Personal Anthology 1st Edition:

Personal Grief Rituals Paul Martin, 2022-10-21 *Personal Grief Rituals* presents a new model for how bereaved individuals can create unique expressions of mourning that are tailored to their psychological needs and grounded in memories and emotions specific to the relationship they lost. This book examines cultures across the world and throughout history to shed light on how humanity has always turned to grief rituals and how custom can stifle one's pursuit of healthy and meaningful mourning. Contemporary psychological research, most notably attachment theory, provides an in-depth understanding of how each individual's subjective experience of loss varies and why complicated bereavement may emerge. Richly detailed psychotherapy case studies exemplify innovative strategies for designing personal grief rituals. Where one person may visit an old haunt to express sorrow, another might use symbols to strengthen their connection to the deceased, and still another could cast aside vestiges of the past. *Personal Grief Rituals* is an excellent resource for professionals, students studying the psychology of loss, or anyone hoping to carve a new path through their own grief and mourning.

Between Two Fires Justin Quinn, 2015-09-10 *Between Two Fires* is about the transnational movement of poetry during the Cold War. Beginning in the 1950s, it examines transnational engagements across the Iron Curtain, reassessing US poetry

through a consideration of overlooked radical poets of the mid century and then asking what such transactions tell us about the way that anglophone culture absorbed new models during this period The Cold War synchronized culture across the globe leading to similar themes forms and critical maneuvers Poetry a discourse routinely figured as distant from political concerns was profoundly affected by the ideological pressures of the period But beyond such mirroring there were many movements across the Iron Curtain despite the barriers of cultural and language difference state security surveillance spies traitors and translators Justin Quinn shows how such factors are integral to transnational cultural movements during this period and have influenced even postwar anglophone poetry that is thematically distant from the Cold War For the purposes of the study Czech poetry its writers its translators its critics stands on the other side of the Iron Curtain as receptor and which has been overlooked part creator of the anglophone tradition in this period By stepping outside the frameworks by which anglophone poetry is usually considered we see figures such as Robert Lowell Derek Walcott Allen Ginsberg and Seamus Heaney in a new way with respect to the ideological mechanisms that were at work behind the promotion of the aesthetic as a category independent of political considerations foremost among these postcolonial theory
