

The background of the book cover is a dark, stylized illustration. It depicts a large, billowing flag with a red field and a white sun disk, which is the flag of the Imperial Japanese Army. The flag is set against a backdrop of dark, jagged shapes that suggest a battlefield or a city under attack. The overall tone is somber and dramatic.

RISING SUN VICTORIOUS

THE ALTERNATE HISTORY OF HOW
THE JAPANESE WON THE PACIFIC WAR

EDITED BY PETER G. TSOURAS

Rising Sun Victorious The Alternate History Of How The Japanese Won The Pacific War

Michael Myers

Rising Sun Victorious The Alternate History Of How The Japanese Won The Pacific War:

Rising Sun Victorious Peter Tsouras,2001 **Rising Sun Victorious** Peter G. Tsouras,2001-10-30 This look at WW2 in the Pacific by mil historians examines the possibilities of the ways not taken the opportunities for decisive advantages that could have been won by the arms of Imperial Japan What would have happened if for example Japan had followed up its plan to attack the Soviet Union rather than the U S Or if Nagumo had sent in his 3rd wave at Pearl Harbor What if Japan had conquered India knocked Britain out of the Pacific War or if Japanese landings in Australia had severed the strategic link between the U S its SW Pacific base The authors writing as if these other world changing events had actually happened project realistic scenarios based on the true capabilities circumstances of the forces involved Illustrations Rising Sun Victorious Peter G. Tsouras,2015-09-01 In war victory can be held hostage to seemingly insignificant incidents chance events opportunities seized or cast aside that can derail the most brilliant military strategies and change the course of history What if the Japanese had conquered India and driven out the British What if the strategic link between the United States and Australia had been severed What if Vice Admiral Nagumo had launched a third attack on Pearl Harbor What if the U S Navy's gamble at Midway had backfired Ten leading military historians ask these and other questions in this fascinating book The war with Japan was rife with difficult choices and battles that could have gone either way These fact based alternate scenarios offer intriguing insights into what might have happened in the Pacific during World War II and what the consequences would have been for America Skyhorse Publishing as well as our Arcade imprint are proud to publish a broad range of books for readers interested in history books about World War II the Third Reich Hitler and his henchmen the JFK assassination conspiracies the American Civil War the American Revolution gladiators Vikings ancient Rome medieval times the old West and much more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home **The War of the World** Niall Ferguson,2007-10-30 From the bestselling author of *The Ascent of Money* and *The Square and the Tower* Even those who have read widely in 20th century history will find fresh surprising details *The Boston Globe* A fascinating read thanks to Ferguson's gifts as a writer of clear energetic narrative history *The Washington Post* Astonishing in its scope and erudition this is the magnum opus that Niall Ferguson's numerous acclaimed works have been leading up to In it he grapples with perhaps the most challenging questions of modern history Why was the twentieth century history's bloodiest by far Why did unprecedented material progress go hand in hand with total war and genocide His quest for new answers takes him from the walls of Nanjing to the bloody beaches of Normandy from the economics of ethnic cleansing to the politics of imperial decline and fall The result as brilliantly written as it is vital is a great historian's masterwork Rising Sun Victorious Peter G. Tsouras,2015-09-01 In war victory can be held hostage to seemingly insignificant incidents chance events opportunities seized or cast aside that can derail the most brilliant military strategies

and change the course of history What if the Japanese had conquered India and driven out the British What if the strategic link between the United States and Australia had been severed What if Vice Admiral Nagumo had launched a third attack on Pearl Harbor What if the U S Navy s gamble at Midway had backfired Ten leading military historians ask these and other questions in this fascinating book The war with Japan was rife with difficult choices and battles that could have gone either way These fact based alternate scenarios offer intriguing insights into what might have happened in the Pacific during World War II and what the consequences would have been for America Skyhorse Publishing as well as our Arcade imprint are proud to publish a broad range of books for readers interested in history books about World War II the Third Reich Hitler and his henchmen the JFK assassination conspiracies the American Civil War the American Revolution gladiators Vikings ancient Rome medieval times the old West and much more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home *Economic Disasters of the Twentieth Century* Michael J. Oliver, Derek Howard

