Right And Wrong Of Compulsion By The State And Other Essays:

The Right and Wrong of Compulsion by the State, and Other Essays Auberon Edward William Molyneux Herbert (Hon.),1978 The Right and Wrong of Compulsion by the State, and Other Essays Auberon Herbert,1978 Auberon Herbert 1838 1906 is an eloquent forceful and uncompromising defender of liberty indeed in the judgment of Richard M Ebeling he is one of the most important and articulate advocates of liberty in the last two hundred years Herbert was a major participant in the profound and wide ranging intellectual ferment of the late Victorian age He formulated a system of thorough individualism that he described as voluntarism To Herbert you will not make people wiser and better by taking liberty of action from them A man can learn only when he is free to act As Eric Mack writes Carrying natural rights theory to its logical limits Herbert demanded complete social and economic freedom for all noncoercive individuals and the radical restriction of the use of force to the role of protecting those freedoms including the freedom of peaceful persons to withhold support from any or all state activities There are ten essays **Herbert Spencer** Alberto Mingardi,2013-08-01 This volume makes a compelling case for the continued relevance and significance of Herbert Spencer 1820 1904 one of the foremost intellectuals of the Victorian era whose work now tends to be regarded as being of purely historical interest One of the originators of the evolutionary classical liberal or libertarian approach exemplified later by F A Hayek Spencer engaged with such issues as the relationship between the individual and the state the nature of majoritarian democracy the legitimacy of private property the consequences of the transition from relatively simple feudal communities to complex industrial societies and the causes of war and the prospects of international peace For him the future was individualist However as the scope of state action expanded and classical liberal ideas became increasingly marginalised during the course of his life Spencer grew ever more pessimistic about the future prospects for liberty The Individualists Matt Zwolinski,John Tomasi,2023-04-04 Is libertarianism a progressive doctrine or a reactionary one Does libertarianism promise to liberate the poor and the marginalized from the yoke of state oppression or does talk of equal liberty obscure the ways in which libertarian doctrines serve the interests of the rich and powerful Through an examination of the history of libertarianism this book argues that the answer is and always has been both In this book we explore the neglected 19th century roots of libertarianism to show that it emerged first as a radical and progressive doctrine Libertarianism took a conservative turn in the 20th century primarily as a reaction against the rise of state socialism Now with international communism no longer a threat libertarianism is in the midst of an identity crisis with progressive and reactionary elements struggling to claim the doctrine as their own most notably on issues of race This book tells the history of libertarianism through an examination of six defining themes private property skepticism of authority free markets individualism spontaneous order and individual liberty In doing so it reveals that history to be longer wider and considerably more diverse than is commonly believed It is a history full of internal tensions idiosyncratic personalities and surprising arguments It is a history of the men and sometimes women who called

