The Rise of Popular Literacy in Victorian England

The Influence of Private Choice and Public Policy

David Mitch

Rise Of Popular Literacy In Victorian England

Roderick Floud, Paul Johnson

Rise Of Popular Literacy In Victorian England:

The Rise of Popular Literacy in Victorian England David Mitch, 2016-11-11 In early Victorian England there was an intense debate about whether government involvement in the provision of popular elementary education was appropriate. Government did in the end become actively involved first in the administration of schools and in the supervision of instruction then in establishing and administering compulsory schooling laws. After a century of stagnation literacy rates rose markedly. While increasing government involvement would seem to provide the most obvious explanation for this rise David F Mitch seeks to demonstrate that in fact popular demand was also an important force behind the growth in literacy. Although previous studies have looked at public policy in detail and although a few have considered popular demand *The Rise of Popular Literacy in Victorian England* is the first book to bring together a detailed examination of the two sets of factors. Mitch compares the relative importance of the rise of popular demand for literacy and the development of educational policy measures by the church and state as contributing factors that led to the rise of working class literacy during the Victorian period. He uses an economic historical approach based on an examination of changes in the costs and benefits of acquiring literacy. Mitch considers the initial demand of the working classes for literacy and how much that demand grew. He also examines how literacy rates were influenced by the development of a national system of elementary school provision and by the establishment of compulsory schooling laws. Mitch uses quantitative methods and evidence as well as more traditional historical sources such as government reports, employment ads and contemporary literature. An important reference is a national sample of over 8 000 marriage certificates from the mid Victorian period that provides information on the ability of brides and grooms to sign their names. *The Rise of Popular Literacy in Victorian England* is a valuable text for students and scholars of British economic and labor history, history of literacy and education and popular culture.

The Rise of Popular Literacy in Victorian England David Franklin Mitch, 1992 While increasing government involvement would seem to provide the most obvious explanation for this rise David F Mitch seeks to demonstrate that in fact popular demand was also an important force behind the growth in literacy.

A Companion to Nineteenth-Century Britain Chris Williams, 2008-04-15 *A Companion to Nineteenth Century Britain* presents 33 essays by expert scholars on all the major aspects of the political, social, economic and cultural history of Britain during the late Georgian and Victorian eras. Truly British rather than English in scope. Pays attention to the experiences of women as well as of men. Illustrated with maps and charts. Includes guides to further reading.

Social Mobility in Nineteenth- and Early Twentieth-Century England A. Miles, 1999-04-12 This pioneering book provides the first systematic historical analysis of occupational and social mobility in England. Using a collection of over 10 000 marriage certificates to examine inter generational change and almost 500 autobiographical texts and abstracts to explore the dynamics of career mobility it shows how the development of the nineteenth century economy was accompanied by rising rates of mobility which made English society more open while at the same encouraging a distinct process of

working class formation **Education in Britain, 1750-1914** W B Stephens,1999-01-18 This concise study covers the development of education throughout Great Britain from the Industrial Revolution to the Great War a period in which urbanization industrialization and population growth posed huge social and political problems and education became one of the fiercest areas of conflict in society **The Oxford Handbook of the History of Education** John L. Rury,Eileen Tamura,2019 This handbook offers a global perspective on the historical development of educational institutions systems of schooling educational ideas and educational experiences Its 36 chapters consider the field s changing scholarship while examining particular national and regional themes and offering a comparative perspective Each also provides suggestions for further research and analysis *The British Industrial Revolution* Joel Mokyr,2018-02-06 The Industrial Revolution remains a defining moment in the economic history of the modern world But what kind and how much of a revolution was it And what kind of moment could it have been These are just some of the larger questions among the many that economic historians continue to debate Addressing the various interpretations and assumptions that have been attached to the concept of the Industrial Revolution Joel Mokyr and his four distinguished contributors present and defend their views on essential aspects of the Industrial Revolution In this revised edition all chapters including Mokyr s extensive introductory survey and evaluation of research in this field are updated to consider arguments and findings advanced since the volume s initial 1993 publication Like its predecessor the revised edition of *The British Industrial Revolution* is an essential book for economic historians and indeed for any historian of Great Britain in the eighteenth and nineteenth centuries *The Cambridge Economic History of Modern Britain: Volume 1, Industrialisation, 1700-1870* Roderick Floud,Jane Humphries,Paul Johnson,2014-10-09 A new edition of the leading textbook on the economic history of Britain since industrialization Combining the expertise of more than thirty leading historians and economists Volume 1 tracks Britain s economic history in the period ranging from 1700 to 1870 from industrialisation to global trade and empire Each chapter provides a clear guide to the major controversies in the field and students are shown how to connect historical evidence with economic theory and apply quantitative methods New approaches are proposed to classic issues such as the causes and consequences of industrialisation the role of institutions and the state and the transition from an organic to an inorganic economy as well as introducing new issues such as globalisation convergence and divergence the role of science technology and invention and the growth of consumerism Throughout the volume British experience is set within an international context and its performance benchmarked against its global competitors *The Cambridge Economic History of Modern Britain* Roderick Floud,Paul Johnson,2003 Publisher Description **Crime News in Modern Britain** Judith Rowbotham,Kim Stevenson,Samantha Pegg,2013-10-16 Drawing together examples from broadsheet and tabloid newspapers this account of English crime reportage takes readers from the late eighteenth century to the present day In the post Leveson world it is a timely and engaging contextualisation of the history of printed crime news and investigative journalism
