The Secret Trachings of All Ages Manly Palmer Hall, 2020-09-28 NUMEROUS volumes have been written as commentaries upon the secret systems of philosophy existing in the ancient world but the ageless truths of life like many of the earth s greatest thinkers have usually been clothed in shabby garments The present work is an attempt to supply a tome worthy of those seers and sages whose thoughts are the substance of its pages To bring about this coalescence of Beauty and Truth has proved most costly but I believe that the result will produce an effect upon the mind of the reader which will more than justify the expenditure Work upon the text of this volume was begun the first day of January 1926 and has continued almost uninterruptedly for over two years The greater part of the research work however was carried on prior to the writing of the manuscript The collection of reference material was begun in 1921 and three years later the plans for the book took definite form For the sake of clarity all footnotes were eliminated the various quotations and references to other authors being embodied in the text in their logical order The bibliography is appended primarily to assist those interested in selecting for future study the most authoritative and important items dealing with philosophy and symbolism To make readily accessible the abstruse information contained in the book an elaborate topical cross index is included I make no claim for either the infallibility or the originality of any statement herein contained I have studied the fragmentary writings of the ancients sufficiently to realize that dogmatic utterances concerning their tenets are worse than foolhardy Traditionalism is the curse of modern philosophy particularly that of the European schools While many of the statements contained in this treatise may appear at first wildly fantastic I have sincerely endeavored to refrain from haphazard metaphysical speculation presenting the material as far as possible in the spirit rather than the letter of the original authors By assuming responsibility only for the mistakes which may appear herein I hope to escape the accusation of plagiarism which has been directed against nearly every writer on the subject of mystical philosophy Having no particular

ism of my own to promulgate I have not attempted to twist the original writings to substantiate preconceived notions nor have I distorted doctrines in any effort to reconcile the irreconcilable differences present in the various systems of religious philosophic thought The entire theory of the book is diametrically opposed to the modern method of thinking for it is concerned with subjects openly ridiculed by the sophists of the twentieth century Its true purpose is to introduce the mind of the reader to a hypothesis of living wholly beyond the pale of materialistic theology philosophy or science The mass of abstruse material between its covers is not susceptible to perfect organization but so far as possible related topics have been grouped together

The Secret Teachings of All Ages: An Encyclopedic Outline of Masonic, Hermetic, Qabbalistic and Rosicrucian Symbolical Philosophy Manly P. Hall, 2025-06-24 Manly P Hall s The Secret Teachings of All Ages is a monumental synthesis of esoteric wisdom occult philosophy and spiritual tradition first published when Hall was just 27 years old and now widely regarded as one of the most comprehensive volumes of mystical scholarship ever compiled Spanning ancient Egypt Greece and Rome to medieval alchemy Renaissance magic and modern secret societies Hall s encyclopedic work explores the symbols rituals and doctrines of Masonic Hermetic Qabbalistic Rosicrucian and Theosophical traditions Lavishly illustrated and rich in references the book decodes a universe of hidden meaning sacred geometry tarot astrology mythology the mystery schools and spiritual initiation arguing that all these seemingly disparate systems point toward a single metaphysical truth With poetic clarity and philosophical ambition Hall seeks to recover the perennial wisdom that lies beneath surface religion and science alike He guides readers through the allegories of Plato the symbolism of Gothic cathedrals the secrets of the pyramids and the inner meanings of Biblical texts all with a reverence for the spiritual potential of the human soul More than just a reference text it is a spiritual manual for seekers mystics and scholars eager to understand the hidden architecture of consciousness The Secret Teachings of All Ages remains an essential volume for anyone drawn to the mystical the philosophical and the eternal questions that transcend dogma and speak to the soul
