Right Of The Centre An Autobiography Of Cecil Parkinson:

British Rail 1974-1997 Terence Richard Gourvish, Terry Gourvish, 2004-01-29 Based on privileged access to the British Railway Board's rich archives this book provides an authoritative account of the progress made by the British Railway System prior to its privatization. It offers a unique account of the last fifteen years of nationalized railways in Britain and it sheds light on the current problems of privatized railway systems. This volume is divided into four complete and concise sections for complete study: Railways Under Labour 1974-1979, The Thatcher Revolution, British Rail in the 1980s, On The Threshold of Privatization, Running the Railways 1990-1994, and Responding to Privatization 1981-1997. Author Terry Gourvish is considered Britain's leading railway historian.

The Falklands Conflict Twenty Years On Stephen Badsey, Mark Grove, Rob Havers, 2004-11-19 A fascinating new insight into the Falklands Conflict covering every aspect of its origins and the political and diplomatic response to the Argentinean action as well as illuminating accounts of the military action to retake the islands at every level of command. In June 2002, exactly twenty years after the cessation of hostilities between Britain and Argentina, many of the key participants came together at a major international conference. This conference, held at the Royal Military Academy Sandhurst and organized jointly by RMA Sandhurst and her sister institution Britannia Royal Naval College Dartmouth, aimed to re-examine the events of spring 1982 from the perspective that only twenty intervening years can bring. The Conference mixed those who had participated in the events of spring and early summer 1982: diplomats, politicians, civil servants, soldiers, sailors, and airmen, with historians, political scientists, and journalists. These accounts and interpretations of the conflict shed new light on one of the most interesting and controversial episodes in recent British history.

Reagan and Thatcher's Special Relationship Sally-Ann Treharne, 2015-06-03 Drawing on recently declassified documents and elite interviews with key protagonists that reveal candid recollections, Sally Ann Treharne highlights the pivotal moments in Reagan and Thatcher's shared history from a new vantage point.

Six Moments of Crisis Gill Bennett, 2013-02-14 This book examines six major British foreign policy challenges the country faced after World War Two.

The Persuaders S. John, 2002-05-22 The impact of political lobbyists remains highly controversial. No one has explored when they matter. This book tells readers when lobbyists count and analyses the relationship between lobbying, policy outcomes, and the impact of external factors to reveal the professional lobbyist's limited effect on policy. On most policy issues, lobbyists simply do not matter. But on rare occasions, lobbyists can make a difference, and this book explains when they matter and why.

The Official History of Privatisation Vol. I David Parker, 2009-01-29 This first volume of the Official History studies the background to privatisation and the privatisations of the first two Conservative Governments led by Margaret Thatcher from May 1979 to June 1987. First commissioned by the then Prime Minister Tony Blair as an authoritative history, this volume addresses a number of key questions: To what extent was privatisation a clear policy commitment within the Thatcher Governments of the 1980s, or did Government simply stumble on the idea? Why were

particular public corporations sold early in the 1980s and other sales delayed until well into the 1990s What were the privatisation objectives and how did they change over time if at all How was each privatisation planned and executed how were different City advisers appointed and remunerated what precise roles did they play How was each privatisation administered in what ways did the methods evolve and change and why How were sale prices determined Which government departments took the lead role what was the input of the Treasury and Bank of England and what was the relationship between Ministers and civil servants The study draws heavily from the official records of the British Government to which the author was given full access and from interviews with leading figures involved in each of the privatisations including ex Ministers civil servants business and City figures as well as academics that have studied the subject This new official history will be of much interest to students of British political history economics and business studies

Thatcher Graham Goodlad, 2015-12-14 Thatcher provides an accessible and scholarly introduction to the personality and career of Britain's first female political leader and the twentieth century's longest serving Prime Minister Providing a balanced narrative and assessment of one of the most significant figures of the post war era this new biography examines the reasons why Margaret Thatcher has been admired by many as an architect of national revival yet loathed by others as the author of widening social and geographical division The book begins by examining the making of Margaret Thatcher her education the beginning of her political career and her rise through the Conservative Party to her appointment as unexpected leader Moving on to her tenure as Prime Minister Graham Goodlad then examines her impact at home and abroad covering her controversial economic policies and hard line with the trade unions leadership through the Falklands conflict and during the last decade of the Cold War and influence on Britain's relationship with a more closely integrated Europe Finally the biography closes with a review of Thatcher's legacy before and after her death in April 2013 and considers how far she shaped the politics and society of the 1980s and those of our own time Thatcher is essential reading for all students of twentieth century history and politics

Thatcher's Trial Kwasi Kwarteng, 2015-11-03 In six months Margaret Thatcher reinvented her political party and redefined modern conservatism in one of the greatest feats of modern political leadership In 1981 less than two years after she had been elected as Britain's first woman prime minister Margaret Thatcher was deemed unpopular and out of touch Unemployment had risen to levels not seen since the 1930s and the state's finances were foundering Her chancellor of the exchequer delivered what became known as the no hope budget in March which marked the beginning of a period of an almost unprecedentedly broad range of political challenges hunger strikes and violent protests in Northern Ireland urban riots in London and Liverpool and visible discontent with Thatcher from within the Conservative Party And yet by September 14 when Thatcher sacked 4 mutinous grandees from her cabinet the prime minister had firmly reasserted her authority These extraordinary six months would come to define the Conservative Party's most successful and modern leader who reshaped the ideas and direction of conservatism around the world To her detractors she may have been a harsh uncaring

and dogmatic leader who made the country a more unequal materialistic and brutal place but to her supporters she was nothing less than a Conservative savior who prevented Britain from becoming an ungovernable socialist state The 1983 general election would prove a triumph Kwasi Kwarteng intimately captures this shopkeeper s daughter s unique leadership qualities from her pulpit style and New Testament imagery to her emphasis on personal moral responsibility that saw her through some of the most adverse conditions facing any world leader in modern peacetime **Ibss: Political Science:**
1992 British Library of Political and Economic Science,1993 The IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences **Saatchi & Saatchi: The Inside Story** Alison Fendley,2012-01-23
Follows the rise and fall of Iraqi born Jewish brothers from London Charles and Maurice Saatchi who created some of the most memorable ad campaigns of the 1970s and 1980s and then in 1994 were ousted from their firm by an American shareholder revolt
