

PRUSSIA'S GROWTH THROUGH FIVE CENTURIES

The history of Prussia may be said to begin in 1415, when the Hohenzollern family gained possession of the little electorate of Brandenburg. For two centuries there was no indication that this poor flat country was destined to be the nucleus of the greatest of the German states, but after the Hohenzollerns acquired East Prussia in 1618, their dominions steadily grew until they included two-thirds of the territory and three-fourths of the population of all Germany.

Dwyer, 2014-02-04 At the beginning of the eighteenth century Prussia was but one in a mosaic of German states but it rose to be the unchallenged leader of German speaking Europe after the fall of Napoleon The book goes beyond the political military and diplomatic concerns of the Prussian elite whose record of events is the one upon which most histories of Prussia are based and explains its rise in relation to Prussian society as a whole Political analysis is integrated with material on such areas as agrarian society urban life and religion which are not fully examined in existing histories *The Rise of Brandenburg-Prussia to 1786* Sidney B. Fay, 1947 *The Rise of Brandenburg-Prussia to 1786* Sidney Bradshaw Fay, 1950 *The Cultivation of Monarchy and the Rise of Berlin* Karin Friedrich, 2017-03-02 The start of the eighteenth century witnessed the elevation of Prussia to monarchic status a reflection of the rising importance of the Hohenzollern dynasty within the Empire as well as in Central Europe In tandem with this Berlin came to the fore as the capital city of Brandenburg with the establishment there of the royal court This volume makes available for the first time a selection of the diverse printed and visual materials relating to these developments In their introduction to the documents the editors explore the historical political and cultural context of the rise of the Hohenzollerns and the significance of the 1701 coronation of Friedrich III as King in Prussia The materials provided in the original as well as in English translation are wide ranging Points of focus include the dynasty s cultivation of the arts and learning its festive culture the structure of the court and the nature of Friedrich s reign Particular attention is given to the ceremonial procedure and festivities surrounding his coronation recorded by the court poet Johann von Besser This collection of materials acts as a commentary on Baroque kingship revealing the manner in which the early eighteenth century monarch wished to present himself to the outside world and enhance his legitimacy among European rulers It also offers valuable insights into a key stage in the political and cultural history of Brandenburg Prussia the consequences of which exercised a crucial impact on the development of Germany and the history of Europe *Brandenburg-Prussia, 1466-1806* Karin Friedrich, 2011-11-25 Karin Friedrich locates the composite state of Brandenburg Prussia in its historical political religious and economic context from the demise of the Teutonic Knights in the fifteenth century to the Napoleonic crisis Synthesising debates in German English and Polish historical writing the study focuses on key themes and concepts such as Confessionalisation state building absolutism and the rural economy The primacy of foreign politics The impact of an
