From the Treaty of Amiens in 1802 to the death of Alexander I, the Russian emperor, in 1825* William Russell, 1841 The Unmasking Style in Social Theory Peter Baehr, 2019-05-01 This book examines the nature of unmasking in social theory in revolutionary movements and in popular culture Unmasking is not the same as scientific refutation or principled disagreement When people unmask they claim to rip off a disguise revealing the true beneath the feigned The author distinguishes two basic types of unmasking The first aimed at persons or groups exposes hypocrisy and enmity and is a staple of revolutionary movements The second aimed at ideas exposes illusions and ideologies and is characteristic of radical social theory since the eighteenth century Enlightenment The Unmasking Style in Social Theory charts the intellectual origins of unmasking its shifting priorities and its specific techniques in social theory It also explores sociology's relationship to the concept of unmasking through an analysis of writers who embrace adapt or reshape its meaning Such sociologists include Vilfredo Pareto Karl Mannheim Raymond Aron Peter Berger Pierre Bourdieu Luc Boltanski and Christian Smith Finally taking conspiracy theories accusations of social phobia and new concepts such as micro aggression as examples of unmasking techniques the author shows how unmasking contributes to the polarization and bitterness of much public discussion Demonstrating how unmasking is baked into modern culture yet arguing that alternatives to it are still possible this book is in sum a compelling study of unmasking and its impact upon modern political life and social theory **A Critical Dictionary of the French Revolution** François Furet, Mona Ozouf, 1989 The French Revolution that extraordinary event that founded modern democracy continues to provoke a reevaluation of essential questions This volume presents the research of a wide range of international scholars into those questions 58 color illustrations 10 halftones **A Functioning Society** Peter F. Drucker, 2017-07-05 Peter F. Drucker may be best known as a writer on business and management but these subjects were not his foremost intellectual concern Drucker's primary concerns were community in which the individual has status and society in which the individual has function Here he has assembled selections from his vast writings on these subjects This collection presents the full range of Drucker's thought on community society and political structure and constitutes an ideal introduction to his ideas The volume is divided into seven parts The selections in parts 1 and 2 were mostly written during World War Two and in the wake of the Great Depression Part 3 deals with the limits of governmental competence in the social and economic realm It contains some of Drucker's most influential writings concerned with the difference between big

government and effective government The chapters in part 4 explore autonomous centers of power outside government and within society Part 5 contains chapters from Drucker's path breaking work on the corporation as a social organization rather than merely an economic one The rise of the so called knowledge industries forms the background for part 6 The concluding part 7 is devoted entirely to Drucker's long essay The Next Society Drucker examines the emergence of new institutions and new theories arising from the information revolution and the social changes they are helping to bring about In organizing these representative writings Drucker chose to be topical rather than chronological with each excerpt presenting a basic theme of his life's work As is characteristic of his efforts A Functioning Society appeals both the general reader as well as a cross disciplinary scholarly readership Frederick the Great and the Seven Years' War, 1756-1763 Herbert J. **Anger** Barbara H. Rosenwein,2020-07-14 Tracing the story of anger from the Buddha to Twitter Rosenwein provides a much needed account of our changing and contradictory understandings of this emotion All of us think we know when we are angry and we are sure we can recognize anger in others as well But this is only superficially true We see anger through lenses colored by what we know experience and learn Barbara H Rosenwein traces our many conflicting ideas about and expressions of anger taking the story from the Buddha to our own time from anger s complete rejection to its warm reception Rosenwein explores how anger has been characterized by gender and race why it has been tied to violence and how that is often a false connection how it has figured among the seven deadly sins and yet is considered a virtue and how its interpretation once largely the preserve of philosophers and theologians has been gradually handed over to scientists with very mixed results Rosenwein shows that the history of anger can help us grapple with it today

Overcoming Tradition And Modernity Robert D. Lee,2018-02-12 Authenticity has begun to rival development as a key to

understanding the political aspirations of the Islamic world Almost everywhere modernity has laid waste to tradition those habits and practices deemed to be timeless and true Imperialism carried European notions of progress into Muslim dominated parts of the globe and subsequently Muslims themselves espoused Western practices techniques and philosophies Regimes calling themselves liberal socialist and Arab nationalist all embraced modernity as their principal objective Most of these regimes failed to create the promised better lives their citizens desired Moreover ordinary Muslims felt despair as modernity ripped apart families exposed youngsters to the materialism and hedonism of Western entertainments heightened social expectations and undermined religious belief Even though tradition has proved itself incapable of staving off modernity the promises and premises of modern development literature have been called into question Where is the truth around which Muslims can rally Does modernity require a rejection of tradition Does the embrace of Islamic ideas necessitate turning away from modernity Robert D Lee explores these compelling questions by presenting four contemporary Muslim writers Muhammad Iqbal Sayyid Qutb Ali Shari ati and Mohammed Arkoun all of whom have refused to bow to such a dichotomy of modernity and tradition This study examines their efforts deeply influenced by European thinking to find a truth beyond tradition and modernity an authentic understanding of Islam upon which Muslims can build a future All four thinkers believe such an authentic understanding can serve as the foundation for a new politics Lee argues however that each of these versions of authenticity suffers shortcomings and falters in its efforts to move from the particularity of culture onto a grander scale of political organization appropriate for the modern world
