Personal Destinies A Philosophy Of Ethical Individualism:

Personal Destinies David L. Norton, 1976 What is the meaning of life Modern professional philosophy has largely renounced the attempt to answer this question and has restricted itself to the pursuit of more esoteric truths Not so David Norton Following in the footsteps of Plato and Aristotle Kierkegaard and Nietzsche Jung and Maslow he sets forth a distinctive vision of the individual's search for his place in the scheme of things Norton's theory of individualism is rooted in the eudaimonistic ethics of the Greeks who viewed each person as innately possessing a unique potential it was his destiny to fulfill Very much the same idea resurfaced in modern times with the British idealists and Continental existentialists The author reviews these antecedents showing how his theory differs from those of his predecessors After a fascinating chapter on The Stages of Life Norton shows how the mature consciousness of one's destiny leads to direct intimate knowledge of other persons and how this in turn provides the basis for social morality The conception of justice in which this theory culminates rooted as it is in essential human differences provides a challenging alternative to the much discussed theories of Rawls and Nozick

Morality and Social Justice James P. Sterba, 1995 These original essays by seven leading contemporary political philosophers spanning the political spectrum explore the possibility of achieving agreement in political theory Each philosopher defends in a principal essay his or her own view of social justice and also comments on two or more of the other essays The result is a lively exchange that leaves the reader to judge to what degree the contributors achieve agreement or reconciliation

Value and Justification Gerald F. Gaus, 1990-07-27 Rational moral action can neither be seen as a way of maximising personal values nor derived from reason independent of them is this study's assertion It contends that commitment to the moral point of view is presupposed by value systems Rational moral action can neither be seen as a way of maximising personal values nor derived from reason independent of them is this study's assertion It contends that commitment to the moral point of view is presupposed by value systems

Learning to Flourish Daniel R. DeNicola, 2012-08-02 What is a liberal arts education How does it differ from other forms of learning What are we to make of the debates that surround it What are its place its value and its prospects in the contemporary world These are questions that trouble students and their parents educators critics and policy makers and philosophers of education among others Learning to Flourish offers a lucid penetrating philosophical exploration of liberal learning a still evolving tradition of theory and practice that has dominated and sustained intellectual life and learning in much of the globe for two millennia This study will be of interest to anyone seeking to understand liberal arts education as well as to educators and philosophers of education Daniel R DeNicola weighs the views of both advocates and critics of the liberal arts and interprets liberal education as a vital tradition aimed supremely at understanding and living a flourishing life He elaborates the tradition as expressed in five competing but complementary paradigms that transcend theories of curriculum and pedagogy and are manifested in particular social contexts He examines the transformative power of liberal education and its relation to such

values as freedom autonomy and democracy reflecting on the importance of intrinsic value and moral understanding Finally DeNicola considers age old obstacles and current threats to liberal education ultimately asserting its value for and urgent need in a global pluralistic technologically advanced society The result is a bold yet nuanced theory alert to both historical and contemporary discussions and a significant contribution to the discourse on liberal education The Nineteenth Century C. L. Ten,2003 In the 19th century intense intellectual activity in the sciences mathematics psychology eventually led to the devolution of independent disciplines Don Browning and Psychology Terry D. Cooper,2011 Psychologist of religion ethicist theological psychologist cultural critic philosophical anthropologist marriage and family expert practical theologian and religion and law scholar these are some of the many labels one could use to describe the history of Don Browning s work Yet in spite of the multi faceted nature of Browning s work abiding themes and central concerns consistently emerge Perhaps the title which best describes Browning s noteworthy contributions is that of horizon analyst Browning is always at his best when he is helping us see the world of implicit assumptions and normative images which govern various perspectives He has an eye for metaphors which as his mentor Ricoeur famously said give rise to thought Perhaps Browning s greatest academic asset has been his ability to explore the philosophical underpinnings of various psychological theories This book focuses on Browning s rich investigative journey into Freud s dual instinct model the relationship between human biology and culture evolutionary psychology William James instinctual pluralism Erik Erickson s notion of generativity the ethical implications of self actualization in the humanistic psychologies of Rogers and Maslow evil and self realization in Carl Jung the place of self injury in the thought of Heinz Kohut as well as other issues Beginning with a discussion of Browning s critical hermeneutical approach heavily influenced by Gadamer Ricoeur and David Tracy this book then systematically explores Browning s critical assessments of the most significant contemporary psychological movements

Religion, Neuroscience and the Self Patrick McNamara,2019-12-23 The purpose of this book is to use neuroscience discoveries concerning religious experiences the Self and personhood to deepen enhance and interrogate the theological and philosophical set of ideas known as Personalism McNamara proposes a new eschatological form of personalism that is consistent with current neuroscience models of relevant brain functions concerning the self and personhood and that can meet the catastrophic challenges of the 21st century Eschatological Personalism rooted in the philosophical tradition of Boston Personalism takes as its starting point the personalist claim that the significance of a self and personality is not fully revealed until it has reached its endpoint but theologically that end point can only occur within the eschatological realm That realm is explored in the book along with implications for personalist theory and ethics Topics covered include the agent intellect dreams and the imagination future orientation and eschatology phenomenology of Time social ethics Love the challenge of AI privacy and solitude and the individual ethic of autarchy This book is an innovative combination of the neuroscientific and theological insights provided by a Personalist viewpoint As such it will be of great interest to scholars of

