Roughing it Deluxe Irvin Shrewsbury Cobb,1913      *Irvin S. Cobb* Anita Lawson,1984-03 The story of Irvin S Cobb is a fascinating one for many reasons His life was not unusual at the time a Horatio Alger rise from poor boy to world authority through hard work Associate of celebrities of all kinds for two decades he died in Hollywood virtually forgotten having outlived the world he grew up in and which appreciated him      **Roughing It Deluxe** Irvin S. Sutter,2009-11-23 In its infancy the movement to protect wilderness areas in the United States was motivated less by perceived threats from industrial and agricultural activities than by concern over the impacts of automobile owners seeking recreational opportunities in wild areas Countless commercial and government purveyors vigorously promoted the mystique of travel to breathtakingly scenic places and roads and highways were built to facilitate such travel By the early 1930s New Deal public works programs brought these trends to a startling crescendo The dilemma faced by stewards of the nation s public lands was how to protect the wild qualities of those places while accommodating and often encouraging automobile based tourism By 1935 the founders of the Wilderness

Society had become convinced of the impossibility of doing both In *Driven Wild* Paul Sutter traces the intellectual and cultural roots of the modern wilderness movement from about 1910 through the 1930s with tightly drawn portraits of four Wilderness Society founders Aldo Leopold Robert Sterling Yard Benton MacKaye and Bob Marshall Each man brought a different background and perspective to the advocacy for wilderness preservation yet each was spurred by a fear of what growing numbers of automobiles aggressive road building and the meteoric increase in Americans turning to nature for their leisure would do to the country's wild places As Sutter discovered the founders of the Wilderness Society were driven wild pushed by a rapidly changing country to construct a new preservationist ideal Sutter demonstrates that the birth of the movement to protect wilderness areas reflected a growing belief among an important group of conservationists that the modern forces of capitalism industrialism urbanism and mass consumer culture were gradually eroding not just the ecology of North America but crucial American values as well For them wilderness stood for something deeply sacred that was in danger of being lost so that the movement to protect it was about saving not just wild nature but ourselves as well

**Sufficiently Robust** William Cathcart-Rake, 2010-09-13 William Cathcart Rake shares his memories of a half century of hiking in the Grand Canyon During that time he spent sixty days and walked five hundred miles below the rim As he recounts his thoughts and experiences of eighteen separate treks below the rim he includes many fascinating facts about the Canyons natural and human history As the years go by the author discovers that the Canyon has more to offer than just being a challenging place to hike it becomes a sanctuary for reflection and renewal His time in the canyon is more than days below the rim miles walked switchbacks negotiated stream crossings walking speed and pounds carried Conquering the canyon an impossible and foolish quest ceased to be a goal He returned to the canyon because of the effect it had on him not because of what he could do in it or to it The canyon allowed him to discover his ability to persevere despite discomfort afforded an opportunity to learn more about the natural world we live in and gave him a deeper appreciation of the need to seek the solace afforded by sauntering below the rim

Albright Training Center (U.S.), 1981\* **Lines on the Land** Scott Herring, 2004 **Lines on the Land** Writers Art and the National Parks Scott Herring The nineteenth century photographer William Henry Jackson once complained of the skepticism with which early descriptions of Yellowstone were met the place was too wondrous to be believed The public demanded proof and a host of artists and writers obliged These early explorers possessed a vigorous devotion to the young nation's wilderness the naturalist John Muir famously toured the land from Wisconsin to Florida on foot and through their work established aesthetic categories that exist to this day In **Lines on the Land** Scott Herring contends that these writers and artists were canon makers recognizing the national parks as

naturally occurring works of art and conferring upon them a cultural prestige the parks were the splendid focal points of the American landscape These early canonizing works are homages to a vast untouched wilderness This praise would gradually give way however to a distinctly American anger what Herring calls outraged idealism Later generations were faced with a changing culture that had imperfectly absorbed and even misrepresented the national park aesthetic The postwar park was overrun by cars and tourists who could not possibly match the pioneering naturalists profound commitment to and appreciation for their surroundings The collective tone of the parks chroniclers as a result evolved from celebration of awesome beauty to indignation over the perceived corruption of the parks both as an ideal and as actual physical settings Herring traces this shift through the work of a wide spectrum of creative minds from early figures such as Muir and Thomas Moran to later observers of the parks such as Ansel Adams Sylvia Plath Edward Abbey and Rick Bass The text is punctuated by autobiographical interchapters in which Herring relates the book s chief themes to his own experiences in Yellowstone National Park Under the Sign of Nature Explorations in Ecocriticism      **Catalogue of Copyright Entries** Library of Congress.
