No Sense of Place Joshua Meyrowitz, 1986-12-11 How have changes in media affected our everyday experience behavior and sense of identity Such questions have generated endless arguments and speculations but no thinker has addressed the issue with such force and originality as Joshua Meyrowitz in *No Sense of Place* Advancing a daring and sophisticated theory Meyrowitz shows how television and other electronic media have created new social situations that are no longer shaped by where we are or who is with us While other media experts have limited the debate to message content Meyrowitz focuses on the ways in which changes in media rearrange who knows what about whom and who knows what compared to whom making it impossible for us to behave with each other in traditional ways *No Sense of Place* explains how the electronic landscape has encouraged the development of More adultlike children and more childlike adults More career oriented women and more family oriented men and Leaders who try to act more like the person next door and real neighbors who want to have a greater say in local national and international affairs The dramatic changes fostered by electronic media notes Meyrowitz are neither entirely good nor entirely bad In some ways we are returning to older pre literate forms of social behavior becoming hunters and gatherers of an information age In other ways we are rushing forward into a new social world New media have helped to liberate many people from restrictive place defined roles but the resulting heightened expectations have also led to new social tensions and frustrations Once taken for granted behaviors are now subject to constant debate and negotiation The book richly explicates the quadruple pun in its title Changes in media transform how we sense information and how we make sense of our physical and social places in the world

Getting Personal Laura Gray-Rosendale, 2018-01-29 Addresses how digital forms of personal writing can be most effectively used by teachers students and other community members At a time when Twitter Facebook blogs Instagram and other social media dominate our interactions with one another and with our world the teaching of writing also necessarily involves the employment of multimodal approaches visual literacies and online learning Given this new digital landscape how do we most effectively teach and create various forms of personal writing within our rhetoric and composition classes our creative writing classes and our community groups Contributors to *Getting Personal*

offer their thoughts about some of the positives and negatives of teaching and using personal writing within digital contexts. They also reveal intriguing teaching activities that they have designed to engage their students and other writers. In addition, they share some of the innovative responses they have received to these assignments. *Getting Personal* is about finding ways to teach and use personal writing in the digital age that can truly empower writing teachers, writing students, as well as other community members. *Getting Personal* offers an engaging, comprehensive view of how and why instructors in both creative and academic writing can integrate contemporary writing and communication practices into their classrooms, assignments, and curricula. Jill Talbot, editor of *Metawritings: Toward a Theory of Nonfiction*, I am right now rethinking some of my assumptions about what it means to do and to teach personal writing, especially in digital environments. I'm also taken with the fact that while the chapters are clearly academic, they are also personal, and while several of them explicitly call the false binary between the personal and the academic into question, my sense is that they themselves do so implicitly as well. Barry M. Maid, coauthor of *The McGraw-Hill Guide to Writing for College Writing for Life*, Fourth Edition. *Spirituality in John's Gospel*, Gabriel-Mary Fiore, 2023-11-30. The Fourth Gospel has been known as the spiritual gospel since the second century, but only recently have biblical scholars attempted to express the unique spirituality found in that sacred text. Surprisingly, no consensus has emerged even after a century of research. Thus, while John's Gospel is widely admired as a vibrant source of Christian piety, the distinct features of its spirituality remain unclear. Fr. Fiore addresses this problem from the fresh perspective of spiritual theology. Capitalizing on a century of Johannine biblical scholarship, he uses the interdisciplinary methods of spiritual theology to bring new data to the study of the Gospel and solutions to many lingering questions: How did ancient readers understand what scholars now refer to as the Gospel's spirituality? How does that ecclesial reading compare to the analysis of modern critical exegesis? What makes Johannine spirituality special among other forms of Christian piety? How does the question of the Gospel's authorship impact our understanding of its spirituality? Does the Gospel contain what we now call mysticism? In what ways is John's spirituality still relevant for Christians today? Students of Christian spirituality and Johannine exegesis alike will find here stimulating historical and theological analysis of the Gospel's spirituality.

Children's Self-determination in the Context of Early Childhood Education and Services, Federico Farini, Angela Scollan, 2019-06-26. This book investigates the position of young children's self-determination within a range of social contexts such as education, social care, mass media, health, politics, law, and the family. It brings to the fore the voices of the children in the present with their interests, agendas, and rights. Based on original primary research, the chapters tackle hegemonic discourses on children's self-determination as well as current policies and practices. They address a broad range of topics from the planning of role play to national policies, from the use of digital technologies for pedagogy to children's health and well-being, and from democratic practices in the classroom to the preservation of traditional family values. The book presents case studies to unravel how childhood and young children's self-determination are constructed at the

intersection with intergenerational relationships Coming from different disciplines and using a diverse range of methodological traditions the contributions in the volume eventually converge to generate a rich complex and multi layered analysis of contemporary cultures of childhood and young children s rights