Reading Rasmussen and Den Uyl Aeon J. Skoble, 2008-01-01 Douglas B Rasmussen and Douglas J Den Uyl's recent book *Norms of Liberty: A Perfectionist Basis for Non-Perfectionist Politics* Penn State University Press 2005 is being received in philosophy and political theory as an important and original defense of liberalism The book offers a neo-Aristotelian ethic of human flourishing as a basis for a liberal conception of human rights One of the authors' central contentions is that a key problem for any liberal political philosophy is how to establish a political legal order which in principle does not require that any one person or group's well-being be given structured preference over that of any other This companion volume an interpretive and critical reader features essays from both philosophers and political scientists as well as an omnibus reply by Rasmussen and Den Uyl *Norms of Liberty* makes challenging arguments about key issues which makes a multi-disciplinary reader a valuable asset for both students and scholars *Reading Rasmussen and Den Uyl* is designed both to explicate the book's arguments and to explore possible objections

Liberty and Equality Tibor R. Machan, 2013-09-01 This book takes an unflinching look at the difficult often emotional issues that arise when egalitarianism collides with individual liberties ultimately showing why the kind of egalitarianism preached by socialists and other sentimentalists is not an option in a free society

Nomocratic Pluralism Kenneth B. McIntyre, 2020-09-21 This book is a contribution to the ongoing conversation about value pluralism and its relation to political life Its uniqueness lies in its insistence that the acceptance of value pluralism involves placing certain limitations on what is an acceptable form of government and what functions governments ought to be legitimately performing In a new approach coined nomocratic pluralism this volume argues that liberty under the rule of law which is not merely liberty where the law is silent is a key concept of liberty and cannot be subsumed by the other primary implications of the acceptance of value pluralism that political communities must reject positive liberty as a political value and place a high but not absolute priority on negative liberty as a political value The concept of liberty under the rule of law is particularly suited to accommodate a great variety of individual and group conceptions of value and the moral good and thus along with negative liberty should be a primary value for those who accept value pluralism

Right Actions and Good Persons Marjaana Kopperi, 2018-08-20 First published in 1999 this work tests the ancient against the modern in discussing whether modern approaches to ethics remain sufficiently able to provide a serious and justifiable account of morality Marjaana Kopperi explores ancient medieval and enlightenment philosophy to compare their notion of moral agents and the good life with the more action-based notions of modern philosophy Kopperi aims to examine how the promoters of agent-based ethical views deal with questions of what constitutes a good life and whether it can or should be quantified or justified

The Modern Liberal Theory of Man Gerald F. Gaus, 2019-11-19 First published in 1983 The primary argument of this book is that there is a coherent tradition of liberal thinking that extends from L S Mill through liberals like T H Green Bernard Bosanquet L T Hobhouse and John Dewey to John Rawls The author places Rawls within a longstanding tradition of

liberal thinking while also arguing that Green and Hobhouse are not simply of historical interest but represent genuine and interesting attempts to develop a modern liberal theory. It is argued that modern liberal theory centres on a conception of human nature that modern liberals have sought to harmonise the pursuit of individuality with participation in social and communal life. Although the book focuses on six modern liberals the discussion proceeds topically rather than according to author thus highlighting similarities and disagreements and providing a comprehensive study of modern liberalism.

The Developmental Psychology of Personal Identity Massimo Marraffa, Cristina Meini, 2024-03-21 Massimo Marraffa and Cristina Meini reconnect the psychology of identity with its philosophical roots in this study. They trace the contemporary problem of the self to John Locke and William James foundational theories on personal identity. By integrating the philosophy of identity with empirical and neuropsychological research Marraffa and Meini provide an original synthesis of multidisciplinary conceptions of the self. *The Developmental Psychology of Personal Identity* builds on Chomsky inspired developmental psychology, Jean Piaget's constructivism, Lev Vygotskij's sociocultural perspective on development and John Bowlby's attachment theory. In this theoretical framework the book draws on the data of the psychological sciences to reconstruct the trajectory of the self as a Lockean person i.e. as morally responsible agent. The authors link the birth of self consciousness through the body and emotions to the construction of a narrative self. Their combination of philosophy and cognitive sciences makes an important contribution to multiple disciplines concerned with personal identity. It provokes new routes to understanding identity and self autobiographical memory and personality.

Enhancing Humanity N. Aloni, 2007-10-01 In Jean Paul Sartre's *Nausea* Roquentin feels bound to listen to the sentimental ramblings about humanism and humanity by the Self-Taught Man. Is it my fault muses Roquentin in all he tells me I recognize the lack of the genuine article. Is it my fault if as he speaks I see all the humanists I have known rise up I have known so many of them. And then he lists the radical humanist the so-called left humanist and Communist Humanist the Catholic humanist all claiming a passion for their fellow men. But there are others a swarm of others the humanist philosopher who bends over his brothers like a wise older brother with a sense of his responsibility the humanist who loves men as they are the humanist who loves men as they ought to be the one who wants to save them with their consent and the one who will save them in spite of themselves. Quite naturally the skeptical Roquentin ends by saying how they all hate each other as individuals not as men. Fully aware of the misuse and false comfort in the use of the term Professor Aloni proceeds to restore meaning to the word as well as appropriate its educational significance. There is a freshness in this book a restoration of a lost clarity a regaining of authentic commitment.

Philosophical Foundations for Moral Education and Character Development George F. McLean, Frederick Edward Ellrod, 1992

The Extraordinary in the Ordinary Donald A. Crosby, 2017-03-30 Miracles are usually regarded as an intrusion of a supernatural force upsetting the normal workings and laws of the universe but if one is attentive to the natural world one can instead find miracles beneath the surface of everyday existence. This outlook is part of

Donald A Crosby's religious naturalism which he terms Religion of Nature a belief system that posits the natural world to be the only world without any underlying or transcending supernatural being presence or power In *The Extraordinary in the Ordinary* Crosby explores seven types of everyday miracles such as time language and love to show that the miraculous and ordinary are not opposed to each other Rather it is when we acknowledge the sacred depths and dimensions of everyday existence that we recognize the miracles that constantly surround us
