Rumors, Race, and Riots Terry Ann Knopf, 1975-01-01 Are race related rumors rooted in the personality traits of the individual Are they a kind of improvised news for a community Do they come and go at random or form definite recognizable patterns What role do the news media play in spreading rumors These and other questions are treated in this classic study now available in paperback with a new introduction by the author of how and why rumors emerge in connection with racial disorders Included is an examination and critique of the three major models of rumor formation the psychological approach emphasizing the emotional needs and drives of the individual the functional approach which views rumors as a form of improvised news and the conspiratorial approach which sees rumors as deliberately planted and not spontaneous The author's process model of rumor formation is based on the premise that rumors cannot cause violence and that violence cannot cause rumors Both are viewed as parts of the same process Rumors are seen as just one of a series of determinants each of which increases the likelihood of a collective outburst Among the determinants examined are conditions of stress a rigid social structure supported by a racist ideology and a hostile belief system or negative set of generalized perceptions held separately by different groups Race related rumors are functionally tied to the latter point and crystallize confirm and intensify these beliefs by linking them to actual events Hundreds of pertinent rumors are documented from local newspapers and investigative accounts An exhaustive systematic inquiry is made into the series of disorders that occurred between 1967 and 1970 The role played by rumors during these disturbing times is examined and compared to earlier periods of unrest Implications for public policy are explored along with a hard look at rumor control centers The influence of the police and other public officials as well as the news media are treated extensively since they play a big part in fostering a grapevine in the white suburbs similar to the one found in the inner cities Terry Ann Knopf teaches arts and media criticism at Boston University's Journalism Department Earlier she worked as a TV critic for the Miami Herald and the Patriot Ledger and was also a correspondent at the Boston Globe specializing in the arts and media **British Book News**, 1989 *Riots and Political Protest* Simon Winlow, Steve Hall, Daniel Briggs, James Treadwell, 2015-06-19 The years 2008 to 2013 saw a new

generation of political protestors take to the streets Riots disrupted many Western cities and new protest movements emerged keen to address a bleak context of economic collapse and austerity politics In this groundbreaking new study Winlow Hall Briggs and Treadwell push past the unworldly optimism of the liberal left to offer an illuminating account of the enclosure and vacuity of contemporary politics Focusing on the English riots of 2011 the ongoing crisis in Greece the Indignados 15M and Podemos in Spain the Occupy movement in New York and London and the English Defence League in northern England this book uses original empirical data to inform a strident theoretical critique of our post political present It asks what are these protest groups fighting for and what are the chances of success Written by leading criminological theorists and researchers this book makes a major contribution to contemporary debates on social order politics and cultural capitalism It illuminates the epochal problems we face today Riots and Political Protest is essential reading for academics and students engaged in the study of political sociology criminological theory political theory sociological theory and the sociology of deviance
