Royal Geographic Society Illustrated A Unique Record Of Exploration And Photography:

Royal Geographical Society Illustrated ,2002 *Royal Geographical Society Illustrated* Royal Geographical Society (Great Britain),1997 Presents a collection of images and documents from the 160 year old archives of the Royal Geographical Society illustrating historic moments of travel and exploration This volume presents a visual journey around six regions of our planet and essays by such travellers as Hillary and Fiennes Canada in the Frame Philip J. Hatfield,2018-06-18 *Canada in the Frame* explores a photographic collection held at the British Library that offers a unique view of late nineteenth century and early twentieth century Canada The collection which contains in excess of 4 500 images taken between 1895 and 1923 covers a dynamic period in Canada s national history and provides a variety of views of its landscapes developing urban areas and peoples Colonial Copyright Law was the driver by which these photographs were acquired unmediated by curators but rather by the eye of the photographer who created the image they showcase a grass roots view of Canada during its early history as a Confederation *Canada in the Frame* describes this little known collection and includes over 100 images from it The author asks key questions about what it shows contemporary viewers of Canada and its photographic history and about the peculiar view these photographs offer of a former part of the British Empire in a post colonial age viewed from the old Heart of Empire Case studies are included on subjects such as urban centres railroads and migration which analyse the complex ways in which photographers approached their subjects in the context of the relationship between Canada the British Empire and photography **New Spaces of Exploration** Simon Naylor,James R. Ryan,2009-12-18 For many the dawn of the twentieth century ushered in an era where the world map had few if any blank spaces left to discover The age of exploration was supposedly dead *New Spaces of Exploration* challenges this assumption Focusing specifically on exploration in the twentieth century the authors demonstrate how new technologies and changing geopolitical configurations have ensured that exploration has remained a key feature of our rapidly globalizing world Ranging widely in their geographical focus from the Europe and Asia to Australia and from the polar regions to outer space they demonstrate the increasing diversity of modern exploration and reveal the continuing political military industrial and cultural motivations at play The result is a major contribution to our understanding of the significance of exploration in the twentieth century Contributors include E Baigent C Collis K Dodds F Driver M Godwin J Hill F Korsmo F MacDonald S Naylor J Ryan N Thomas and K Yusoff **The Publishers Weekly** ,1999 **Publishers' circular and booksellers' record** ,1875 **The Publishers' Circular and General Record of British and Foreign Literature** ,1889 The Athenaeum ,1891 Proceedings of the Royal Geographical Society and Monthly Record of Geography Royal Geographical Society (Great Britain),1880 Zanzibar Chris McIntyre,Susan McIntyre,2013 Both evocative and magical *Zanzibar* offers travellers the quintessential Indian Ocean experience palm fringed coastlines powder white sand and colourful aquatic life Passionate about detail Chris and Susan McIntyre have carried out extensive on the ground research in producing this updated edition There has been significant

growth in the number of hotels lodges and guesthouses on all three main islands since the last edition and consequently the accommodation listings have increased significantly notably in Zanzibar Town Stone Town Matemwe Michamvi Peninsula and Mafia island They visited all the accommodation listed With almost 300 properties featured many are newly built and the vast majority spanning all budget levels do not feature in any other guide on the market Each entry has a detailed description with a strong emphasis on guiding readers to the most ethical options Zanzibar goes into far greater depth than its competitors on the natural environment history culture and sights Few other guide books cover the islands of Pemba and Mafia in any detail and yet they are easily combined in a trip With a focus on the environment visitors are directed towards fair trade shopping opportunities and sustainable marine parks This new edition also includes a dedicated section on southern Tanzanian safaris making this guide excellent for readers looking for a bush and beach combination Advice is given on how to be sensitive to the local Muslim culture Bradt's guide is the most frequently and scrupulously updated guide available vital for a destination with tourism growing and changing so rapidly
