Reason Romanticism And Revolution Volume Two:

Cosmopolitan Elites and the Making of Globality Leonie Wolters, 2024-01-11 As ideologies such as communism fascism and various nationalisms vied for global domination during the first half of the 20th century this book shows how a specific group of individuals a cosmopolitan elite became representatives of those ideologies the world over Centering on the Indian intellectual M N Roy *Cosmopolitan Elites and the Making of Globality* situates his life within various social circles that covered several ideological realms and continents An example of an individual who represented ideologies such as anticolonial nationalism communism and humanism Roy is identified as unusual but by no means singular in this capacity and shows how other elites were similarly able to represent ideologies that sought to make the world anew This book explores how Roy and his peers and competitors became a political elite as they cultivated a cosmopolitan reputation that meant they were taken seriously even when speaking of regions outside of their own By considering the social and performative practices that turned them into credible global cosmopolitans Wolters uncovers the exclusive basis on which the universal claims of world changing ideologies were made

Historicizing the Enlightenment, Volume 2 Michael McKeon, 2023-07-14 Enlightenment critics from Dryden through Johnson and Wordsworth conceived the modern view that art and especially literature entails a double reflection a reflection of the world and a reflection on the process by which that reflection is accomplished Instead neoclassicism and Augustanism have been falsely construed as involving a one dimensional imitation of classical texts and an unselfconscious representation of the world In fact these Enlightenment movements adopted an oblique perspective that registers the distance between past tradition and its present reenactment between representation and presence Two modern movements Romanticism and

modernism have appropriated as their own these innovations which derive from Enlightenment thought Both of these movements ground their error in a misreading of imitation as understood by Aristotle and his Enlightenment proponents Rightly understood neoclassical imitation constitutively aware of the difference between what it knows and how it knows it is an experimental inquiry that generates a range of prefixes counter mock anti neo that mark formal degrees of its epistemological detachment Romantic ideology has denied the role of the imagination in Enlightenment imitation imposing on the eighteenth century a dichotomous periodization duplication versus imagination the mirror versus the lamp Structuralist ideology has dichotomized narration and description form and content structure and history Poststructuralist ideology has propounded for the novel a contradictory novel tradition realism modernism postmodernism postcolonialism whose stages both constitute a sequence and collapse it each stage claiming the innovation of the stage that precedes it Published by Bucknell University Press Distributed worldwide by Rutgers University Press *Political Science Question Bank UGC NTA NET Assistant Professors* Mocktime Publication, 101-01-01 Chpater 1 Political Theory Concepts Part 1 Liberty Equality Justice and Rights in context of UGC NTA NET Exam Subject Political Science Chpater 2 Political Theory Concepts Part 2 Democracy Power and Citizenship in context of UGC NTA NET Exam Subject Political Science Chpater 3 Political Traditions Part 1 Liberalism Conservatism Socialism and Marxism in context of UGC NTA NET Exam Subject Political Science Chpater 4 Political Traditions Part 2 Feminism Ecologism Multiculturalism and Postmodernism in context of UGC NTA NET Exam Subject Political Science Chpater 5 Political Thought Ancient to Early Modern Confucius Plato Aristotle and Machiavelli in context of UGC NTA NET Exam Subject Political Science Chpater 6 Political Thought Social Contract and Enlightenment Hobbes Locke Rousseau and Hegel in context of UGC NTA NET Exam Subject Political Science Chpater 7 Political Thought 19th and 20th Century Mary Wollstonecraft John Stuart Mill Karl Marx and Gramsci in context of UGC NTA NET Exam Subject Political Science Chpater 8 Political Thought Contemporary Hannah Arendt Frantz Fanon Mao Zedong and John Rawls in context of UGC NTA NET Exam Subject Political Science Chpater 9 Indian Political Thought Ancient and Medieval Texts alongside Comparative Methods in context of UGC NTA NET Exam Subject Political Science Chpater 14 Colonialism Decolonization and Nationalism Covering forms of colonialism anti colonial struggles and decolonization and Nationalism European and non European in context of UGC NTA NET Exam Subject Political Science Chpater 15 State Theory in Comparative Analysis The debate over the nature of state in capitalist and socialist societies the post colonial state the welfare state and globalization and nations states in context of UGC NTA NET Exam Subject Political Science Chpater 16 Political Regimes in Comparative Analysis democratic Electoral Liberal Majoritarian and Participatory and non democratic regimes Patrimonialism Bureaucratic authoritarianism Military dictatorship Totalitarianism and fascist in context of UGC NTA NET Exam Subject Political Science Chpater 17 Constitutions and Constitutionalism in Comparative Politics forms of constitutions rule of law judicial independence and liberal constitutionalism emergency powers and crisis of constitutionalism

