*Religion in Personality Theory* Frederick Walborn, 2013-12-03 Religion in Personality Theory makes clear the link between theory and research and personality and religion Presently most personality texts have a limited discussion of religion and reference few theorists other than Freud and Maslow in relation to the subject This book reviews the theory and the empirical literature on the writings of 14 theorists Every chapter concludes with a summation of the current research on the theorist's proposals

Ralph W Hood Jr Professor of Psychology University of Tennessee at Chattanooga In this interesting and accessible book Frederick Walborn thoughtfully probes the place of religion and spirituality in the writings of a broad range of classical psychological thinkers and offers an insightful critique of current empirical research on the complex relation of religion and spirituality to individual well being
