Diachrony of Personal Pronouns in Japanese Osamu Ishiyama,2019-01-15 Personal pronouns in Japanese form a heterogeneous category This book investigates their historical development from a functional perspective It shows that while nouns give rise to personal pronouns through semanticization of pragmatic inferences the use of non nominal forms such as demonstratives and reflexives for person referents can be resolved within their original functions offering little reason to treat them as personal pronouns The cross linguistic investigation into the common sources of personal pronouns reveals that the development of personal pronouns from nouns is largely consistent with grammaticalization but that of forms of non nominal origins requires separate mechanisms such as spatial empathetic perspectives and displacement of semantic features for politeness showing that a one size fits all approach to diachrony of personal pronouns is not sufficient This book will be of special interest to researchers and students in historical linguistics pragmatics and Japanese linguistics who take a functional view of language **The Literary Digest** Edward Jewitt Wheeler,Isaac Kaufman Funk,William Seaver Woods,Arthur Stimson Draper,Wilfred John Funk,1917 Japanese Propaganda United States.
