Gregg,2005-07-21 For over a decade the Middle East has monopolized news headlines in the West Journalists and commentators regularly speculate that the region s turmoil may stem from the psychological momentum of its cultural traditions or of a tribal or fatalistic mentality Yet few studies of the region s cultural psychology have provided a critical synthesis of psychological research on Middle Eastern societies Drawing on autobiographies literary works ethnographic accounts and life history interviews The Middle East A Cultural Psychology offers the first comprehensive summary of psychological writings on the region reviewing works by psychologists anthropologists and sociologists that have been written in English Arabic and French Rejecting stereotypical descriptions of the Arab mind or Muslim mentality Gary Gregg adopts a life span development framework examining influences on development in infancy early childhood late childhood and adolescence as well as on identity formation in early and mature adulthood He views patterns of development in the context of recent work in cultural psychology and compares Middle Eastern patterns less with Western middle class norms than with those described for the region s neighbors Hindu India sub Saharan Africa and the Mediterranean shore of Europe The research presented in this volume overwhelmingly suggests that the region s strife stems much less from a stubborn adherence to tradition and resistance to modernity than from widespread frustration with broken promises of modernization with the slow and halting pace of economic progress and democratization A sophisticated account of the Middle East s cultural psychology The Middle East provides students researchers policy makers and all those interested in the culture and psychology of the region with invaluable insight into the lives families and social relationships of Middle Easterners as they struggle to reconcile the lure of Westernized life styles with traditional values   *The Lonely Mirror* Sandra Kemp,Paola Bono,2025-04-01 Contributing to a lively dialogue with Anglo American and French theorists The Lonely Mirror originally
