the literary mainstream Late Modernism and the Avant Garde British Novel reassesses the experimentalism versus realism debates of the period and finds a body of work engaged with rather than merely antagonistic towards the literary culture it sought to renovate Charting these engagements it shows how they have significance not just for our understanding of these decades but for the broader movement of the novel through the century This volume takes some of the claims made about experimental fiction that it is unreadable nonlinear elliptical errant plotless and reimagines these descriptors as historically inscribed tendencies that express the period's investment in the idea of the accidental These novels are interested in the fleeting and the fugitive in discontinuity and shock The experimental novel cultivates an interest in methods of representation that are oblique attempting to conjure the world at an angle or in the rear view mirror by ellipsis or evasion These concepts error indeterminacy uncertainty accident all bear a relation to that which evades or resists interpretation and meaning Asking what are the wider political ethical and philosophical correlates of this incommensurability Late Modernism and the Avant Garde British Novel reads experimental literature in this light as suffused with anxiety about its adequacy in the light of its status as necessarily imitative and derivative and therefore redolent of the forms of not knowing and uncertainty that mark late modernism more generally

**My Mamie Rose** Owen Kildare, 1903 Many men have told the stories of their lives I shall tell you mine Not because I as they have done great and important things but because of the miracle which transformed me If lives may be measured by progress mine may have some interest to you When a man at thirty cannot read or write the simplest sentence and then eight years later is able to earn his living by his pen his story may be worth the telling Before beginning however the recital of how I found my ambition awakened let me make my position unmistakably definite I am not a self made man having only contributed a mite in the making A self made man can turn around to the road traveled by him and can point with pride to the monuments of his achievements I cannot do that I have no record of great deeds accomplished I am a man reborn and remade from an unfortunate moral condition into a life in which every atom has but the one message Strive struggle and believe and I would be the sneakiest hypocrite were I to deny that I feel within me a satisfaction at being able to respond to the call with all the possible energy of soul and body

*Christine Brooke-Rose* Noemi Alice Bartha, 2014-10-16 British born experimental writer Christine Brooke Rose puzzled numerous critics theoreticians and writers as she overturned opinions continuously struggling to outline her fractal identity The present book boldly outlines and settles the ambiguities of Christine Brooke Rose's split identity originating in the psychoanalytical aesthetic and authorial confusion of a writer who took delight in challenging readers with highly experimental novels This study highlights the chameleonic features of the Brooke Rosean narrative in an audaciously exhaustive and original attempt to chart the author's lipogrammic narrative discourse its unifying intertextual yet anamorphic web and its fictional characters

**The Constellational Novel** Louis Klee,2025-08-05 A constellational novel is a novel that has an associative essayistic digressive and densely patterned prose form The Constellational Novel aims to shed light on the field of contemporary literature by offering a definitive theory of the constellational novel These novels are recognizable by the presence of a first person narrator committed to drawing affinities and making connections among disparate things Beginning with Marcel Proust Klee's argument focuses on novels published over roughly the last two decades between 2001 and 2020 by writers such as W G Sebald Lisa Robertson Teju Cole Jacqueline Rose and Olga Tokarczuk Strikingly it is often assumed that the attunement of their narrators to an unfolding web of potential interconnections holds an ethical promise of new ways of relating to oneself others and the world Klee considers this implication of ethics and associative form to be peculiar and in some important respects unprecedented in the history of the novel How is recognizing connections between things ethical exactly Could it not simply be the working of a resourceful or possibly even deranged intelligence one that obsessively sees patterns everywhere Why should the value of literature hinge on such an idiosyncratic process And what does finding affinities have to do with the more familiar categories of novelistic form like character and narrative Taking inspiration from the work of Walter Benjamin this book analyzes the distinctive ethics of affinity offered by these novels and thus seeks to clarify one of the most intriguing and consequential developments in the contemporary novel [The Azure Rose a Novel](#) Kauffman Reginald Wright,2016-06-23 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the
