Electronics, Electrical Engineering And Information Science - Proceedings Of The 2015 International Conference (Eeeis2015) Xiaolong Li, Jian Wang, 2016-03-07 This book consists of one hundred and seventeen selected papers presented at the 2015 International Conference on Electronics Electrical Engineering and Information Science EEEIS2015 which was held in Guangzhou China during August 07 09 2015 EEEIS2015 provided an excellent international exchange platform for researchers to share their knowledge and results and to explore new areas of research and development Global researchers and practitioners will find coverage of topics involving Electronics Engineering Electrical Engineering Computer Science Technology for Road Traffic Mechanical Engineering Materials Science and Engineering Management Experts in these fields contributed to the collection of research results and development activities. This book will be a valuable reference for researchers working in the field of Electronics Electrical Engineering and Information Science Telegraphic Journal and Monthly Illustrated Review of Electrical Science ,1877 Science at the Cross Roads (Routledge Revivals) N. Bukharin et al., 2013-11-05 The papers given by the Soviet Delegation to the Second International Congress of the History of Science and Technology in London in 1931 headed by N I Bukharin exerted a profound influence on Western historiography of science Perhaps the most influential contribution was that of Hessen who made a long and classical statement of Marxist historiography taking Isaac Newton as his example The collection which appeared in Britain at the height of the Depression fostered an acute social awareness and a heated debate among many working scientists Accredited by some as the starting point of a new evaluation of the history of science the book reflects the huge social and economic divide between Socialism and Capitalism present at the time of publication and its influence on intellectual culture and scientific advancement