themselves The Individualists Freedom's Progress? Gerard Casey, 2021-10-04 In Freedom's Progress Gerard Casey argues that the progress of freedom has largely consisted in an intermittent and imperfect transition from tribalism to individualism from the primacy of the collective to the fragile centrality of the individual person and of freedom Such a transition is he argues neither automatic nor complete nor are relapses to tribalism impossible The reason for the fragility of freedom is simple the importance of individual freedom is simply not obvious to everyone Most people want security in this world not liberty Libertarians writes Max Eastman used to tell us that the love of freedom is the strongest of political motives but recent events have taught us the extravagance of this opinion The herd instinct and the yearning for paternal authority are often as strong Indeed the tendency of men to gang up under a leader and submit to his will is of all political traits the best attested by history The charm of the collective exercises a perennial magnetic attraction for the human spirit In the 20th century Fascism Bolshevism and National Socialism were Casey argues each of them a return to tribalism in one form or another and many aspects of our current Western welfare states continue to embody tribalist impulses Thinkers you would expect to feature in a history of political thought feature in this book Plato Aristotle Machiavelli Locke Mill and Marx but you will also find thinkers treated in Freedom's Progress who don't usually show up in standard accounts Johannes Althusius Immanuel Kant William Godwin Max Stirner Joseph Proudhon Mikhail Bakunin Pyotr Kropotkin Josiah Warren Benjamin Tucker and Auberon Herbert Freedom's Progress also contains discussions of the broader social and cultural contexts in which politics takes its place with chapters on slavery Christianity the universities cities Feudalism law kingship the Reformation the English Revolution and what Casey calls Twentieth Century Tribalisms Bolshevism Fascism and National Socialism and an extensive chapter on human prehistory **Anarchy and the Law** Edward P. Stringham, 2017-07-05 Private property anarchism also known as anarchist libertarianism individualist anarchism and anarcho capitalism is a political philosophy and set of economic and legal arguments that maintains that just as the markets and private institutions of civil society provide food shelter and other human needs markets and contracts should provide law and that the rule of law itself can only be understood as a private institution To the libertarian the state and its police powers are not benign societal forces but a system of conquest authoritarianism and occupation But whereas limited government libertarians argue in favor of political constraints anarchist libertarians argue that to check government against abuse the state itself must be replaced by a social order of self government based on contracts Indeed contemporary history has shown that limited government is untenable as it is inherently unstable and prone to corruption being dependent on the interest group politics of the state's current leadership Anarchy and the Law presents the most important essays explaining debating and examining historical examples of stateless orders Section I Theory of Private Property Anarchism presents articles that criticize arguments for government law enforcement and discuss how the private sector can provide law In Section II Debate limited government libertarians argue with anarchist libertarians about the morality and viability of private sector law enforcement Section III

History of Anarchist Thought contains a sampling of both classic anarchist works and modern studies of the history of anarchist thought and societies Section IV Historical Case Studies of Non Government Law Enforcement shows that the idea that markets can function without state coercion is an entirely viable concept Anarchy and the Law is a comprehensive reader on anarchist libertarian thought that will be welcomed by students of govern *Anxieties, Fear and Panic in Colonial Settings* Harald Fischer-Tiné,2017-01-23 This book argues that the history of colonial empires has been shaped to a considerable extent by negative emotions such as anxiety fear and embarrassment as well as by the regular occurrence of panics The case studies it assembles examine the various ways in which panics and anxieties were generated in imperial situations and how they shook up the dynamics between seemingly all powerful colonizers and the apparently defenceless colonized Drawing from examples of the British Dutch and German colonial experience the volume sketches out some of the main areas such as disease native savagery or sexual transgression that generated panics or created anxieties in colonial settings and analyses the most common varieties of practical discursive and epistemic strategies adopted by the colonisers to curb the perceived threats Running in Good Faith? Alan D. Krinsky,2021-05-04 Could a religiously observant Jew in good conscience run as a libertarian candidate promoting a libertarian platform Or would doing so betray fundamental Jewish values Running in Good Faith Observant Judaism and Libertarian Politics considers the seemingly irreconcilable values and political commitments of Judaism and libertarianism The latter prizes individualism self ownership private property and freedom whereas the former emphasizes community charity and service of God But are these differences so sharp This book seeks to determine if this is an essential clash or merely an apparent one and to stimulate a broad discussion of Judaism values politics and political philosophy in order to call into question what people think they know about both Judaism and libertarianism *Monsters and the Monstrous* ,2007-01-01 Emerging from depths comes a series of papers dealing with one of the most significant creations that reflects on and critiques human existence Both a warning and a demonstration the monster as myth and metaphor provides an articulation of human imagination that toys with the permissible and impermissible Monsters from zombies to cuddly cartoon characters emerging from sewers from pages of literature propaganda posters movies and heavy metal all are covered in this challenging scholarly collection This volume the third in the series presents a marvellous collection of studies on the metaphor of the monster in literature cinema music culture philosophy history and politics Both historical reflection and concerns of our time are addressed with clarity and written in an accessible manner providing appeal for the scholar and lay reader alike This eclectic collection will be of interest to academics and students working in a range of disciplines such as cultural studies film studies political theory philosophy and literature studies **Macro-Economics** J. W. Mostert,A. G. Oosthuizen,T. C.
