

The Rise of Absolutism

The Crusades stimulated trade & led to the rise of cities in Europe

This trade sparked the Renaissance & weakened the power of feudal lords

European Feudalism

As feudalism declined, the power of kings increased

Rise Of The Feudal Monarchies

George William Kitchin

Rise Of The Feudal Monarchies:

The Rise of the Feudal Monarchies Sidney Painter,1951

The Rise of the Feudal Monarchies Sidney Painter,1951

Feudalism, Monarchies, and Nobility Jeanne Nagle,2014-07-15 Stories of pageantry associated with kings queens and the upper class have long captivated readers of all ages The reality behind how these entities have operated within set governmental systems has not always been as glamorous as these tales but it retains an allure of its own nonetheless This book provides a firm grounding in the historic political social and economic implications of rule by monarchy including the prevalence of the feudal system in medieval Europe Modern monarchies and the role of the aristocracy in every age are also detailed

The Sovereign State and Its Competitors Hendrik Spruyt,2020-05-05 The present international system composed for the most part of sovereign territorial states is often viewed as the inevitable outcome of historical development Hendrik Spruyt argues that there was nothing inevitable about the rise of the state system however Examining the competing institutions that arose during the decline of feudalism among them urban leagues independent communes city states and sovereign monarchies Spruyt disposes of the familiar claim that the superior size and war making ability of the sovereign nation state made it the natural successor to the feudal system The author argues that feudalism did not give way to any single successor institution in simple linear fashion Instead individuals created a variety of institutional forms such as the sovereign territorial state in France the Hanseatic League and the Italian city states in reaction to a dramatic change in the medieval economic environment Only in a subsequent selective phase of institutional evolution did sovereign territorial authority prove to have significant institutional advantages over its rivals Sovereign authority proved to be more successful in organizing domestic society and structuring external affairs Spruyt s interdisciplinary approach not only has important implications for change in the state system in our time but also presents a novel analysis of the general dynamics of institutional change