that slowing down and decommodifying the logic of the media can advance and renew debate culture in the age of digital authoritarianism fake news echo chambers and filter bubbles Each chapter focuses on a particular dimension of digital fascism or a critical theorist whose work helps us to illuminate how fascism and digital fascism work making this book an essential reading for both undergraduate and postgraduate students of media and communication studies sociology politics and political economy as well as anyone who wants to understand what digital fascism is and how it works The Radical Humanist ,2006 American Freethought David C. Hoffman,2025-06-17 This book traces the history of the freethought movement to discover the strategies that allowed it to endure and succeed in a fervently religious nation It argues that this movement was successful because it united people with a wide variety of religious outlooks including deists pantheists Unitarians Universalists spiritualists transcendentalists Humanists agnostics and atheists behind the idea that religion is freer and the state is more just when the government refrains from religious involvement Church History, Volume Two: From Pre-Reformation to the Present Day John D. Roy* M. N. Roy,2010-10-04 When humanism was first receiving widespread public attention in the West through such publications as The Humanist Manifesto in 1933 unbeknownst to most Westerners humanism was proceeding on a parallel track in India largely due to the efforts of philosopher and political activist M N Roy 1887 1954 Sadly it wasn't until the early fifties at the end of Roy's life that European humanists began to notice his work To rectify the unfortunate neglect in the West of one of India's premier

intellectuals philosopher Innaiah Narisetti has compiled this new collection of Roy's most significant works Roy conceived of humanism as a scientific integral and radically new worldview Among many interesting selections in this volume Roy's Principles of Radical Democracy 22 Theses is especially representative of his thinking Here he emphasized ethics and eschewed supernatural interpretations as antithetical to his scientifically oriented conception of new humanism He also underscored the importance of universal education to make average people scientifically literate and to teach them critical thinking Roy was not only a thinker but a doer as well He spent six years in an Indian prison during the 1930s for opposing the British rule of India For humanists philosophers political scientists and others M N Roy's unique and still very relevant view of humanism will have great appeal and broad application beyond its original Indian context Political Philosophy Of M.N. International Books in Print, 1995 Barbara Hopkinson, [Anonymus AC01401231], 1995 **Mahatma Gandhi** Dennis Dalton, 2012-02-21 Dennis Dalton's classic account of Gandhi's political and intellectual development focuses on the leader's two signal triumphs the civil disobedience movement or salt satyagraha of 1930 and the Calcutta fast of 1947 Dalton clearly demonstrates how Gandhi's lifelong career in national politics gave him the opportunity to develop and refine his ideals He then concludes with a comparison of Gandhi's methods and the strategies of Martin Luther King Jr and Malcolm X drawing a fascinating juxtaposition that enriches the biography of all three figures and asserts Gandhi's relevance to the study of race and political leadership in America Dalton situates Gandhi within the clash of civilizations debate identifying the implications of his work on continuing nonviolent protests He also extensively reviews Gandhian studies and adds a detailed chronology of

events in Gandhi's life *Modern Indian Political Thought* Bidyut Chakrabarty, Rajendra K. Pandey, 2023-09-29 This book is an unconventional articulation of the political thinking in India in a refreshingly creative manner in more than one way Empirically the book becomes innovative by providing an analytically more grasping contextual interpretation of Indian political thought that evolved during the nationalist struggle against colonialism Insightfully it attempts to unearth the hitherto unexplored yet vital subaltern strands of political thinking in India as manifested through the mode of numerous significant socio economic movements operating side by side and sometimes as part of the mainstream nationalist movement This book articulates the main currents of Indian political thought by locating the text and themes of the thinkers within the socio economic and politico cultural contexts in which such ideas were conceptualised and articulated The book also tries to analytically grasp the influences of the various British constitutional devices that appeared as the responses of the colonial government to redress the genuine socio economic grievances of the various sections of Indian society The book breaks new ground in not only articulating the main currents of Indian political thought in an analytically more sound approach of context driven discussion but also provokes new research in the field by charting a new course in grasping and articulating the political thought in India This volume will be useful to the students researchers and faculty working in the fields of political science political sociology political economy and post colonial contemporary Indian politics in particular It will also be an invaluable and interesting reading for those interested in South Asian studies **Political Legacy of Plato and Aristotle** R.K. Mishra, M.A, 2024-07-07 The political legacy of Plato and Aristotle is one of the greatest intellectual legacies left by an ancient civilisation for posterity The problems of politics and political science are incomprehensible without some Platonic and Aristotelian background Modern political philosophy is nothing but a commentary on the political ideas of Plato and Aristotle Without a Platonic and Aristotelian background even the first letter of politics cannot be understood For very little if at all has been said that is new after Plato and Aristotle in the history of political thought This book deals with the political ideas of Plato and Aristotle from a near and most modern angle The chapters have been selected methodically so that a comparative study of the two philosophers becomes easy for students The occasional comparison of the philosophers ideas with that of Marx Laski Nehru and with ancient Indian concepts is certainly interesting **Thinkers of the Indian Renaissance** S A Abbasi, 1997 **Marxist Humanism and Communication Theory** Christian Fuchs, 2021-03-16 This book outlines and contributes to the foundations of Marxist humanist communication theory It analyses the role of communication in capitalist society Engaging with the works of critical thinkers such as Erich Fromm E P Thompson Raymond Williams Henri Lefebvre Georg Lukacs Lucien Goldmann G nther Anders M N Roy Angela Davis C L R James Rosa Luxemburg Eve Mitchell and Cedric J Robinson the book provides readings of works that inform our understanding of how to critically theorise communication in society The topics covered include the relationship of capitalism racism and patriarchy communication and alienation the base superstructure problem the question of how one should best define communication

the political economy of communication ideology critique the connection of communication and struggles for alternatives

Written for a broad audience of students and scholars interested in contemporary critical theory this book will be useful for courses in media and communication studies cultural studies Internet research sociology philosophy political science and economics This is the first of five Communication and Society volumes each one outlining a particular aspect of the foundations of a critical theory of communication in society
