drew a veil of secrecy over SMERSH's operations in 1946 but that did not stop him using it to terrify Red Army dissenters in Leningrad and Moscow or to abduct and execute suspected spooks often without cause across mainland Europe. Formed to mop up Nazi spy rings at the end of the Second World War, SMERSH gained its name from a combination of the Russian words for Death to Spies. Successive Communist governments suppressed traces of Stalin's political hit squad. Now Vadim Birstein lays bare the surgical brutality with which it exerted its influence as part of the paranoid regime both within the Soviet Union and in the wider world. SMERSH was the most mysterious and secret of organisations; this definitive and magisterial history finally reveals truths that lay buried for nearly fifty years. FBI Law Enforcement Bulletin, 1962

Yeoman 3 & 2 United States. Bureau of Naval Personnel, 1954 **The United States Army Air Arm, April 1861 to April 1917** Juliette A. Hennessy, 1958 This monograph recounts the development of aviation in the United States Army from April 1861 when the Army first became interested in balloons as a means of observation to April 1917 when America entered World War I. The origins and organization of the Army's air arm are told in detail with particular emphasis on early air force personnel plans and experiments. In the process the monograph traces early development of what today is The United States Air Force. Foreword **Spies Who Changed History** Nigel West, 2022-10-07 Spies have made an extraordinary impact on the history of the 20th Century but fourteen in particular can be said to have been demonstrably important. As one might expect few are household names and it is only with the benefit of recently declassified files that we can now fully appreciate the nature of their contribution. The criteria for selection have been the degree to which each can now be seen to have had a very definite influence on a specific course of events either directly by passing vital classified material or indirectly by organizing or managing a group of spies. Those selected were active in the First World War, the inter-war period, the Second World War, the Cold War and even the post-Cold War era. These include Walther Dew who formed a spy ring in German-occupied Belgium during the First World War. This train-watching network known as White Lady reported on German troop deployments and possible weaknesses in the German defences. Extending its operations into northern France, the ring provided 75 per cent of the information received by GHQ British Expeditionary Force. By the time of the Armistice in 1918 Dew's group had a staggering 1,300 members. Olga Gray, the 27-year-old daughter of a Daily Mail journalist, was employed as a secretary by the Communist Party of Great Britain. In 1931 she undertook a mission for MI5 to penetrate the organization and discover its secret channel of communication with Moscow. Gray learned that the Party's cipher was based on Treasure Island and this breakthrough enabled the Party's messages to be read by Whitehall cryptographers. Renato Levi, an Italian playboy, was the longest-serving British agent of the Second World War and is credited with creating the concept of strategic deception. While operating in Cairo as a double agent working for the Abwehr and the British, he was instrumental in misleading the Axis about Allied strength across the Middle East and helped Montgomery achieve his victory over Rommel's Afrika Korps at El Alamein. So successful was Levi in this and other deceptions he was employed to persuade the Germans

that the D Day landings in Normandy were a diversionary feint in anticipation of an invasion in the Pas de Calais These and other surprising stories are revealed in this fascinating insight into a secret world inhabited by mysterious and shadowy characters all of whom though larger than life really did exist Bureaucracy, Community and Influence in India William Gould, 2010-11-12 Offering a fresh approach to the issue of government and administrative corruption through everyday citizen interactions with the state this book explores changing discourses and practices of corruption in late colonial and early independent Uttar Pradesh India The author moves away from assumptions that the state can primarily be associated with the top levels of government and looks at citizens approaches to local level bureaucracies and police The central argument of the book is that deeply institutionalised corruption in India could only have come about through the exercise of particular long term customs of interaction between agencies of the state government servants and police and their interactions with local politicians Because the social hierarchies that condition such interactions are complicated by individual and family connections to state employment periods of traumatic state transformation lead to a reconfiguration in the meaning of corruption in the local state Based on principal primary sources and extensive field interviews this book will be of interest to academics working on political science and Indian and South Asian history **EU Civil Service Law** Oliver Mader, 2024-07-25 Since reading the book I have been enthusiastic and impressed by it It will undoubtedly be of great use to all staff employed by the EU institutions and agencies interested in knowing their rights and obligations in EU Civil Service Law as well as to interested practitioners for finding their way into this thrilling area of EU law Jan Inghelram Director Legal Adviser on Administrative Matters of the Court of Justice of the European Union from the Foreword to the book This practical commentary interprets EU Staff Regulations on the basis of a rich set of judgments handed down by the EU courts over more than 70 years complemented by insightful case studies on recent landmark decisions In addition to presenting key aspects of employment law applicable to officials and other agents of the EU institutions the book considers future legal developments Several important areas of Union law meet in the practice of civil service matters fundamental rights general principles of EU law social and labour law family and tax law and procedural administrative institutional and constitutional law Mader explores this intersection across chapters covering civil service law context its legal framework and interpretative principles it covers procedural and substantial EU civil service law and closes with a chapter on collective EU civil service law The result is an invaluable English language commentary by one of the field s leading figures written for all staff employed by EU institutions and similar bodies and for all organisations that apply and interpret EU civil service law as well as for colleagues working across EU law civil service and public sector law *Report* United States.