Aldcroft, 2007-01-01 The First and Second World Wars the great depression oil shocks inflation financial crises stock market crashes the collapse of the Soviet command economy and Third World disasters are discussed in this comprehensive book The contributors subject these disasters to in depth assessment carefully considering their costs and impact on specific countries and regions as well as assessing them in a global context The book examines the legacy of economic disasters and asks whether economic disasters are avoidable or whether policymakers can learn from their mistakes The Abyss Niall Ferguson, 2012-10-23 Excerpted from Niall Ferguson s sprawling bestseller The War of the World The Abyss now stands on its own as one of the most thrilling short histories of World War I ever written This is not a conventional military history about battles and generals Rather The Abyss examines how World War I saw the birth of total war fought between societies as much as armies and must therefore be understood in terms of the financial crises it unleashed the multinational empires it destroyed and the hateful ideas it propagated The most remarkable thing about the war Ferguson shows us is how shockingly unexpected it was At a time when economic integration and technology seemed to be rendering war between great powers impossible World War I was the moment when that process went into reverse and the lethal forces of ethnic disintegration took over Now on the cusp of the 100th anniversary of its outbreak we can see World War I as much more than just four years of industrialized slaughter Weaving together the economics of empire and the ideology of race and featuring an original preface by the author as well a teaser from his new paperback Civilization The Abyss is world history at its finest

Japanese Military Strategy in the Pacific War James B Wood, 2023-06-14 In this provocative history James B Wood challenges the received wisdom that Japan s defeat in the Pacific was historically inevitable He argues instead that it was only when the Japanese military prematurely abandoned its original sound strategic plan to secure the resources Japan needed and establish a viable defensible perimeter for the Empire that the Allies were able to regain the initiative and lock

Japanese forces into a war of attrition they were not prepared to fight The book persuasively shows how the Japanese army and navy had both the opportunity and the capability to have fought a different and more successful war in the Pacific that could have influenced the course and outcome of World War II It is therefore a study both of Japanese defeat and of what was needed to achieve a potential Japanese victory or at the very least to avoid total ruin Wood s argument does not depend on signal individual historical events or dramatic accidents Instead it examines how familiar events could have b

World War II in Literature for Youth Patricia Hachten Wee, Robert James Wee, 2004-11-10 This comprehensive volume provides a wealth of information with annotated listings of more than 3 500 titles a broad sampling of books on the war years 1939 1945 Includes both fiction and nonfiction works about all aspects of the war Professional resources for educators aligned to the educational standards for social studies technical references periodicals and electronic resources a directory of WWII museums memorials and other institutions and topics for exploration complement this excellent library and classroom resource

The Pacific War and Contingent Victory Michael Myers, 2015-04-03 About the Allies victory in the Pacific in WWII it goes almost without question that Japan s defeat was inevitable in the face of overwhelming American military might and economic power But the outcome Michael W Myers contends was actually anything but inevitable This book is Myers s thorough and deeply informed explanation of how contingent the foregone conclusion of the war in the Pacific really was However disproportionate their respective resources both Japan and the Allied forces confronted significant obstacles to ultimate victory One the two sides shared Myers shows was the lack of a single individual with the knowledge vision and authority to formulate and implement effective strategy Both exercised leadership by committee and Myers cogently explains how this contributed to the contingent nature of the conflict A remarkable exercise in logical methods of strategic thinking his book analyzes decisive campaigns in the Pacific War examining the economic and strategic challenges that both sides faced and had to overcome to achieve victory Japan for instance had two goals going into the war to expand the boundaries of what they termed the Greater East Asia Co Prosperity Sphere and to end their long and frustrating war in China These goals as Myers shows us had unforeseen and devastating logistical and strategic consequences But the United States faced similar problems as well as other hurdles specific to a nation not yet on full war footing Overturning conventional historiography The Pacific War and Contingent Victory clarifies the proper relationship between freedom and determinism in historical thinking A compelling retelling of the Pacific war that might easily have been the book offers historical lessons in thinking about contemporary American foreign policy and American exceptionalism most saliently about the dangers of the presumption of American ascendancy

When somebody should go to the books stores, search introduction by shop, shelf by shelf, it is in reality problematic. This is why we give the book compilations in this website. It will totally ease you to see guide **Rising Sun Victorious The Alternate History Of How The Japanese Won The Pacific War** as you such as.

By searching the title, publisher, or authors of guide you in reality want, you can discover them rapidly.
