action from the perspective of three visual habits: spectacle, which fosters disengagement; animation, or fusing body with meaning; and antinomy, which invites the invention of new realities. Fleckenstein then examines the ways in which particular visual habits interact with rhetorical habits and with classroom methods, resulting in the emergence of various forms of social action. To enhance the understanding of the concepts, she discusses the author's representation of the intertwining relationships of vision rhetoric and writing pedagogy graphically as what she calls symbiotic knots. In tracing the modes of social action privileged by a visual habit and a teacher's pedagogical choices, Fleckenstein attends particularly to the experiences of students who have been traditionally barred from participation in the public sphere because of gender, race, or class. The book culminates in a call for visually and rhetorically

robust writing pedagogies In Vision Rhetoric and Social Action in the Composition Classroom Fleckenstein combines classic methods of rhetorical teaching with fresh perspectives to provide a unique guide for initiating important improvements in teaching social action The result is a remarkable volume that empowers teachers to best inspire students to take part in their world at that most crucial moment when they are discovering it      Understanding Communication Research Methods Stephen M.
