*The Union Blockade in the American Civil War* Michael Bonner, Peter McCord, 2023-08-18 Winner of the 2021 John Lyman Book Award from the North American Society for Oceanic History Swashbuckling stories of the Union naval blockade of the Southern states and the blockade runners who smuggled goods to the Confederacy have long been a part of the romanticized image of the Civil War Throughout the war Lincoln's blockade and attempts to breach it touched nearly every aspect of the war effort The Union prevented crucial material from reaching Confederate forces while blockade runners smuggled hundreds of thousands of guns to rebel armies No other military campaign lasted as long or had as many long term consequences on the outcome of the Civil War Covering more than three thousand miles of Southern coastline and employing the services of 100 000 sailors the blockade was a massive undertaking largely dictated by two Atlantic powers Great Britain and the United States Michael Bonner and Peter McCord build on the extensive scholarship of the blockade and incorporate previously unexamined British primary sources to deliver a fresh analysis of the Union blockade blockade running and a reassessment of the blockade's effectiveness Their multifaceted study reassesses several key aspects of a critical component of Union strategy including diplomatic and legal issues and the significance of the Confederacy's reliance on European supplies to sustain the war effort The authors present statistics showing that the blockade was not nearly as effective as is commonly believed moreover its successes against steam powered blockade runners actually decreased as the war went on The diversity and comprehensiveness of coverage makes *The Union Blockade in the American Civil War* an essential work for Civil War historians and students      *Echoes of Topsail* David A. ### **Blockade Runners of the Confederacy** Hamilton

Cochran, 2005-02-06 A readable exciting chronicle of the men and ships that ran federal naval blockades during the Civil War. Within four weeks of the fall of Fort Sumter, President Abraham Lincoln had declared a blockade of over four thousand miles of Confederate coastline from Cape Henry in Virginia to the Mexican border. In response, professional runners lured by both profits and patriotism built faster, sleeker, low-profile ships and piloted them through the ever-thickening Northern cordon. The tonnage they imported, including items ranging from straight pins to marine engines, sustained the South throughout the conflict. This exciting chronicle of the men and ships that ran federal naval blockades during the Civil War also provides an overall assessment of the blockades' conception, effectiveness, and impact on the Southern populace. *British Blockade*

*Runners in the American Civil War* Joseph McKenna, 2019-04-11 Perhaps more than all the campaigns of the Union armies, the Union naval blockade covering all major Southern ports along 3,500 miles of coastline for the duration of the war brought down the Confederacy. The daring exploits of Confederate blockade runners are well known, but many of them were British citizens operating out of neutral ports such as Nassau, Havana, and Bermuda. Focusing on British involvement in the war, this history names the overseas bankers and manufacturers who, in critical need of cotton and other Confederate exports, financed and equipped the fast little ships that ran the blockade. The author attempts to disentangle the names and aliases of the captains, many of whom were Royal Navy officers on temporary leave, and tells their stories in their own words. **Captain**

**James Carlin** Colin Carlin, 2022-04-13 A biography of the British American who captained a blockade runner for the Confederacy during the Civil War. Captain James Carlin is a biography of a shadowy nineteenth-century British Confederate. James Carlin (1833-1921) was among the most successful captains running the US Navy's blockade of Southern ports during the Civil War. Written by his descendent, Colin Carlin, *Captain James Carlin* ventures behind the scenes of this perilous trade that transported vital supplies to the Confederate forces. An Englishman trained in the British merchant marine, Carlin was recruited into the US Coastal and Geodetic Survey Department in 1856, spending four years charting the US Atlantic seaboard. Married and settled in Charleston, South Carolina, he resigned from the survey in 1860 to resume his maritime career. His blockade running started with early runs into Charleston under sail. These came to a lively conclusion under gunfire off the Stono River mouth. More blockade running followed until his capture on the SS *Memphis*. Documents in London reveal the politics of securing Carlin's release from Fort Lafayette. On his return to Charleston, General P. G. T. Beauregard gave him command of the spar torpedo launch *Torch* for an attack on the USS *New Ironsides*. After more successful trips through the blockade, he was appointed superintending captain of the South Carolina Importing and Exporting Company and moved to Scotland to commission six new steam runners. After the war, Carlin returned to the southern states to secure his assets before embarking on a gun-running expedition to the northern coast of Cuba for the Cuban Liberation Junta, fighting to free the island from Spanish control and plantation slavery. In researching his forebear, the author gathered

a wealth of private and public records from England Scotland Ireland Greenland the Bahamas and the United States The use of fresh sources from British Foreign Office and US Prize Court documents and surviving business papers make this volume distinctive A groundbreaking work that lifts the veil off the all important ship captains who supplied the Confederacy with the necessary supplies to sustain its fight for independence The author does a superb job in relating the story of his relative James Carlin a key member of the cadre of captains who sustained the Confederacy by running supplies through the northern blockade on specialized vessels A sweeping story from England to Charleston Florida and Cuba This book is a must for anyone interested in Southern Confederate maritime history Stephen R Wise author of *Lifeline of the Confederacy Blockade Running during the Civil War*      [Women in the American Civil War](#) Lisa . **Mersey Built: The Role of Merseyside in the American Civil War**

Robert Thorp, 2018-04-10 *Mersey Built* chronicles the little known commercial battle that raged between North and South during the American Civil War. The South relied on Europe for its military supplies which the North tried to stop with a naval blockade of all Southern ports. The South retaliated by destroying Northern merchant ships on the high seas using war ships secretly procured from British shipyards and smuggled out of Britain by sympathetic British captains using British crews. The Charleston based business empire headed by George Trenholm provided a conduit for Confederate finance with its Liverpool branch acting as bankers for the Confederacy's procurement agents. Merseyside with its extensive docks and numerous shipyards quickly became the epicenter of Confederate operations in Europe. Several British businessmen bought ships specifically to run supplies through the Union blockade leaving relationships between the United States and Britain strained close to breaking point. The book relates the history of Trenholm's commercial empire, its pre war expansion into Liverpool and the pivotal role it played in supporting the Confederate war effort. The involvement of other Liverpool based entrepreneurs and their successes and failures in blockade running is described. Background histories of the Merseyside ship builders who constructed warships and blockade runners for the Confederacy are included as well as several mini biographies of the Liverpool based captains who smuggled out warships and braved the Union blockade. Details of each ship built on Merseyside for involvement in the Civil War are listed. The role of the United States consular service and its extensive Liverpool based spy ring is described as are the efforts of the United States ambassador in London to influence British government policy on neutrality. The author, a direct descendant of a Liverpool ship builder and a blockade running captain, brings new insights and previously unpublished facts to light in this fascinating chapter of history. [Southern Rights](#) Mark E. Neely, 1999. During the civil war that followed, not a day would pass when Confederate military prisons did not contain political prisoners. BOOK JACKET
